ACCIDENT TO LIEUTENANT PEARY

Having His Foot Frostbitten, He Was-Obliged to Have several Toes Ampus tated-Will Be ftends to Take the Fleid Again in February.

Brigns, N. F., Sept. 11,-The Pearv-Harmsworth steamer Windward, Cap-tain John Bartiett, from Etah, North Greenland, Aug. 26, arrived here yea-ternay, reporting all well on board. Sho will be followed in a week by the Peary Arctic club's steamer Dians, Captein W. Bartlett, also from Etah. Windward reports that all on board the Diana were well at the time the ves-

sels separated. two steamers met at Etah on very bad off. Every two weeks I was | Ang. 12 and worked in company under the personal direction of Lieutenant Peary in collecting supplies for the winter and the equipment for the next spring campagn. The Windward was lee bound in All Man bay, on the west side of Kane bash, about 50 miles north of Cape Sabine, from Aug. 18, 1898, to Aug. 2, 1899, being in a sort of eddy undisturbed by wind or current. The season was one of continuous calm, with very little snow, the mini now able to help about the house, and am much improved in health."—Mus. A. WALKER, CALLICOON DEPOT, N. Y. ward's company, including ten Esquident or ensually of any kind

Lieutenant Peary and the sledge par-ties were in the field almost continuously from October, 1898, to August of this year, and have effected an extraordinary amount of important works. His sledging journeys aggregated over

As soon as the young ice could bear a sledge Lieutenant Peary made a careful reconnuisance of the coast line southwest of All Man buy and care fully defined the lands and water to tween that point and Cape Sabine. The coast line of Princess Marie bay and

This work completed, Lieutenant Peary next made several successful hunting trips and laid in an ample supply of fresh meat, including musk seals and birds, for the winter Ctilizing the December moon, he siedged along the ice for 250 miles over almost appaulible ice, to Fort Conger, the headquarters of the Greeky He had the misfortune turn trip. Lashed to a sledge, he was hauled all the way to the Windward, rapidly, and he now walks as well as

Lieutenant Peary found Fort Conger exactly as threely left it. The table much longer. He took possession of all the property, real and personal, in the name of the United States govern-ment and posted notices to that effect. He brought away, and is sending home the original Greely records, the sex tant of Lieutenant Beaumont, R. N. of the Hares-Markham expedition of wood, and many private letters and papers of members of Greely's party, all of which are to be forwarded to the Peary Arctic club, of New York.

He also pushed a reconnaissance be-yord Fort Conger to Cape Beechy, unding practically the same conditions and sea us south of the forme point. Subsequently he made a second trip to Fort Conger, and in all four arties from the Windward reached that point and returned without other ent than that to Lieutenant Peary

imself as a result of the winter work Four tons of provisions, two at Conger and the others distributed between Cape Sabine, Durville, Louis Napoleon Frazer and other points not more than 50 miles apart, have been deposited and both natives and whites engaged in the work have been made so familiar with the route and the caches that all risk to life and limb along this path practically ended. His winter headquarters Lieutenant

Peary has established at Etah, one of the eligible points on the cast side of Smith sound. Ample supplies for the remainder of the time of the expedi-tion, not less than 50 tons, have been landed. He has built a commodious living and working room for himself more we are learning that our coal seams are not continuous sheets which extend over the areas where they are due, but are, on the contrary, generally local deposits.

AND lessons ambition; beauty, and his companions, in which they are due, but are, on the contrary trary, generally local deposits.

AND lessons ambition; beauty, and his companions, in which they will be thoroughly comfortable during results use Dr. Kilmer's Swamp-Root, the great kilmey remedy. At drugglists. Sample bottle by mult free also pamphlet.

Address, Dr. Kilmer's Co., Ringhamton, N. Y.

The winter will be spent in rest and

Foul-Smelling Catarrh.

Catarrh is one of the most obstinate diseases, and hence the most difficult

to get rid of. There is but one way to cure it.

The disease is in the blood, and all the sprays, washes and inhaling mixtures in the world can have no permanent effect whatever upon it. Swift's Specific cures Catarrh permanently, for it is the only remedy which can reach the disease and force it from the blood.

Mr. B. P. McAllates of Manual and the trade petween the United States to Cuba for the seven months of 1899 ending July 31, making comparison with the year 1898.

The exports from the United States to Cuba for the seven months were \$14,116,993 in 1899, against \$4,485,837.

Mr. B. P. McAillatter, of Harrodsburg,
Ky, had Catarrh for years. He writes:
"I could see no improvement whatever, though I was constantly treated with sprays and washes, and direct in fact, could feet that each winter I was worse than the year previous in fact, could feet that each winter I was worse than the year previous in fact, I could feet that each winter I was worse than the year previous "Finally 1 to was brought to my notice that the carpet to be cured by the summer as and after think to expect to be cured by remedies which only remedies which only remedies which only remedy the disease was forced out of my system, and a complete cure was the result. Ladvise all who have this dreadful disease the abandon their local treatment, which has neved done them any good, and take S. S. S., a remedy that can reach the disease and cure it."

To continue the wrong treatment for Cutarrh is to continue to works.

Catarrh is to continue to suffer. Swift's months shows a marvelous growth of Specific is a real blood remedy, and cures obstinate, deep-seated diseases, which other remedies have no effect tying in all the islands and especially whatever upon. It promptly reaches so in the Philippine Islands.
