OUR COUNTRY: First, Last and Forever.

AN insurgent in Luzon can get \$30
for his gun by turning it over to the
United States authorities and engag-
ing at once in some peaceful industry.
There is no impropriety in calling this
benevolent assimilation.

Last year the Transvaal gold mines
and Kimberley diamond mines
yielded \$125,000,000, or just about
what the advance in cotton will net
Southern producers. Is this a spec-
imen of the "sham prosperity" the
Democratic editors talked about?

It is a singular circumstance that
the number of deaths among the
country's Vice Presidents has largely
exceeded that among its Presidents.
While four men holding the higher
office died during their term, the
deaths in two of these instances—
Lincoln and Garfield—were caused
by violence. Six men holding the
second office, however, died during
their term, and all of them by
natural causes. Moreover, the Presi-
dents, on the average, have been,
when taking office, more advanced in
years than the Vice Presidents.

Christmas is Coming.
The dreams of childhood are tak-
ing shape in all the stores and shop-
windows of town, and in two weeks
more it will be the great holiday that
is hailed with so much joy by Christ-
endom. Already the shopping
incident to this festive time has begun,
and Santa Claus, who never forgets
good little boys and girls at this sea-
son, is packing up his treasures for
his annual trip among the young
friends who are to be gladdened by
the bounty of this ancient lover of
children.

Santa Claus is a shrewd old gentle-
man, and has learned wisdom by his
experience of former years. He
knows that it is best, at such a time
as this, not to wait for the rush and
feverish excitement of the last few
days before Christmas, as some per-
sons foolishly do, and so he is buying
his wares quietly now, while he has
time for calm reflection, and when he
will receive that amount of attention
from the urbane storekeepers,
which they will not be able to bestow
upon him later on. It would be well
for shoppers generally to follow the
example of Santa Claus and make
their holiday purchases as early as
possible.

In years gone by, the holiday shop-
ping in the majority of cases was put
off until a day or two before Christ-
mas, and the result was much un-
comfortable crowding of customers
and clerks, long hours of rushing ex-
citement and anxiety on the part of
dealers, and occasionally some little
dissatisfaction on the part of pur-
chasers at being unable to obtain
what they wanted at the very last
moment.

The indications all point to a busy
holiday season in Shenandoah this
year, and the liberal purchases made
by all the dealers is evidence of the
fact that they expect a brisk business.
It will add much to the comfort of
all concerned if as many as possible
can do so will make their holiday
purchases as early as they conveni-
ently can before the great rush of
the Christmastic trade sets in.
It is gratifying to find that there is
promise of a cheerful Christmas in
Shenandoah and elsewhere this year,
and that in many homes the genial
and happy influences which seem to
bring earth and heaven nearer
usually at this season, will be felt and
fully appreciated by old and young.

INDIGESTION
Cured by Johnson's Dyspepsia Cure
I suffered over two years with indigestion and
dyspepsia, unable to eat or sleep,
and physicians and different remedies
only helped me for a short time.
I decided to take Johnson's Dyspepsia
Cure. It has taken three boxes, and am now
better than I have for two years. I have
gained ten pounds in weight within
a couple of months. I am taking pleasure in
recommending Johnson's Dyspepsia Cure where
I can, and several of my friends are tak-
ing it with marked results.—L. A. Arnold, Clin.

THE FINANCE DEBATE.
It is Reported That Some Democrats
Will Favor the Measure.

Washington, Dec. 11.—The house
will devote the week entirely to the
financial debate on the currency bill.
The vote will not be taken until next
Monday. The debate will probably
cover a wide range, including a gen-
eral re-threshing of the campaign issue
of 1896, and there may be some
stormy incidents. The Republicans
are arrayed solidly for the bill, but
many of them who have never before
advocated the gold standard doubtless
will have to take the floor to explain
their change of position. On the Demo-
cratic side some of the members are
reported as favoring the bill, but there
has been no canvass made as yet, and
it remains to be seen how many of
them will join the Republicans upon
this measure. Representative Over-
street, of Indiana, who will have
charge of the bill on the floor, makes
the opening argument in its support.
The week does not promise to be a
busy one in the senate, the indications
being for routine business and short
sessions inside the chamber, with
much preparation for future work in
the committee rooms. Senator Mason
will open the week with a speech on
his resolution declaring the sympathy
of this country with the Boers in their
war with Great Britain. There may be
other brief speeches in the chamber,
and other questions, though there is a gen-
eral disposition on the part of sena-
tors to postpone speech making until
after the holidays. The finance com-
mittee may meet tomorrow for prelimi-
nary consideration of the finance bill,
but this is not yet decided upon.

Raze He Shot Minister Cheney.
Raze, Wis., Dec. 11.—A man giv-
ing the name of George Dardis was ar-
rested yesterday after making a state-
ment in a saloon that he was the man
who shot the Rev. D. B. Cheney and
wife last Thursday. Dardis says he
shot the minister because of his A. P.
A. belief. His statement, however, is
discredited.

THE WAGE INCREASES.

