

**TO BE DEPENDENT ON.**

Because it is the Experience of a Shenandoah Citizen and Can Readily be Investigated.

A stranger lost in a large city would place far more dependence on the directions given him by a local resident than the guidance of another stranger like himself. This is a natural consequence of experience; it's like a ship in a strange port—a trusty pilot familiar with the harbor is always called upon to bring her safely to her moorings. So it is with education; we doubt the sayings of people living at distant points because we can't investigate, but public expression of local citizens can be depended on, for 'tis an easy matter to prove it. Evidence like the following is beyond dispute:

Mrs. Thomas McKay, of 302 Raspberry alley, says: "I had aching in the small of my back and a lameness or tenderness in my loins when stooping or rising from a chair. There were spots in the top and back of my head and a feeling of weariness hanging over me all the time. I had no energy and seemed more tired moraines than I was the night before. Doan's Kidney Pills were highly recommended to me. I got them from Kirilin's pharmacy on South Main street and began using them according to directions. I found immediate relief, they soon stopped the dull, grinding aching in my back, removed the lameness and also the languor from which I suffered."

**FOUR DOCTORS FAIL**

18 months in a chair. A Specialist also fails to even relieve a bad case of Asthma. The BRAZILIAN BALM instantly relieves and effects a Radical Cure. Shaker Station, Ct., Feb. 3, 1899.

Brazilian Balm has done so much for me, after suffering 2 years with Asthma. I received no help from four of our local physicians, and a specialist in Hartford, who is at the head of the hospital and receives all the critical cases in the adjacent counties. For 15 months I never laid down—set in a chair day and night and had to be drawn from one room to another. By my doctor's orders I went south and had several months, but received no benefit. At last Brazilian Balm was recommended to me so highly I decided to try it. Inside of a week I could sleep in my bed. Now I am out doors every day, tending to everything, do not have any Asthma, and will soon resume my old occupation, foreman of the Eddy Electric Mfg. Co., of Windsor Ct.

Most gratefully yours, Wm. H. Wood.

Pennsylvania Towns Greet Their Own Companies of the Tenth.

CREEBED, DINED AND DECORATED

Washington and Untertown Presented Each Member of Their Home Companies With Gold Medals—Providing Amusement for Philippine Fighters

Beaver Falls, Pa., Aug. 30.—The reception given by the citizens of New Brighton yesterday in honor of the return of the Company B, of the Tenth regiment, to their homes was in every way befitting the occasion. The feature of the morning was a parade, military and industrial, in which the returned soldiers again marched through the streets and were cheered by thousands of people. A number of speeches were made at the park after the parade and the afternoon was taken up with races and amusements of various kinds.

Waynesburg—It was Company K day here. From every building flags and bunting waved. At 10 o'clock the people began to throng the depot yards. All along the line of march from the station was a dense crowd. On arrival at the college campus the procession disbanded and the boys were allowed to mingle among their friends for a while, when they were called to the elegant dinner prepared for them.

Connellsville—Company D, Tenth regiment, reached Connellsville, its home town, a few minutes before noon, and 4000 people gathered from surrounding towns and welcomed the troops. In the afternoon exercises were held at Riverview park, where Captain Crow, General Koontz, E. C. Higbee and others made addresses. The parade followed, and the exercises wound up with a banquet at 4 o'clock.

Washington—With superb weather, the streets ablaze with such a display of the national colors as was never seen here before, booming anvils, the sidewalks thronged with admiring thousands, a pleasing program of music and addresses, and not a thing lacking in the hearty reception accorded Company H at the headquarters of the Tenth regiment. At the college campus the program was carried out as arranged, with band and vocal music. The address by M. L. McCracken, Esq., Colonel McGiffin, James S. Stocking, Rev. H. W. Temple and Dr. Moffat, and the presentation of a fine gold medal to each member of the company.

Uniontown—The reception to Company C was one of the greatest events this town has ever enjoyed. Extensive preparations were made for the celebration, and the program was carried out without a break. The procession marched over the principal streets of the town, ending at the fair grounds, where the formal program was carried out. Each member received a gold medal and the officers swords, all suitably engraved.

The Situation in Santo Domingo. Kingston, Jamaica, Aug. 30.—Nelson B. Clark, of Boston, who has just returned from Santo Domingo, confirms the recent press advices as to the situation of affairs in that republic, but he adds that the revolution is so essentially national and devoid of personal political element that the adherents of Jimenez are advising him not to come to Santo Domingo for the present. What the people are clamoring for is not a mere change in the political personnel, but good government and financial solvency, with which they associate the idea of American annexation or protectorate.

**THE TRIAL OF DREYFUS.**

Ex-Premier De Freycinet's Testimony Favors the Accused.

COLONEL CORDIER'S TESTIMONY.

It is Contested by a Procession of Generals and Officers, Including General Mercier—The Latter Will Not Throw up the Sponge.

Reims, Aug. 20.—Neither side was pleased with the outcome of yesterday's proceedings before the court martial that is trying Captain Dreyfus. The Dreyfusards expected that Colonel Cordier, who was deputy chief of the Intelligence department under the late Lieutenant Colonel Henry, would testify that the bordereau was received directly by the late Colonel Sandherr. Had this expectation been realized the testimony would have been a strong point in favor of the accused, because it would have been a reply to the anti-Dreyfusards, who have all along contended that Henry received the bordereau and forwarded it to Sandherr, a thing he would not have done had the bordereau been, as the Dreyfusards assert, written by his accomplice, Esterhazy, for in that event Henry would have recognized the handwriting when he received the bordereau from the German embassy and would have suppressed it, instead of forwarding it to Sandherr.

