KNOWING DRUG VALUES. THE CRIME OF THE CESTURY.

Germans Denounce the Conviction of Droyfus in Vignesus Trems. Berlin, Sept. 11.—The Dreyfus verdict causes a feeling almost of stupe-faction in Berlin. It had been hoped that the statement of The Reichsanneiger, as emanating directly from Emperor William, would have render-

ed impossible the repetition of what is described as "one of the greatest judi-cial and political crimes of any age," It is universally agreed that the second verdied is a grave political blunder, a violation of the laws of civilization and an act of moral cowdice which the world will find it ifficult to pardon.

The German press unanimously de-eribes the verdlet as cowardly and impolitic, not to say criminal. The Coonne Gazette saya:

"It is a cowardly verdict, in the bar-barous uptrit of the middle ages. By this crime the judges have imposed a line of debarkation between France and the rest of the world, which, although it will not prevent diplomatic intercourse or stay the common exchange of products, will, according to all the notions of right, Justice, honor, tolerance and ethics which the civil-ized world bears with it in the twentieth century, form a barrier only to be removed by time and laborious ef-

The Morning Post declares that "the mitigation of the sentence will be in-terpreted all the world over us evidence that the Judges who condemned Dreyfus really believe bim innocent."

The Dally Telegraph says: infamous Judgment disgraces France, dishonors her army, Insults the kaiser and offends the best principles of humanlty. There seems nothing left for is needed, more often an optician. France but a revolution and a war that will reduce her to the level of Spain.
