## THE BUSINESS OUTLOOK

Pronounced Most Cheerful by the Commercial Agencies.

HIGHEST MARK FOR OCTOBER.

Despite Some Variation in the Current of Trade Distribution, the Aggregate Movement Continues of Immense Volume.

New York, Nov. 4.—Bradstreet's weekly review of trade says: Despite some variation in the currents of trade distribution, the aggregate movement continues of immense volume; in fact, if the aggregate of bank clearings in the country outside of the metropolis is a trustworthy index, as it no doubt is, the country's trade reached its highest mark in the month of October. Prices certainly show marked strength in view of the proportions of earlier advances. Cooler weather has been welcomed by the retail trade of the country and some stimulus has already been noted, alike to distribution and to the confidence of distributors.

In some lines of wholesale trade, notably dry goods, there has been some quieting of demand, without, however, any perceptible effect being exercised upon values of textiles, which, indeed, are more firmly held than ever. It has, indeed, been a record period in the wool trade, sales at leading centers having exceeded all records for the week, and the strength alike of the raw and the manufactured material is most marked. Cotton goods are also very strong, partly on the extraordinary demand and partly because of the strength of the raw material.

The great cereals have been rather dull this week, with a slight variation in price, and the markets appear to have come to a standstill pending new developments. Some improvement is noted in the ocean freight situation, however, the high rates, in fact, having tended to bring their own cure.

In the iron and steel trade strength of values is perhaps the most notable feature, but activity has been transferred from the iron to the steel branch of the market for pig iron, which has been very active at full prices. Reports of re-exports of American iron from Japan are confirmed. A heavy business was done in hardware during October, relatively the best reports coming from the west. Other metals fall to show as much strength, copper and tin being considerably lower on the week. In the lumber market demand varies with the material and the market involved, but, while pine lumber is quieter at western centers, prices are very firm and intimations of a continuance of these conditions or of further advances are numerous. In fact, the activity in the boat and shoe manufacturing and distributive trade, leather is strong and tends upward, and some advances in hides are also reported.

R. G. Dun & Co.'s review of trade says: British disasters in South Africa have brought to view something besides the steady and reliable of the English people. They hold not many American securities to be dislodged in any time of alarm, but are inclined to take more when money looks for safe investment.

A little decline of three-quarters in wheat and 1 1/2c in corn does not hinder exports, though it is some evidence that growers think they have ample supplies. Atlantic exports of wheat for five weeks have been, four included, 15,686,599 bushels, against 15,182,631 last year, and Pacific exports 2,712,551, against 3,917,434 last year. Western receipts of wheat have continued heavy, but have not rivalled last year's extraordinary output, amounting to only 35,958,087 bushels in five weeks, against 49,640,791 last year, but western corn receipts run ahead of last year's in the same weeks, and the exports have been 18,648,044 bushels, against 11,568,163 last year.

The enormous sales of wool at Boston, 21,567,500 pounds reported, making 25,287,700 at the three chief markets for the week, are extremely important. That not all are for consumption, as the trade is naturally tempted to believe, may be true, and yet actual purchases by the mills of half that quantity would imply extraordinary encouragement respecting the demand for woolen goods. The prices have been generally advanced to an average scarcely below that of May, 1892.

Prices of pig iron for early deliveries are still advancing, but as a great part of the demand has protected itself by contracts running far into the next year, including purchases of 50,000 tons hereafter this week at \$23.50, and as billets are quoted at \$39.50 for spot, but \$32 for next year, the market can be interpreted several ways.

Dealers are refusing to pay the higher prices asked by manufacturers of boots and shoes to such an extent that future orders are somewhat restricted. Yet the October shipments were 473,723 cases, against 415,259 last year, an increase of 12 per cent, and 367,939 in the same week of 1892, an increase of nearly 30 per cent.

Failures for the week have been 182 in the United States, against 194 for the same week last year, and 25 in Canada, against 28 last year.

**A Night of Terror.**

"A awful anxiety was felt for the widow of the brave General Burnham of Machias, Me., when the doctor said she would die this morning," writes Mrs. S. H. Lincoln, who attended her that fearful night. "All thought she must soon die from Pneumonia, but she began for Dr. R. D. Pierce's Kidney and Bladder Pills, saying it had more than once saved her life, and had cured her of Consumption. After three small doses she slept easily all night, and she began to eat and feel better. The marvelous medicine is guaranteed to cure all Throat, Chest and Lung Diseases. Only 50c and \$1.00. Trial bottles free at A. Wasley's drug store.

