TALK OF GERMANY RETIRING.

Return For This Great Britain Would Code the Gilbert and Solomon Islands to Germany, Leaving Samoa For England and the United States, Washington, Nov. 2 .- The negotia-

tions for the partition of the Samoan islands are proceeding rapidly and the officials here would not be surprised if a final agreement were reached in the near future. The discussion which is going on in London, with the co-operation of the authorities here and in Berlin, has brought out certain essential features on which next Tuesday, and we shall have the Great Britain, Germany and the United States appear to be agreed. At the outset it is stated that the determination was reached that the tripartite government of the group should come to an end, and that not more than two powers, and preferably one, should govern the Islands. It soon develop-ed that an agreement was not likely to be reached giving the entire group to one power, but the chances seemed good for an agreement that two powers divide the islands, thus giving a dual overnment in place of the present un teldy tripartite arrangement.
It seemed to be generally accepted

the negotiators that the United ates would be one of the two powers be represented, and that the Island f Tutuila, on which the harbor of Pago Pago is located, would naturally fall to the lot of the United States. It is understood that the British authori ties quite fully coincided with this view, and that while the Germans semed to regard it favorably it was eft open for more mature approval the Berlin authorities. In concedd States account was taken of the that if an agreement was reached on that point it would still be for the United States senate to give its apoval to the arrangement. One of the remaining islands, Upolu, is of much value, while the other, Savait, is practically valueless.

It is suggested that Great Britain cede the Gilbert and Solomon islands Germany, the latter retiring from

The Fiji islands and some other points also have been considered dur-ing the discussion, but thus far Germany has not acted favorably on the suggestion, and there have been eviterests and make a compensation to reut Britain. This remains open, and
