Disfranchising Voters.

The Maryland Democrats are reported as contemplating a change in the organic law of the state by which all voters will be required to have an educational or property qualification before being permitted to exercise the right of suffrage. The object of this proposed law is not so much to encourage education among the literate and the acquiring of property by the improvident and thriftless, but has for its main purpose the disfranchising of the negro vote.

Terrific and Fatal Explosion of Nitro-

Glycerine in Onto.
Tiffin, Q., Nov. 14.—A magazine used by the Bradford nitro-glycerine factory to store the explosive, located two and a half miles east of Gibson-burg, exploded yesterday afternoon. The shock was heard at towns within a radius of 40 miles and the effects of the explosion in the immediate neighborhood was terrific. The magagine is located in the woods, a quar-ter of a mile from any dwelling, and this alone prevented terrible loss of life. Benjamin Card, driver of a stock wagon, had brought a load of 720 quarts of nitro-glycerine from the factory at Bradford, and was unloading it when the explosion took place. Just how it happened will never be learned. Card and the two horses driven by him received the full effect of the explosion. He was blown almost to atoms, only a few shreds of his body being found, and pieces of horse flesh were hurled several miles. It is supposed that Card had a companion,

but this is not positively known. The explosion made a hole s tire, as there is too much work in the People within a mile of the place were knocked flat, pictures were torn broken. There were about 1,500 quarts of glycerine on the wagon and in the

The story of the will has to do with the alleged relations of a 70-year-old man and an exceptionally preposes ing young woman, not yet 30 years of age, placed in custody of the millionaire's last will and testament. Miss Wilson, it is stated, did not know of Davis' death until some time afterwards, but no reason is assigned why her claim was not pressed before
