The Boors at De Aar Have Got the Range of the Mines and Are Constantly Throwing Shells at the Dynamite Hut-, Doing Great Damage

London, Nov. 14.—The paucity of news from the front still leaves the chief interest centered in the arrival of the reinforcements. Estcourt dispatches say that heliograph communi cation has been established with Lady smith, but so far no news has been eceived, the latest date being Nov 6, which shows that the occupants of Ladysmith had no news of the outside world since General French reached Pietermaritzburg and that they were puzzled at the inactivity of the Boers Everyone was confident and cheerful but all were suffering the inconven

ence of the siege, bread seiling at three shilling per loaf. Colonel Baden-Powell's dashing sor-ties at Mafeking encouraged the hope that the British garrisons along the western border are all able to hold out. Cecil Rhodes is employing 8,000 men, black and white, at Kimberley in road making, as a remedy for des

According to a dispatch from De Aar the Boers at Kimberley have got the exact range of the mines and are constantly throwing shells at the dynamite huts. Several of the latter have been blown up, and the damage done to the mines already amounts to many thousands of pounds.

Among the stories from Brusuels is one that General Joubert and George White have been endeavoring to negotiate for the capitulation of advemith, but have failed to come to

The story of Father Matthews, cabled from Lorenzo Marques, regarding the surrender at Nicholson's Nek, is too vague to be very convincing, but in military effects it is considered un-pleasant reading, and it will be impossible to learn the facts until the officer concerned has been court mar-

Father Matthews, who has just arrived at Lorenzo Marques from Pre-toria, says with reference to the sur render of the Irish Fusileers and the Gloucestershire troops at Nicholson's Nek, that after the mules stampeded the force got hard pressed by the enemy. They would have held out, how-ever, but a young lleutenant, who thought his batch of ten men were the sole survivors, without instructions, hoisted a flag of truce on his own responsibility. Nothing then remained but to surrender.

The report that the British cruise Magicienne had fired on the French steamer Cordoba raises the doubtful point whether Great Britain has yet actually declared war. It is believed however, that European nations have been made acquainted with the severance of relations between Great Britain

and the two republics. An armored train, with a company of the Royal Dublin Fusileers, started from Estcourt vesterday afternoon and reached the break in the railway line, about half a mile from Coleaso, without accident. Captain Hensley, with several men, reconnoitered and met a native who said the Boers were occupying the town. While the conver-sation was in progress the Boers open-ed fire from Fort Wylie, but did no injury. Captain Hensley thereupon re-tired on the train, after which the Fusileers volleyed on the fort. As there was no response the presump-tion was that the Boers had retreated The armored train returned to Est-court at 6'clock. Captain Hensley learned from the native that the Boers vere numerous on the Ladysmith side

A dispatch from Cape Town an-nounces the arrival there of the troopships Armenian and Nubia, with a tillery and infantry. This brings the total number of reinforcements to 12,-802, of which about 6,000 are already on the way to Durban. Nine other troopships, carrying 11,000 men, are due at Cape Town today.

RUSSIA AND JAPAN.

Diplomats Know Nothing of Japan's Alleged Aggressive Mood.

RUSSIA IS GROWING STRONGER.

"If Japan Really Means to Strike a

London, Nov. 14.-Careful Inquiry reveals nothing extant in diplomatic circles here to justify the slarmist view taken by a section of the press regarding the stituation in the far east. That a serious denouement is so close at hand as is indicated by no close is hand as is indicated by advices from Shanghai is regarded as incredible. For a long time it has been known here that China and Japan were closely ailled, but neither British nor American diplomatists in London believe that this alliance is of an offensive nature At any rate it can be asserted post

tively that if Japan and China con template aggressive action against Russia, Lord Salisbury is not aware of their intention, and it is scarcely probable that those powers would cide upon any definite course without at least consulting Great Britain, who, in the nature of things, would be their ally, whether active or passive. However, while the foreign officials

have no information tending to confirm recent sensational reports they have come to regard the eastern problem as so difficult in respect of getting accurate information that they would be surprised at nothing. They have endeavored to take precautions against everything. In the words of the British official who discussed the situation with a press representative:
"While reports of a rupture between

Russia and Japan are easy of creation, and while they are liable to constant reiteration, so long as the diplomats of the press continue to view the far east with such serious attention, it is cer-tainly palpable that if Japan really means to strike a serious blow at Russian control she must do it quickly. for very soon Russia will be far and jealousy stronger than she is now."

Discussing the bearings of Russia's Helen of Troy made historic tion, the official asserted that these certainly indicated the intention of the czar to increase the Russian fleet in Chinese waters, which, if done on the scope outlined in the estimates, would leave Japan but little chance.

"Another phase of these reports which has astonished me," said the official, "is the suggestion of Chinese co-operation. Thus far no nation has been able to arouse the Chinese suf-ficiently to get them to combine in military enterprises. If Japan has done this, or even believes she has, then she has accomplished more than Great Britain or Russia in a century

The action of the United States goverument in requesting assurances from foreign governments regarding the "open door" policy in China has cre-ated intense satisfaction in British official circles.

"Lord Salisbury," according to the official quoted above, "has gladly acquiesced in this step on the part of the United States, which is regarded as most potent evidence that the Uniof their desire to conduct eastern ne-gotiations in concert with European governments."
