THE GOLD STANDARD.

Mr. Overstreet's Report on the Republican Finance Measure.

STRENGTHEN PUBLIC CREDIT,

Declares the Report, by Removing All Doubt Concerning the Policy and Practice of the Government Belative to the Unit of Value.

Washington, Nov. 29.—The report on the financial bill of the Republican cau-cus committee has been prepared by Representative Overstreet, of Indianapolls, who introduced the original bill of the monetary commission in 1898 and has been distributed to each Republi-can member of the house. Mr. Overstreet frankly admits that the commit tee "did not seek to arrange a complete scheme of finance, but confined its rec-ommendations to those subjects of most pressing demand, as evidenced by the pledges of the Republican party and the general policy of the administra-tion." It was felt, the report declares. that "the strengthening of the public credit by the removal of all doubt con-cerning the policy and practice of the government relative to the unit of value is of paramount importance." It is pointed out that there can be but one standard at one time, but that the convenience of commerce is promoted by the use of different media of exchange, controvertible into the standard. The report continues; "When the standard shall be per

manently established, and all doubt of its stability removed, the parity of all our money will be fully recognized, and the kind of money in which payments shall be made will rarely, if ever be the subect of dispute. When certainty shall take the place of doubt, and the integrity of our credit be as fixed as the honor of the nation, the national debt can be readily refunded at lower interest rates, and future loans negotiated with ease, upon better

terms than ever before.
"The rapid development of American trade and its vast expansion, bringing our people into close relations with the leading nations of the world, makes it imperative that the standard of value in which settlements are made shall be the best known to the highest civilization. Recent events, shaped by causes beyond our control, bearing obliga-tions which national honor requires shall be courageously discharged, open new fields for American statesmanship. Channels of trade yet unknown to American enterprises, and avenues of commerce yet to welcome American products, will surely result. The gold standard is recognized by all leading nations, and the statute proposed merely reaffirms the policy followed by us for over 60 years, so reinforced and plainly expressed that the question will e placed forever beyond dispute

The fact is pointed out that the treasury at the beginning of October had a net gold reserve of more than \$250,000,000 and that there is more gold in the United States now than ever before. The advantages which situation creates are thus de-

"The present conditions are most favorable and the time most opportune for the clear and unequivocal adoption of the gold standard. Prior to the year 1896 the gold standard had been legally adopted by Austria-Hunbeen legally adopted by Austria-Hun-gary, Brazil, British Honduras, Chile, Denmark, Egypt, Finland, Germany, Great Britain, Norway, Portugal, Sweden and Turkey, and since 1896 the gold standard has been adopted by Costa Rica, Japan, Peru and Russia, The coinage of silver on private ac-count was suspended (prior to 1896) by the United States, Belgium, France, Holland, Italy, Spain, India, Switzer-land, Greece and Venezuela, thus ef-fectually, although not absolutely, fixtheir status as gold standard

"If under all these conditions the nited States shall clearly, by law, adopt the gold standard, it will pass to the new condition with even less friction than was experienced by the resumption of specie payment. The government is fortunate in being able to act in so important a matter under such favorable cirucmstances. The general policy of the government, and such declarations as have been made by congress, are entirely consistent

with this proposition.
"Section 4 of the bill seeks to provide a complete safeguard to guaran-tee the permanent maintenance of the gold standard by authorizing the sec-retary of the treasury whenever it is necessary for such maintenance to issue and sell bonds of the United States, payable in gold coin, and for the exchange of gold coin for any other money issued or coined by the United States, should the secretary of the treasury deem such exchange necessary in order to maintain the parity and equal value of all the money of the United States. The legalizing of the gold standard, and provision for the equality of all forms of money at a parity with the standard, will so remove all doubt of the soundness and integrity of our money that there will be little occasion for the exchange of

one kind of money for another.
"The provision that no note or certificate, once redeemed or exchanged, shall be withdrawn, except in exchange for an equivalent amount of the coin in which said note or certificate was redeemed or exchanged, will for ever put an end to the so-called 'endless chain' which has so embarrassod the government in the ever-recurring redemption of the greenback. There can be no contraction of the currency under this system,"

Robbed the Grave

Robbed the Grave

A startling incident of which Mr. John Oliver of Philadelphis, was the subject, is marrated by him as follows: "I was in a most dradful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised trying 'Electric Bitters,' and to my great joy and surprise, the first hottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they saved my life, and robbed the grave of another victim.' No one should fall to try them. Only 50 cents per bottle at A. Wasley's drug store.

