A Child Terribly Punished.

A BATTLE OF GIANTS

The Straggle For Supremacy in the Iron and Steel Industry. Cleveland, Oct. 13 .- The Marine Review mays: A battle of giants in the iron and steel industry has been under way for three or four days past. The cause is a fear of not having enough ships to move the ore product of the Lake Superior region in 1900, which may crowd the 20,000,000 mark. Contracts were made yesterday with ten deamers to carry ore next season at \$1.25 a ton, against 60 cents this season This means that iron ore will sell at of the present year. The contracts were made in the interest of John D. Rockefeller, following close upon the purchase of the whaleback fleet of 30 ressels by the same interests. The tockefeller interests will be operating 67 steel versels next season, recent pr hases and charters having added 2,-200,000 tons to their capacity.

The high rate results from a struggle between Rockefeller and Carnegie interests for supremacy in their dealings with each other. The Carnegie company, by a shrewd move last pring, managed to fix the contract ore rate at 60 cents, and Rockefeller ships, inder contract with the Carnegle company for a term of years, were forced season's work. The Carnegie company again stepped in a few days ago and placed an order with the American Shipbuilding company for five big steamers. They had also offered \$350,-000 each for the four largest of the Mitchell ships. But in the meantime the Rockefeller interest had come into full possession of the 30 whaleback steamers and then not only prevented the Carnegie company from buying the Mitchell fleet, but secured a pretty fair corner on the lake freight market through the charter of these vessels.
