PIANO TALK!

We have added to our list of Piano Agencies that of Behr Bros. & Co., of New York. Their first instrument in town is now on exhibition at our warerooms, and we invite the public to come and inspect it. It is an upright instrument and is manufactured by the firm that introduced the "Muffler" which is also shown in this piano. They are sold by all the prominent dealers in the country as a "leader." These pianos have a deserved reputation for their full, pure and sweet tone, and their great reliability and artistic case work. To the purchaser of this instrument a great reduction in price will be made to introduce it.

A Good Man to Administer the Office of State Treasurer.

"Republicans are not afraid to take Mothers should bear in mind up the state issues or to discuss the easity for Covernor Stone's action in the budget so as to make expendi-tures in income balance each other," says the Wilkesburre Times, "We have ready been too liberal at the expense of the state treasury, and if the action of the governor will draw attention to this subject he will have performed a public service. Money gotten by indirect taxation is apt to be lavishly spent, and we know something of this lavish expenditure by many of the school boards and townships in our

own county. "Nor are we afraid to discuss the management of the treasurer's office. Under the new laws there is no nossibility of wrong doing, and themethod of depository, together with the pay-ment of interest to be turned into the treasury, makes everything so plain that only a reputable business man is required for the position of cus-todian. We have such a man in Lieutenant Colonel Barnett, the Republican candidate, who besides possessing all qualifications named is all right on the protective system, an advocate of sound money and a supporter of the McKinley administration. This is the man for the times, and the people of Pennsylvania will undoubtedly say so on the 7th of November."

NO PROMISE OF INDEPENDENCE

In Our Officials! Correspondence With the Filipino Leaders.

Manila, Oct. 19.—The consuls in Manila have received from Tarlac, where it is believed Aguinaldo remains, a book containing the correspondence between him and the American commanders and consuls, in which, as he contended in his recent appeal for recognition, the Filipinos find the basis for their assertion that the American government recognized their sovereignty and promised them

The book is addressed to the mem-bers of the United States congress and contains a long argument by Senor Buencamino, of the so-called cabinet of Aguinaldo, and alleged letters written by Rousevello Wildman, United Aguinaldo, in June and July of last year. It has made a sensation among the Spaniards here. The whole correspondence, however, contains no promises of independence.

Senor Buencamino lays stress upon letters from Admiral Dewey and General Anderson requesting passes for American officers and others to visit Filipino territory, and upon a letter from General Anderson asking "you and your people to co-operate with us in military operations against the Spaniards,

Refutation testimony is competent and independent evidence, and is some-times a man's best friend. It is not conclusive, as men with good reputations do commit shocking crimes. Further, such testimony refers only to a period prior to the time a crime was committed. It is incompetent as to the guilt or evidence of the defendant. Calmness, incisiveness and entire absence of the passionate marked the charge of Judge McPherson. He spoke in a well modulated tone and in a conversational style that aimed at making things plain to the jury.
