An Incentive to Action. Only a few days intervene before the election occurs, and every Schuylkill Republican who has the welfare of the party at heart, and who desires to see this county remain in the Republican column, should feel that there is something he can do to assist in accomplishing that purpose. There is a double incentive to duty in the present campaign to spur up those who are Republicans in spirit as well as in name. First, there is the incentive of sustaining the Republican Kayton, of Pictou, N. S.; Frank Me-county administration in the seconomi-Cover. of Branswick, Ga., and Chriscounty administration in the economical policy it inaugurated. Second, there is the incentive, always present

The Republican county convention was faithful to the best interests of the party, and of the people without regard to party, when it placed in nomination the present standardbearers. The ability and fitness of the candidates is not questioned by any except such as have a direct personal interest in the election of Democratic county officials, and who have endeavored by the most disreputable methods to serve partisan and personal ends.
