OUR COUNTRY: First, Last and Forever.

In talking about that French misadventure of justice, Americans should also endeavor to keep their heads.

WHEN Editor Tom Joyce again winds the editorial pen it is said he will use sarcasm in expressing his opinions of certain statesmen.

AMERICAN history affords no instance of the success of a party conducted to pull down the flag or to renounce territory gained by treaty.

HAS "the gentleman from Auburn" taken to the woods? Perhaps the confidential clerk, with a salary of one hundred dollars a month, is directing matters by wireless telegraphy.

THE total loss of the American army in the Philippines since the first arrival of troops to last Tuesday is 280 killed, 138 died from wounds and accidents and 480 died from disease, footing up 900. The wounded who recovered or are recovering number 1000. Only eighteen are in the list of captured and missing. It is a comparatively light record for extensive operations covering more than a year.

THERE is not much satisfaction in being a county chairman if the sins of war are not legally collectible. It takes the fun out of the business and does no good to the party. A wise nominee will, however, act properly if he contributes liberally towards the legitimate expenses of the party.

The children who attend the district schools of Pennsylvania are being defrauded seems to be fairly well proved by the report filed with the State Superintendent of Public Instruction by Professor McNeal, who recently retired as Superintendent of county schools.

Professor McNeal reviews the abuses and points out the needs of the county schools at great length, and finally pays his compliments to the Directors, who, he says, never visit the schools, never attend a meeting of the Directors' Association and utilize the time at their disposal in settling the affairs of the nation at the village stores instead of giving care and proper attention to the village school.

He favors a longer term than six months in the county schools and scores bitterly the Directors who are so anxious to get the state appropriation, but fail to levy a tax, and also take little interest in school affairs.

Professor McNeal says: "By reason of longer terms and better salaries the cities and larger towns are continually taking away many of the better teachers from the country districts. When a teacher has made a reputation in one of the short-term districts he is wanted in a more progressive community, where the term is longer and the remuneration better. Many bright, industrious pupils in the country schools are crippled in their progress because of poor teachers, short terms and lack of other facilities necessary to successful work."

"It is time the people of the country districts waken up to the fact that their children are being defrauded by the parsimonious policy pursued in the management of the schools. They should demand school advantages for their children that will equip them for a fair chance of success in the race of life."

"To this end they must cease to elect as Directors men who persist in running the schools on a half-mill tax rate."

In general, the schools are in excellent condition. The buildings are good and fairly well equipped, but none of them compare in any way with those of the towns and cities, and it is manifest that they should, to a degree at least.

PINGREE THE STAR ATTRACTION

At the Meeting of the Trust Conference in Chicago, Sept. 15.—Enthusiastic interest and a crowded hall put last night's session of the conference on a sharp contrast with the forenoon and afternoon gatherings. Central Music Hall was packed with an audience that represented nearly every class of people.

The next speaker after ex-Secretary Foster was Attorney General Davis, of Arkansas. When Mr. Davis concluded the audience was in a state of agitation, which he thoroughly enjoyed. A slip of the chairman, who announced "The next toast" and was overwhelmed by the laughter which ensued. He finally found opportunity to introduce Professor George Gunton, of New York.

During the latter portion of his speech Mr. Gunton was frequently interrupted with questions from spectators in the gallery. "How about the Standard Oil company?" asked a man in the rear. The speaker started to reply, but was interrupted again and again, despite the chairman's caveat.

Some Foolish People Allow a cough to run until it gets beyond the reach of medicine. They often say, "Oh, it will wear away," but in most cases it will wear them away. Could they be induced to try the successful medicine called Kemp's Balsam, which is sold on a positive guarantee to cure, they would immediately see the excellent effect after taking the first dose.

Another Challenge to Esterhazy, Columbia, S. C., Sept. 15.—The following challenge to mortal combat was mailed to Comte Ferdinand Walsin Esterhazy yesterday by Paul E. Ayer: "Believing you to be answerable for the military humiliation of Captain Dreyfus, of the French army, and he (Captain Dreyfus) not being able to call on you personally for satisfaction, I, as an American, free born, loving liberty, do volunteer in my own right to meet you on the field of honor in behalf of Captain Dreyfus at any time and place agreeable to you."

