We have added to our list of Piano Agencies that of Behr Bros. & Co., of New York. Their first instrument in town is now on exhibition at our warerooms, and we invite the public to come and inspect it. It is an upright instrument and is manufactured by the firm that introduced the "Muffler" which is also shown in this piano. They are sold by all the prominent dealers in the country as a "leader." These pianos have a deserved reputation for their full, pure and sweet tone, and their great reliability and artistic case work. To the purchaser of this instrument a great reduction in price will be made to introduce it.
