The Columbia Leading the Repaired and Improved Shamrock

Special to EVENING HERALD. New York, Oct. 16.-The Shamrock presented herself at the rendeavous off Sandy Hook this morning, repaired, remeasured and ready for her third race with the Columbia for the America's cup: The topmost which was carried away during the race for the cop last Tueslay, was replaced by a new topmast of Oregon pine, and the boat also carried a new Oregon pine gaff substituted for the metal gaff she carried in the previous races

Another improvement to the vessel since the accident was the addition of 14 tons of lend ballast and this latter change made it necessary for the Shamrock to allow the Columbia 16 g-10 seconds. When the boats assembled for the race the

wind was blowing 10 knots an hour and was increasing. The weather was fair and everything pointed to a good race.

It was 17:02 when the yachts started, the Columbia crossing the line first. The Sham rock followed a few seconds later. At 11:30 the Columbia had a good lead, and twenty minutes later she was leading the Shamrock At 12:20 the Columbia was holding belead and the wind continued blowing at the rate of ten knots 'The race centinued is this way and at 12:45 it looked like an early inish, the wind still keeping up.

The Columbia was taking advantage of all the wind, increasing her lead to three-quarters of a mile at 1:10, but fifteen minutes later the symptoms became unfavorable The wind commenced to die out and fears were expressed that the race could not be finished within the time limit.