Colonel Cordier, however, testified that he was absent from the Intelligence department when the bordereau arrived, but that he believed it was received by Henry. Naturally this statement elicited the anti-Dreyfusards, but they had no good reason to congratulate themselves upon the remainder of Cordier's testimony, as it was wholly in favor of Dreyfus.

On the other hand the procession of generals and officers of the general staff who demanded an opportunity to confront Colonel Cordier was a good piece of tactics from the point of view of the anti-Dreyfusards. All the points they contested were not of the first importance, but their very appearance on the stage and the contradictions of some of Cordier's statements left a disagreeable impression.

The appearance of General Mercier to question Colonel Cordier came as a surprise to many in the audience, who had supposed that after last Saturday's scene, when Mercier was confronted with Captain Freystaetter, he would remain quiet. But Mercier is game to the death.

His action is interpreted as intended to show that he is not going to throw up the sponge. The part he played in 1894 lays him open to arrest, and this is a constant topic of discussion in the cafes and at other meeting places in Reims. There appears, however, to be a good reason why the government will not take any such serious step until the trial is over. Colonel Jouaust, president of the court martial, could adjourn the trial indefinitely if Mercier, who is an important witness, were arrested. If the trial were adjourned for more than 48 hours it would lapse and the proceedings would have to be gone over again from the beginning.

Yesterday's attendance was the largest since the opening of the trial. Everybody was on the qui vive to hear the testimony of Charles de Freycinet, former premier, former minister of foreign affairs and former minister of war. This ardent politician, the "white mouse" of French politics, sat upon the fence as well as he could. His expression of a fear that the Dreyfusards would injure the discipline of the army greatly annoyed the Dreyfusards, as calculated to influence the judges against the accused. But he followed it with an eulogy of the pioneer of the Dreyfus campaign, M. Scheurer-Kestner, former vice president of the senate, whose character he said he held in the highest esteem.

M. Labori then accused another conception favorable to Dreyfus by getting M. De Freycinet to admit that he could not recall a single fact going to prove that money had been sent into Reims from abroad to promote a campaign in favor of Dreyfus. The general feeling, however, is that his appearance on the witness stand has not materially helped the accused.

The purse was worth \$20,000 and was the third of a series of futurity offerings put up by John C. Boster, of Chicago. The race was the fastest 3-year-old futurity ever trotted, the first heat being made in 2:12.

**JIMENEZ UNDER ARREST.**

Santo Domingo Pretender Held by Order of General Wood.

Santiago de Cuba, Aug. 30.—General Juan Isidro Jimenez, the revolutionary applicant to the presidency of the republic of Santo Domingo, who arrived here on Monday with his two sons by the south coast steamer, but was not allowed to land, came ashore yesterday and was placed under arrest by the order of General Leonard Wood, the military governor, who will not permit him to proceed to Santo Domingo except after instructions to that effect from Havana.

General Jimenez is very indignant at the treatment to which he is subjected, though he does not attempt to conceal his intention to proceed to Santo Domingo and to become president of the republic.

General Jimenez said that when General Bureaux, the late president of Santo Domingo, was assassinated, he called to his friends in Santo Domingo to do nothing until his arrival. The principal portion of the revolutionary forces complied with this request, but he asserted, his detention by the Americans had forced a general outbreak, which would probably be successful immediately, and would certainly accomplish its purpose within ten days after his arrival in the country.

News has reached here from Santo Domingo confirming the report of the defeat by the revolutionists of General Peplin, in command of a government force, who lost 30 men killed and had 40 of his soldiers captured. In addition General Peplin was compelled to abandon a convoy of provisions.

**The Demand For Commissions.** Washington, Aug. 30.—With about 100 commissioned places yet to fill in the new regiments under organization Secretary Root finds himself overwhelmed with applications, even greater in number than the total of those received at the beginning of the Spanish-American war. The large majority of the men who held commissions in the volunteer army in that war are again applicants for service in the Philippines, reinforced by nearly all those who were discharged from commissioned places. This same willingness to re-enter the service is said to be observable among the enlisted men.

**DISGUISED DANGER.**

Hunters sometimes hide themselves in the disguise of a cow, and thus make their way into the very midst of the most cautious game. The mode of this disguise operation is shown in the picture.

In a similar manner consumption hides itself in the disguise of a throat or bronchial affection, making its way finally to the lungs, where the insidious germs eat away the victim's life. A stubborn cough, bronchitis and other throat troubles are the first steps toward this deadly malady. Dr. Pierce's Golden Medical Discovery will prevent consumption, curing every contributing cause. Time and time again, it has cured what local physicians have pronounced well-developed consumption. It makes the stomach healthy, the liver healthy, the blood healthy. It is a rejuvenating tonic, which makes the weak strong; puts ambition into tired people; puts life into thin bodies, and vigor into sluggish veins. It is a peculiar medicine in that its properties are preserved in any climate without heating the system, rendering into its composition. It does not crave for injurious stimulants. It is the personal prescription of Dr. R. V. Pierce, of Buffalo, N. Y., whose widespread experience and success are at the service of the public without cost. Anybody, anywhere can consult him free by mail.