Yellow Fever From Wavana New York, Nov. 29 .- The United States transport Burnside arrived yes-States transport Burnside arrived yesterday from Havana with a case of yellow fever on board. The patient is P. E. Reider, aged 21 years, a discharged soldier of the United States hospital corps. His home is 1171 Cotton street, Reading, Pa. Reider was transferred yesterday to Swinburne Island hospital. He is very ill. The transport is held for disinfection.

SOLDIERS AND SAILORS

Compelled to Work Hard on the Passage to Manila.

KEPT BAILING TWELVE DAYS.

The Transport Managense Was Undeemanned, Unseaworthy and Short of Provisions-The First Assistant Engineer Arrested. Manifa, Nov. 29.-The transport Man-

anense, with Lieutenant Colonel Webb Hayes and three companies of the Thirty-first infantry on board, has arrived here. She narrowly escaped disaster. The officers and soldiers were for 12 days bailing with buckets. The steamer was unseaworthy, undermanned and short of provisions. Her engines broke down and she rolled three days in a typhoon. When the Manauense anchored in

Manila bay yesterday, 22 days from San Francisco, there were several feet of water in her hold and 400 gream, grimy, hungry, exhausted soldiers and sailors who had been passing bucksts of water since Nov. 17, night and day First Assistant Engineer Dunleavy was under arrest, and, according to Colonel Webb Hayes' official report, the chief engineer would also have been under arrest if there had been any one to replace him.

The colonel's report also declares that the captain of the vessel told him that the only thing which brought them through was the fact that the men were greenhorns and falled to realize their danger, while experienced seamen would have deserted the ship and taken to the boats in mid-ocean.

and taken to the boats in mid-ocean.

The Mananense is a chartered ship flying the British flag. She belongs to a firm of which Senator Perkins, of San Francisco, is alleged to be a junior member. The officers say the firm bought her for \$45,000, and they claim efforts were made to sell her to the government for \$150,000. She started from San Francisco, accommanied by from San Francisco, accompanied by the transport Pekin, which carried the remainder of the regiment, and encountered heavy seas to Honolulu, without accident. After starting it developed that the Manauense was undermanned, and soldiers had to be detailed to act as firemen, coal passers and waiters, and to do other work. Before reaching Honolulu the crew con-cluded that the ship was not safe, and

less than half her crew.

The Captain of the transport on Nov 17 told Colonel Hayes that the vessel had sprung a leak, and an investigation resulted in finding several feet of water in her hold. The steam pumps were tried, but failed to work, and there were no hand pumps on board. However, 46 buckets were found, others were improvised, and the soldiers not employed in working the ship were or-ganized into five shifts, and, stripped and forming lines, they began bailing, the officers working with the men, passing the buckets, which were sent up to the deck by a windlass. The longest time a shift could stand was two hours, and often the period was not longer than half an hour. The ball-ing continued until the ship anchored

The same day the leaking was discovered the machinery collapsed and the electric lighting plant and evaporating, distilling and refrigerating apparatus failed to work. There were no lamps, and the few candles found were exhausted after a few days. Durwere exhausted after a few days. Dur-ing the last week of the passage the Manauense was in utter darkness at night. She had been rolling in heavy seas all the way, but on Nov. 22 she encountered a typhoon and pitched and tossed alarmingly. The Pekin became separated from the Manauense in

The water rose rapidly and the bail-ing force was doubled. But the buckets were gradually smashed, and bar-rels and boxes were substituted for them. The firemen could only feed the fires by being lifted on the shoulders of

other men through water waist deep.
The typhoon lasted two days and a half, and in the midst of it the engines stopped. The officers then held a counstopped. The omcers then held a coun-cil and found that there were 420 per-eons on board, with lifeboat accommo-dations for 213. In the meantime the men below, ignorant of their extreme peril, were passing buckets and singing "What the —— do we care," while the ship rolled helpless on the ocean, with hatches closed.

