THERE will be no cutting of the county ticket by the Republicans of Schuylkill this year. They are just going to put forward their best efforts to elect every man on it by a sub. stantial majority. That is the way to place Schuylkill in the column of reliably Republican counties.

It is possible for an American to lose his United States citizenship by long residence in the Transvaal; by concentrating his en-tire business there, by failure to clearly establish his intention to return to the United States, and in other ways President Kruger decline to avail him-eif of the further opportunity now In such cases the state department cannot demand their exemption.

FINANCE AND TRADE.

Reaction in the Stock Market Does Not Affect General Business,

New York, Sept. 23.—R. G. Dun & o.'s weekly review of trade says: The reaction in the stock market is not a sign of anything outside that market, but has set many to look for signs of reaction elsewhere. Such signs have been hard to find. It has been for months a wonder that the demand for products was sustained at rates ex-ceeding past consumption in any year. notwithstanding the general rise in prices. But the demand does not appear to abate, and the rise in prices continues. A partial explanation is that scarcely any class of products di-rectly consumed by individuals has advanced as much as the wages and employment of labor With more hands at work, more hours, and at 10 to 15 per cent higher wages, the gain in purchasing power has been quite beyond the rise in prices.

Bradstreets' review says: Satisfac-tory trade and price conditions apparently still reign. So few, in fact, are the reports of poor trade that favorable reports may be said to be almost unan imous. An expanded volume of fall trade is indicated by the aggregate of bank clearings for the week, though reports from some markets point to the greatest rush being over. Prices as a rule maintain all their strength, de-creases being few and relatively unimportant.
