THE SHAMROCK'S TRIAL RUN. Twonty-three Mines in Three Hours,

In a Light Breeze. New York, Sept. 16.-in a light precze from the west-northwest, varying from six to eight knots an hour Sir Thomas Lipton's yacht, Shamrock salled over a course of about 23 miles yesterday in three hours and four eight knots an hour. The first half of the course, from Scotland lightship to the outer mark, was dead to leeward before the wind, ten miles. The last half was ten miles to windward, with three miles added for the tacks made, making a total of 23 miles. The ten mile run before the wind was covered in one hour and sixteen minutes, and the windward mark of 13 miles in one our and forty-three minutes. Th total elapsed time shows that the Co-humbia sailed the same distance in her last race with the Defender, at Newport, 29 minutes and 44 seconds faster than the challenger, but there was more wind at the Newport race during the windward work, so the comparison is hardly a fair one.

THE MAZET INVESTIGATION.

Mr. Moss Says the Judges Criticized

Him Without a Hearing. New York, Sept. 16.—Contrasted with the pyrotechnic display at Thursday's session of the Mazet legislative investigating committee yesterday's pro-ceedings were dull and uninteresting in the extreme. The first portion of the day's hearing was devoted to a continuation of the investigation of the \$200,000,000 Ramapo Water company and although some of the testimony brought out was rather important, the audience seemed to take little interest even when ex-Mayor Wurster, 01 Brooklyn, was on the stand. His evidence was technical and not easily comprehended by a layman.

A dozen firemen who thronged the cooms of the supreme court were called to the stand for the purpose of demon-strating that intoxication prevailed in the fire department, that the men were compelled to contribute 1 per cent of their salaries to the general welfare of Tammany Hall and that other abuses prevailed in this section of the municipal government. Nothing sensational, however, was elicited. At the conclusion of the hearing Mr.

Moss gave out a statement in reply to the typewritten document produced Thursday by Richard Croker, Mr. Moss explained that he had not witthe signature to the document to which Mr. Croker and Justice Vau Brunt had objected, but that he had acted in good faith, and that the opinion of the judges given out by Mr Croker was written without his being accorded a hearing.

Caracas, capital of Venezuela, report that the Venezuelan revolution under the leadership of General Cipriano Caatro is assuming overwheiming pro-portions, in spice of the wholesale im-prisonment of political personages known to be implicated in or who are suspected of complicity in the move-ment against the government, and who have been unable to reach the insur-gents' lines. The government has been endeavoring to provent the news from reaching the ports, but it was understood at La Guayra that Presi-dent Andrade would change the com-position of his cabinat and proceed to position of his cabinet and proceed to take command of the government troops, which had sustained two se vere defents, losing quantities of munitions of war, camp equipments and prisoners, successing the desertion of the government troops and collusion upon the part of the government gen-

erals with the insurgent forces. The populace of Caracas and La Guayra is apathetic, but the whole in-terior is reported to be rising behind the banner of the revolution. The government of Venezuela has

one small steamer, carrying light guns, for guarding the coast, which left La Guayra Monday.

political firm of Brumm, Whitehouse & Co. has been dissolved by mutual & Co. has been dissorved by Molte-consent, and that W. John White-house will continue the business at the old stand. The cause of this dis solution is stated to be a dispute over the spoils—who shall name the suc-cessor to Revenue Collector Harrison Kear, who has desided to tender his Kear, who has decided to tender his resignation because of ill health. It is a fat, juicy plum, and each memher of the firm is naturally anxious to appropriate it for the benefit of t one of his chosen followers.

There are a number of applicants seeking the position, but the one who is urging his claims with the greatest persistency is John F. Gressang, who persistency is John F. Gressang, who has held political office since the mind of man knoweth not. His ap-pointment is urged by Whitehouse and Losch, and is just as strongly opposed by Brumm. What position Postmaster Schrink, the silent V Matulatis. this momentons question is not made plain, but we infer that he is "on the fence." Whitehouse made the Hon. Thus we conclude, giving in advanced stages. If you are not satisfied our friend Schrink the benefit of all with the results we will refund your money doubt, that he is neutral, occupying the position of the man "between the devil and the deep sea."

We are further informed that the gentleman from Minersville, who once upon a time walked the halls of Congress, has a candidate of his own, but so far has kept him in the background. He is supposed to hall from St. Clair and bears the name of Clay W. Evans.

The dissolution of this political firm is given on authority of a county seat newspaper, but we have our doubts about its truthfulness. These patriots are very "chummy," and their mutual interests lie not in dissolution. The story, on its face, looks very fishy.