The heat was intense until the ty-phoon passed, and then the Pekin, which had retraced her course about 70 miles, came alongside the Manauense, which was rolling so heavily that the soldiers in the hold could at each roll see the Pekin through the hatches overhead.

Colonel James S. Pettit, commander of the Thirty-first volunteer regiment, ordered the Manauense to proceed to Guam and await relief, but the captain of the Manauense demurred, the of-ficers say, because the government was renting the ship for \$500 per day.

Throughout the remainder of the woyage the engines of the Manauense

failed frequently, and the ship would roll for a few hours while the engines were repairing. Then the steamer would proceed again for a few hours. The meat and vegetables rotted be-cause of the fallure of the refrigerators,

and was thrown overboard. After the storm the water supplied to the ship at Honolulu had to be used for the botl-ers, and there was little or none for drinking. In fact, it is asserted that during the last week of the voyage the men lived almost entirely on whisky, beer and hard tack.

The officers and soldiers were utterly exhausted when they reached Manila. They declare the engineers were gross-ly incompetent. The officers say the behavior of the troops was beyond praise. For days they worked in the dark, suffocating hold with water sometimes up to their shoulders and planks washing about in a manner dangerous to life and limb. The officers took the lead in bailing and encouraged the men. The captain of the ship promised the

men 25 cents a day for bailing, but he now proposes to pay them \$1.50 for the The soldiers talk of attaching the ship.

A Thousand Tongues

APPREHENSION IN CUBA.

Despite Prisent Tranquility, if Is Reparted Recruiting Progresses.

Havana, Nov. 29.—Although there has been a great deal of exagneration with reference to risings in different parts of the island, there is no doubt that, despite the tranquility of the country, some apprehension exists lest within the next few menths some trouble should occur in the event that the United States congress does not give definite assurances respecting the future of Cuba. It is asserted that many of the police, especially mem-bers of the rural guard, have for several weeks been paying a fraction of their salaries to a fund intended for use in case of an outbreak against the United States. It is also reported that 'recruiting for future emergencies" is

in progress. The best opinion, official and nonefficial, rejects the idea, however, that there will be any trouble before the beginning of next year. With a few exceptions the prominent Americans, Spaniards and Cubans refuse to talk on the subject for publication. Gen-eral Collazo, a voteran of the Cuban army and now editor of The Cubano, who fairly represents the views of the

Cuban revolutionary leaders, said: "I feel justified in saying that at present Cuba is perfectly tranquil, al-though, as the result of General Ludlow's recent statements and of the possibility of a civilian governor gen-eral, a feeling of tension exists. Our people are waiting for a declaration by the United States congress. No one would be so foolish as to prejudice the whole case by starting a rebellion be-fore we have heard what congress will

Government flond Purchases.

New York, Nov. 29.—Sub-treasury disbursements on account of govern ment bond purchases aggregated \$1,-188,840 yesterday, of which \$1,124,835 was paid for the 5 per cent issue. Un-less Secretary Gage extends the time for receiving the bonds no bonds will be purchased at the sub-treasury in this city after today, tomorrow being a legal holiday, Beside yesterday's dis-bursements \$12.619.388 has been paid out here on account of treasury bond purchases since Secretary Gage's or der of Nov. 15 became effective.

Silver Republicans For Bryan Chicago, Nov. 29.—Informal discussion by members of the executive committee of the antional Silver Republican committee and chairmen of state committees at the meeting held state committees at the meeting heir here yesterday developed, as the con-sensus of purpose, adherence to the Bryan Democracy, "if the right men are nominated." There was no dissent from the opinion that, as the presidential candidate, William J. Bryan, would be "the right man."

"BURNING MONEY,"

edicines that do no earthly good. It medicines that do no earthly good. It is like throwing it into the fire.

"We had spent lots of money for doctor bill and I had almost given up in despair," says Mrs. Bila Schail, of Moosehead, Linerine Co., Pa., it a sincere letter to Dr. R. V. Pierce, of Buffalo N. Y. "Then I told my husband I was going to write to you. I am very glad I did so; You re member my case was abscess of the breast. If Pierce's Golden Medical Discovery cured me is one month, sound and well."