Greenline Factory Blown to Atoms, Lima, O., Sept. 15.—Yesterday the Ohio and Indiana Glycerine company's factory, southwest of the city, recently bought by the Hercules company and closed down, was blown to atoms by an explosion, origin unknown. The machinery had been removed and the explosion was caused by a number of old cans being stored in the building. No one was around so far as known. The building had been damaged by three previous explosions since 1892, two being killed and several injured.

Yon Try It. If Shiloh's Cough and Consumption Cure, which is sold for the small price of 25c. and 50c. and does not cure take the bottle back and we will refund your money. Sold by E. D. Kirin on a guarantee.

Admiral Watson in Good Health. Washington, Sept. 15.—The surgeon general of the navy has received a letter from the fleet surgeon of the Atlantic station in which that officer says that Admiral Watson is now enjoying good health. As the stories of his being relieved in the near future by Admiral Remy depend for their accuracy upon the condition of Admiral Watson's health, this letter has had some influence upon the plans of the navy department.

Sacrificed to Blood Poison. Those who have never had Blood Poison do not know what a desperate condition it can produce. This terrible disease which the doctors are totally unable to cure, is communicated from one generation to another, inflicting its taint upon countless innocent ones.

Some years ago I was inoculated with poison by a nurse who infected my babe with blood taint. The little one was unwell and his life was yielded up to the fearful poison. For six long years I suffered untold misery. I was covered with sores and ulcers from head to foot, and no language can express my agonies. Several physicians advised me to give up, but I refused to do so. I was advised to try S. S. S. and I did so. I had the best medical treatment, but it did not help me. I was advised to try S. S. S. and I did so. I had the best medical treatment, but it did not help me.

Of the many blood remedies, S. S. S. is the only one which can reach deep-seated, violent cases. It never fails to cure perfectly and permanently the most desperate cases which are beyond the reach of other remedies.

S. S. S. For the Blood. It is purely vegetable, and is the only blood remedy guaranteed to contain no mercury, potash, or other mineral. Valuable books mailed free by Swift Specific Company, Atlanta, Georgia.

Mrs. Pinkham's Advice Saved Mrs. Hayes From an Operation.

DEAR MRS. PINKHAM—Words cannot express my thanks to you for your kind advice to me in regard to my health. I had been running down in health for about seven years. I had doctored with good doctors and taken a great many patent medicines. My trouble began when my first child was born. I had a very hard time and after his birth would have never recovered.

"After my second child I had very good health until last winter when I again became pregnant and suffered very much and miscarried. I came very near dying, and the doctor said I must have an operation, which frightened me very much, and concluded to write to you for your advice, and take your medicine. Was troubled with the whites, great pain in back and hips, sometimes when lying down or sitting was unable to get up. Would have such pain in groins could hardly walk."

Letters like the foregoing should convince everyone that Mrs. Pinkham's advice is certain help.

NEW YORK'S DEWEY RECEPTION.

None of the Cabinet Officials Will Take Part. New York, Sept. 15.—With the exception of a settlement as to the line of march for the land parade, the preliminary arrangements for the Dewey reception ceremonies are about complete.

None of the members of the president's cabinet has accepted the invitation of the city to participate in the reception ceremonies. Lyman J. Gage has declined, pleading pressure of business, and refusing to accept yesterday from the postmaster general, secretary of state and the secretary of war.

Mr. Root said in his letter: "The secretary of war regrets that press of public business will make it impossible for him to accept the courteous invitation of the mayor of the city of New York."

The list of governors of states who will attend the reception is growing. The governors of North Carolina, West Virginia and Connecticut have written, giving details as to the military forces that will accompany them. Colonel H. H. Dams has been appointed adjutant general to General Howard for the Dewey parade, and Colonel Adams will attend to the organization of the G. A. R. for the parade.