Thirty-five Drowned at Antwerp, Antwerp, Nov. 4.—The landing stage of the Waesland railroad ferryboat, on the left bank of the Scheldt, broke in two on the arrival of the first train, which was crowded. Many persons fell into the water, and 35 were drowned and 50 injured.

**Do You Know?**

Consumption is preventable? Science has proven that, and also that neglect is suicidal. The worst cold or cough can be cured with Sidloh's Cough and Consumption Cure. Sold on positive guarantee for over fifty years. Sold by F. D. Kiril on a guarantee.

Massillon Coal Mines to Combine. Cleveland, Nov. 4.—It is stated that the project to combine all the coal mines in the Massillon district has practically been accomplished. The capitalization of the new company, it is believed, will be between \$4,000,000 and \$5,000,000.

## How One Mother Saved Her Daughter

The first critical period in a woman's life comes at the passing of her girlhood. How to preserve the daughter's health at this crisis is the problem that confronts every mother of girls. Mrs. J. M. Riggs, of Carverville, Mo., solved the problem. She says:

"My daughter Jessie during the winter of 1898, suffered a complete breakdown in health. She was thin and pale, had no appetite, and was so weak that she was unable to walk to school. Those who knew her condition said that she was in the first stages of consumption. Shortly after school closed on the advice of a neighbor, we began giving her Dr. Williams' Pink Pills for Pale People. The effect on her condition was marvelous. Before she had taken half a box her condition was improved, and she kept on gaining appetite, strength and flesh until she was entirely well.

"While I took three bottles of the pills and to-day there is not a healthier, more robust looking girl in Carverville. She is healthy and beautiful than ever before in her life."

Mrs. J. M. Riggs.

Subscribed and sworn to before me, a Notary Public, this 15th day of October, 1899. Wm. Wolcott, Notary Public.

From the Journal, Carverville, Mo.

Dr. Williams' Pink Pills for Pale People contain, in a condensed form, all the elements necessary to give new life and richness to the blood and restore shattered nerves. They are an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, sciatica, neuralgia, rheumatism, nervous headache, the after-effect of the grippe, palpitation of the heart, pale and sallow complexion, all forms of weakness either in male or female.

Dr. Williams' Pink Pills for Pale People are never sold by the dozen or hundred, but always in packages of 50 pills. At all druggists, or direct from the Dr. Williams' Medicine Company, Schenectady, N. Y., 50 cents per box, 6 boxes \$2.50.

**D. & J. SIEGEL,**

## POWERFUL'S GUNNERS

Saved British at Ladysmith From a Far Worse Disaster.

A BRITON'S REPLY TO CRONJE.

"I WILL Let You Know When We Have Enough," Said Colonel Baden-Powell, When Asked to Surrender Mafeking—A Monotonous Bombardment.

London, Nov. 4.—There is very little fresh intelligence today, but it is believed that the Delagoa bay route, if not already restored, speedily will be, thus giving quicker communication with the cape. The situation is still hopeful.

The accounts that continue to arrive regarding the fighting on Farquhar's farm only confirm its serious nature and the narrow escape General White had. On this point The Morning Post remarks:

"Nothing tells such a tale of battle as the list of the missing. When the missing exceed the killed it is almost safe to write defeat across the story, because 'missing' means abandonment or surrender."

It now appears as if it were only the arrival of the naval contingent from the Powerful which prevented a far worse disaster. It seems that, when it was seen that retirement was imperative, two Natal cavalrymen volunteered to carry a dispatch across the Boer lines to Major Adye, ordering him to retire, but the risk was considered too great, and flag signaling was employed instead. The distance was too great and the ground too rough for cavalry to go to his assistance.

According to dispatches filed on Tuesday defensive works were being constructed on the hills around Ladysmith, and it was expected there that the big naval guns would be mounted the following day. The Boers were threatening to attack the town in force on Wednesday and Thursday and the women, children and other non-combatants were being sent by train to the south. Ladysmith is provisioned for two months.

