EXPORT EXPOSITION.

The Great Show Which Opens in Philadelphia Next Thursday.

EXHIBITS OF AMERICAN SKILL.

The Display of Manufactured Products Will Be Most Complete, and the Amusement Features of Other Great Exhibitions Will Be Improved Upon.

Philadelphia, Sept. 11.—The National Export exposition will be opened at noon on Thursday. Less than five Mrs. Elizabeth Sitzer, of 111 West Coal months ago the first spadeful of dirt street, says: For five years I had eezema was turned up for the foundation of on one of me limbs and I could get nothing to cure it a though I tried many remedies. I sen away and paid a dellar a box for propared at a cost of more than a million dellars. This splendid exars the which did me no good at all. I read ars loss which did me no good at all. I read quickness is in itself an indication of the scope and character of the exposition, and the vast auditorium, in which it, it gave relief and it was the first remedy the opening ceremonies will be held, is which bested the eczema and subdued the inflammation. My aukle used to itch and of the undertaking. Although a magburn so that I could not sleep and this added burn so that I could not sleep and this added the my other suffering Doan's Outment is the best remedy for each male ever found in a search extending over five years.

The opening ceremonies on Thurs P. Agent, 391 Broadway, New York. 4-22-ti is in turn to deliver it into the custody of the mayor of the city, and Congressman Hepburn will accept a joint supervision of the enterprise on be-Wilson, and the other addresses and ceremonies of the day, which will be participated in by Archbishop Ryan and other prominent clergymen, will be of the most interesting character.

The conception of the idea of an ex hibition to illustrate the astonishing growth of the export trade of the United States in recent years was the out growth of the tour of the representa tives of the various foreign governments who came here to study our in dustries in 1897, and grew specifically from their visit to the little fair held at Providence, R. I. In that year, when the late Dr. Pepper, Dr. W. P. Wilson, director of the Commercial Museum, who is the director general of the existing enterprise, William Harper and others, accompanied the visitors to that city. The thought was taken up by the Philadelphia Commercial Museum and the Franklin Institute. As a result of the movement thus inaugurated the public will find a presentation of American trade movements and mechanical and art enterprises of a most surprising and interesting char-

The display of manufactured products which have a present or contemplated foreign market is very complete, and the methods of manufacture showcompletion of a needle or a cuff button or of a giant locomotive or a great bridge, will be everywhere before the eye in varied and almost endless sucssion. The beauty and extent of the buildings themselves, as now com-pleted, compare with the best product of the Centennial or the Chicago World's fair, and in freshness and up-to-date originality surpass anything een at either of those great industrial and art shows.

A surprising and brilliant musical program has been arranged, which includes the co-operation of the United States military band, Sousa, the great march composer, Damrosch's great or-chestra, the Banda Rossa, Innis' faous concert band and the Municipal band of Philadelphia. These musicians will be supplemented by a succession of celebrated organists, who will give recitals on the gigantic organ.

On the esplanate the public finds a great variety of amusements, rivaling in some respects the famous Midway of the Chicago fair. This includes a Chinese village of 450 persons and all the variety of Chinese religion and domestic life. There are also such things as an Oriental theater, where one can indulge in pipes of the east and the Oriental cup that cheers but not inebriates; also where one can see the realistic side of Indian life and of the old plantation southern existence be-fore the war, where one also may see the blarney stone, with all its sur-roundings and the blue Killarney lakes and Irish home life. If one has a dis-position that way, there will be an opportunity to see Hagenback's trained beasts, glass works in full operation and a great candy factory. There will be picture shows and startling novelties, striking electrical effects. from these esplanade exhibitions will be some new effects in electricity which Tesla has made somewhat vaguely familiar to the public.

The importance, as well as the hu-man interest, in the export exposition may be indicated by the fact that some great personages have already taken interest enough in the exhibition to visit it. President Diaz, for instance, of Mexico, who is likely to be an in-teresting figure in the International Commercial Congress, closely associated with the exposition, is one of the expected visitors. Since Dom Pedro's time, who visited us at the time of the Centennial, and except, perhaps for Kalakua, this visit will be the first of any national ruler during his rulership to visit the United States.

Brazillans Son a Profest For Dyn Mexico City, Sept. 11.—Private adthat the government here has been greatly influenced by the accounts regarding the alleged secret understanding between the Bollvian and the United States government by which the latter power was to take over the ter ritory on the Upper Amazon claimed by Bolivia, a region rich in rubber It is alleged in Rio de Janeiro that American naval officers have reconnoitered and roughly surveyed the re-gion and sent their secret reports to Washington. It was first charged that Mr. Bryan, United States minister to Brazil, was a party to the agreement with Bolivia, but it is now said that the Bolivian secret agent, named Uthoff, made the agreement with the United States consul at Para. There is some doubt about this, but such is the belief of the Brazilian newspapers and people and the Argentine press has begun, instignted by European residents, to set up the cry that the colos-sus of the north is moving southward and Intends to control and ultimately annex all South America, and so dilfgent has been the propaganda of this story that the newspapers in Mexico of the ciercal stripe have taken it up editorially, predicting the absorption of all this hemisphere by the greedy and land hungry Americans, who are ac-quiring lands in Brazil and Peru and who will soon be able to afford the Washington government a pretext for attempting to overthrow the South
