OUR COUNTRY: First, Last and Forever.

THE advertiser who neglects the newspapers, will regret it when he comes to figure out results.

If you cannot say good of your neighbor, say nothing. You'll never be sorry for the thing you haven't said.

PARTISAN mentioning about the trusts is a poor apology for an intelligent and practical treatment of the subject.

BUSINESS is so lively in all parts of the country that the people have no time for the doleful music of the calamity howlers.

THE fool-killer could find many victims among the fellows who are predicting Democratic success in Schuylkill county this year.

If fusion is successful in the counties in which it is tried this year there will be an attempt to put it in force in every county in the state next year.

WE violate no confidence in saying that the Democratic county ticket is doomed to defeat. Loyal Democrats are not yet ready to vote for traitors to their cause.

IN no campaign within the past several years in this county have the Republican candidates received the support of a more harmonious party than that being accorded them this year.

IT would be a joke of stupendous dimensions if M. P. McLaughlin were elected District Attorney. True, our friend "Mike" is witty, but the people demand something more in the make-up of the county's prosecuting attorney.

THE possibilities for commercial greatness is almost beyond comprehension, when we consider the fact that the Philippines are the door to the trade with Asiatic countries which annually consume more than a billion dollars worth of foreign goods.

THE people of Schuylkill county, without regard to party consideration, are ever ready to reward a faithful public official. It is therefore safe to assume that Emanuel Jenky is to be re-elected Recorder. His opponent will be surprised at the size of Mr. Jenky's majority.

THE Republican party of Nebraska, the home of the great experiment of free silver, has placed itself fairly on record as favoring the gold standard. It is evident that the teachings of the apostle of the white metal have failed to convince the members of the party which stands for honest money, that the country will go to eternal smash if silver at 16 to 1 is not made the standard of value in the United States.

JOHN R. McLEAN, the Democratic candidate for Governor of Ohio, has been letting himself loose through his well-arranged literary bureau on the subject of trusts. Although he is the principal owner of the gas trust of Washington, and is supposed to virtually own all of the newspapers in Cincinnati, he tells us in his usual breezy way that he and his party are the only genuine enemies of the so-called trust monopolies.

THOSE physicians who believe in the use of electricity as a healing element are holding a national convention in Washington. They call themselves the Electro-Therapeutic Association. Some of the most prominent physicians of the United States and Canada are in attendance, and the papers read at the meetings possess a deep scientific interest. The society is one of the first, if not the first, in the world to recognize the importance of electricity in the treatment of disease.

To Physicians Bombardment Damage.

Washington, Sept. 25.—The three governments interested in Samoa, Great Britain, Germany and the United States, have been considering the claims arising out of the bombardment last summer in which the American forces and British forces participated. As a preliminary step the British government has signified a purpose to adopt in this case the principle observed in the damage done by the bombardment of Alexandria, Egypt, namely, that private property destroyed as a necessary incident to the prosecution of naval and military operations would be paid for. While applying this general principle, the adjustment of the various claims is yet to be made according to the circumstances of each.

Consumption Cured.

Brought back from the grave. Last November Mr. Joseph James, painter, of 325 W. Pearl St., Indianapolis, Ind., was at death's door with quick consumption. Wasted to a skeleton, his lungs a mass of necrosis, his death was hourly awaited by his doctor and family. He was kept in a constant stupor with opium. A friend, thinking to relieve his terrible cough, gave him a bottle of Brazilian Balm. Seeing his wonderful effect, the doctor advised his continued use. Mr. James soon after dismissed his doctor, and depended on the Balm alone. His recovery was rapid and complete, and in February he returned to work. His lungs are sound, his weight greater than at any time in his life. His recovery is regarded as almost a miracle.

His lungs are sound, his weight greater than at any time in his life. His recovery is regarded as almost a miracle.

Consumption Cured.

Brought back from the grave. Last November Mr. Joseph James, painter, of 325 W. Pearl St., Indianapolis, Ind., was at death's door with quick consumption. Wasted to a skeleton, his lungs a mass of necrosis, his death was hourly awaited by his doctor and family. He was kept in a constant stupor with opium. A friend, thinking to relieve his terrible cough, gave him a bottle of Brazilian Balm. Seeing his wonderful effect, the doctor advised his continued use. Mr. James soon after dismissed his doctor, and depended on the Balm alone. His recovery was rapid and complete, and in February he returned to work. His lungs are sound, his weight greater than at any time in his life. His recovery is regarded as almost a miracle.