A dispatch from Colesburg, dated Nov. 1, announces that six police who were stationed at Colesburg bridge were surrounded and captured. This is probably the origin of the story that the Boers had occupied Colesburg.

Paris and Berlin continue to supply statements of British reversals, the latest being that Mafeking has fallen. The special correspondent of The Daily Mail at Mafeking, under date of Oct. 22, says: General Cronje's bombardment of Mafeking was monotonous. The Boers fired 82 shells, but did no harm, the whole town, even the ladies, laughing at the affair. He threatens to bring a 40-pounder from Pretoria. Cronje says he is sorry, for the women's sake, that he shelled the town, but that it was not playing the game to send dynamite trucks among his men. Fifteen hundred of his command have since departed to the southward. Small parties of our garrison issue forth nightly and harass the Boer outposts. I hear that The Daily Mail's correspondent at Lobatse is a prisoner in the hands of the Boers.

"An Orange River dispatch, delayed in transmission," says Kimberley is still safe, and the wounded are doing well.

The Times says it has reliable information that there have been no casualties among the British at Mafeking since Oct. 13. After the heavy bombardment General Cronje asked the Boers to surrender. Colonel Baden-Powell was asked when the messenger arrived, but, on being awakened, received him hospitably, and politely replied: "I will let you know when we have had enough."

The Daily Mail publishes the following dispatch from Ladysmith, dated Wednesday morning: Matters today were quiet. The Boers are apparently mounting more heavy guns to the north and northeast, which are likely to give us trouble. A Boer contingent 1,500 strong and clearly visible from the camp is streaming away to the south. The inhabitants of Ladysmith continue to leave the town.

The Paris correspondent of The Daily Mail says: It is clear that the Transvaal and Free State governments, before the war, placed large orders with the gunmakers at Lee Cruessett, but that not all the weapons could be delivered, owing to the suddenness with which hostilities began. The guns the Boers are actually using are Cruessett's 72-millimeter quick-firing and 155-millimeter siege and garrison guns—all mounted on light carriages and adapted in every possible way for use over muddy roads. They could have had another month's practice in European artillery could have withstood them.

Lieutenant General Sir Redvers Buller is still at Cape Town, and it is not likely that he will leave for a few days.

It is rumored that martial law will shortly be proclaimed in Cape Town. There is not the slightest indication there of African hostility, as reported in the Havas dispatch from Paris.

**Cold Steel or Death.**

"There is but one small chance to save your life and that is to get the relief of the awful prostatic set before Mrs. I. B. Hunt, of Lime Ridge, Wis., by her doctor after vainly trying to cure her of a frightful case of strach trouble and yellow jaundice. He didn't count on the marvelous power of Electric Bitters to cure Stomach and Liver troubles, but she heard of it, took seven bottles, was wholly cured, avoided surgery, knife, now weighs more and feels better than ever. It's positively guaranteed to cure Stomach, Liver and Kidney troubles and never disappoints. Price 50c at A. Wasley's drug store.

Three Dead in New York Fire.

New York, Nov. 4.—Fire yesterday gutted the seven-story buildings at 94, 96 and 98 Mott street, occupied principally by the Manhattan Bed Iron and Spring company, and it is believed caused the death of three persons. Known dead: Michael Conlin, an engineer, missing: Charles Smith, aged 21; — Rorer, aged 19. Injured: John Munn, 35 years old, dropped from third floor to street, ankle broken, Joseph B. Kinale, aged 21, jumped from fourth floor to street, skull fractured, will die; Fireman McTrady, severely scalded by steam, condition critical.

## DR. PIERCE'S FAVORITE PRESCRIPTION

to be the greatest of all medicines for the cure of diseases and disorders of the organs distinctly feminine. It is the only preparation of its kind devised by a regularly graduated physician—an experienced and skilled specialist in the diseases of women.

It is a safe medicine in any condition of the system, containing no whiskey, alcohol, opium or other narcotic, and therefore, does not cause a craving for stimulants. It is sold by medicine dealers, everywhere, and any dealer who has it can get it. Don't take a substitute. No counterfeit is as good as the genuine and the druggist who says something else is "just as good as" is deceiving you. Buy the genuine. He is trifling with your most precious possession—your health—may be your life itself. See that you get what you ask for.