Highest Wages in Massachusetts
Since the Boom of 1892.
Fall River, Mass., Dec. 11.—The new
wage schedule, giving the mill em-
ployees of this city an increase in their
wages of 10 per cent, went into effect
today in all the mills of this city. The
advance of 10 per cent in the wages of
New England's cotton operatives
means an average addition to the pay
of each employe of about 70 cents per
week and a yearly increase in wages
of about \$2,500,000. The greater por-
tion of the New England cotton opera-
tives began work under the new
schedule today, over 75,000 hands being
affected. The second group of over
60,000 will begin work under the 10
per cent advance Dec. 18, and between
Dec. 11 and the new year 6,000 opera-
tives in eastern Connecticut will be
employed at the advanced rate. All
the cotton mill operatives of New Eng-
land are now receiving or will receive
shortly an average rate of pay which
will show the previous high rate of
1892, when they were paid the highest
rate of wages since the inception of
the cotton industry.

Killed His Brother With a Blow.
Newark, N. J., Dec. 11.—Peter Doran,
28 years old, killed his brother, Patrick,
early yesterday morning in front
of their home here. Death was caused
by a fractured skull, sustained, it is
believed, by Patrick falling from the
force of the blow dealt him in the face
by Peter. Peter made no effort to
escape and was arrested. A charge of
murder was placed against him.

A Sunday Saloon Murder.
Omaha, Dec. 11.—Charles R. Grove,
prominent in local politics and a mem-
ber of the Republican committee, was
killed last night by Tom Collins, a
local character. The killing was cold
blooded and premeditated, and occur-
ed in Grove's saloon. Collins fought
fiercely to escape, but officers soon ar-
rived and he was taken to jail. He
had made threats to kill Grove, the
latter having ejected him from the sal-
oon several times.

Car Furnace Will Close Steel Works.
Altoona, Pa., Dec. 11.—Lewistown,
Pa., can get a consignment of coal
within the next few days the entire
works employing 2,500 men, will be
forced to shut down. A representative
of the company was at Windber, near
here, Saturday, to see the Berwind-
White Coal company officers about get-
ting coal, but failed to get any. He
also visited all the local operators, but
was unable to procure a ton. He goes
into the Clearfield district today. Scar-
city of cars is given as the reason.

Accused Internal Revenue Cashier.
St. Louis, Mo., Dec. 11.—Arnold Tusch-
schmidt, the cashier of the internal
revenue department who is on
bail awaiting trial on a charge of em-
bezzling \$7,000, has been rearrested on
a warrant charging an additional
shortage in his accounts of \$2,000.
Tuschschmidt was unable to furnish
\$5,000 bonds and was committed to
jail. Collector Grenner swore to the
information on which the warrant was
issued. It is intimated that the short-
age may aggregate \$20,000.

Mysterious Express Robbery.
Cheyenne, Wyo., Dec. 11.—The de-
tails of a most mysterious robbery are
just coming to light here. Saturday
night, between 9 and 10 o'clock, the
office of the Pacific Express company
was robbed, but as yet not a single
clue has been discovered. There is a
small force of men in the express of-
fice at night to handle express on in-
coming and outgoing trains, and when
these trains arrive the men have been
in the habit of locking the office. This
Saturday night, however, as usual,
and when the expressmen returned, 20
minutes later, the door was open, as
was also the safe door. The amount of
money taken is reported to be between
\$5,000 and \$25,000.

Little Pimples Turn to Cancer.
Cancer often results from an im-
munity in the blood, inherited from
generation to generation. Few people are
truly free from some taint in the blood,
and it is impossible to tell when it
breaks out in the form of dreaded Can-
cer. What has appeared to be a mere
pimple or scratch has developed into
the most malignant Cancer.

CONUL MACRUM'S MISSION.
A Belief That He Bears a Peace Propo-
sition From Kruger.
Liverpool, Dec. 11.—Friends in this
city of Charles E. Macrum, until re-
cently United States consul at Pre-
toria, the Transvaal Republic, now re-
turning to this country, say he will
impart information to the state depart-
ment which he was unwilling to risk
cabling. His letters conclusively prove

CHARLES EVERSON MACRUM.
That not only was Macrum not persona
non grata to the Transvaal govern-
ment, but that he was on the best pos-
sible terms with President Kruger.
Cabling could only be done over a line
controlled in part by England. It is
believed the information brought by
Macrum is from President Kruger, and
the purpose is to initiate measures to
bring the war to a close on honorable
terms to the Dutch republic.

Augusta's Million Dollar Fire.
Augusta, Ga., Dec. 11.—The worst
fire that Augusta has had in years
started early Sunday morning and
caused \$1,000,000 damage. It began in
the heart of J. B. White's big dry goods
house, the nearest approach Augusta
had to a big modern department store.
The origin of the fire is unknown, but
it is surmised that an electric wire
may have come in contact with the
woodwork after the insulation on it
became imperfect, or possibly a spark
from the sputtering arc light may
have tumbled into the dry goods.

Germany's Industrial Boom.
Berlin, Dec. 11.—The money market
situation continues to be the chief con-
cern of the German business world, but
thus far money market conditions do
not inspire a fear of permanent trouble
in Berlin. A high financial authority
gave the press correspondents an es-
timate of the gold in circulation in
Germany, placing this at 2,500,000,000
marks, and predicted that the indus-
trial situation would continue very
strong. A leading official of the reich-
sbank explained that the industrial
boom had not yet reached its culmination,
but was now extending to the
textile industries.
