Instead of running into the house, screaming, the woman promptly presented a revolver and fired a shot at the gang. evening the government had received no news of fighting in South Africa and did not expect any, believing that no battle is probable except at Mafeking, communication with which place has been cut, and for which considerable anxiety is felt. Elsewhere, however, it is believed the British will remain on the defensive. Lord Salisbury has baued a summons for a cab-

It is learned from an authentic source that a large number of troops, including cavalry, artillery and infantry left Ladysmith early Friday morning with wagons, going in the direction of Acton Homes, where the Boers are reported to be encamped.
