Clearing House Banks Prevent a Serious Money Panic.

FABULOUS RATES FOR MONEY.

Per Cent Was Paid-Stocks Thrown Over Without the Slightest Regard to the Price They Would Bring.

New York, Dec. 19.-Panic conditions leveloped on the Stock Exchange yesterday afternoon, with the imperative need of money developed by the violent contraction of values. Stocks were seing thrown over without the slightat regard to the price they would the situation seemed in sight when, in the last half hour of the market, some \$10,000,000 was offered on the Stock Exchange by the concerted action of the clearing bouse banks to force the rate arbitrarily down to 6 per cent without regard to the distracted bidlog at higher rates which was being one by other bankers for distressed operators. The collapse in the money rate checked the decline and drove the bears to cover. The recoveries produced by their urgent bidding were almost as violent as the declines had been, but the losses were by no means entirely retrieved. Large offerings of stocks continued at the rally, and at some points of the list prices broke inew before the close, making the losing exceedingly irregular and unset-

Clearing House banks and money rate leaped to 50, 70, 100 and according to he official record, 125 per cent. Credireports assert that 186 per cent was aid for money during the day. The fficial record of such a transaction

vez lost in the excitement. The excitement continued to the end, with sentiment looking forward anxmusly for the developments of an-ther day. The seriousness of the risis has called forth the best efforts of powerful and conservative financial interests, who are busy concerting measures to tide over the money diffi-culties which beset the stock market and which, by reason of their extent and the importance of the interests involved, threaten to affect the country's It is considered a point gained to have effected a cessation of the ruth-less sacrifice of values long enough for tionably reached that stage where ordimary considerations of prudence or alone for the sake of the little one to even of necessity had been thrown to the wind, and the sufferers from the money stringency were unloading their holdings in the true panic spirit. A pause of a few hours for consideration is likely in itself to do much toward tory period three-fourths of a year and

of bankers and brokers who have figured as traders in stocks to an extent of some importance. Neither event in itself would have been sufficient to precipitate a crisis. But they were supplemented with a whole crop of wild and incoherent rumors which spared no interest, however powerful, long astablished and hitherto free from suspicion it may have been. One would think from the tone of some of the gossin that was flying about that the whole thancial fabric had been undermined and was about to tumble in ruins. Yet the day closed with the two fallures above mentioned as the sum total of disnater, so far as admitted in-

reported surplus and undivided profits at this time of over \$2,500,000. Its business was chiefly with merchants, tradesmen and corporations in its immediate vicinity and it was also sup-posed to do some of the banking busi-ness of the Standard Oil company. It had been designated by the banking de partment of the state as a lagal de esitory for state moneys and municisavings banks and state banks, T. Beall is president of the company nd Edwin Could first vice president.

Mr. Could wrote a letter to the ex-Dec. 5 indicating his intention to resign the the presidency. The letter was written on examination of the books and accounts of the company, He declared he had found matters for which he did not care to assume responsibility. He was induced to re-main in office, and when the company closed vesterday Mr. Gould was chosen chairman of an investigating committee. This committee reports that every depositor of the company will be paid in full, and that a large surplus will

remain for the stockholders.

The other failure was the firm of Allen & Co. The suspension is at-tributed to the failure of some of its customers to respond to calls for ad ditional margins made necessary by recent declines. The liabilities are said to be in the neighborhood of \$1,-

The Seventh National bank sent a notice to its correspondents last night that it would not continue to clear for the International Banking and Trust company, a new concern which has been clearing through the Seventh Na-tional, it also maintained close business relations with the Produce Ex change Trust company, which suspend-

ed yesterday. The excitement in Wall street was followed by similar slumps in Phila-delphia. Boston and other cities, but no failures were reported.

A Night of Terror.

"Awful auxiety was felt for the widow of the brave (ieneral Burnham of Machias, Me, when the doctors said she could not live till morning" writes Mrs. S. H. Liucoln, who attended her that fearful night. "All thought she must seen die from Pneumonia, but she begged for Dr. King's New Discovery, soying it had more than once saved her life, and had cured her of Consumption. After three small doses she slept easily all night, and its further use completely cared her." The marvelous medicine is guaranteed to cure all Throat, Chest and Lung Diseases. Only 30c and \$1.00. SILVER REPUBLICANS.

In An Address, Churge the Dominant Party With Instructity. Washington, Dec. 19.-After the passinge yesterday by the house of the financial bill the Silver Republican leaders in the city held a meeting and adopted an address "to the members of the Rombiless party who still believe in himetallism," setting forth their views as to its effect. The address declares that the passage of the bill without the opposition of a single Re-publicate vote marks the culmination of a policy long and carefully pursued justifies the action of the men who in 1856 referred to remain in that organization after the adoption of the St.

Louis platform.
The address declares that u frank pronouncement for the gold standard in the St. Louis platform, or a straightbring, and at distressing sacrifice of forward interpretation of it by the Revalues. No end to the helplessness of publican candidate for president as meaning the gold standard, and noth-ing che, would be elected Mr. Bryan by an overwhelming majority. The

is nearing consummation. The policy that was denied by the Republican party in that campaign stands no confessed. Millions of you who vote the Republican ticket in 1896 would not have done on had you believe your party destined as soon to be the agent of the forces that now dominate it. Millions of you were bimetallists that your country is about to be handed over to the ownership and con trol of the great speculative banks ar their associated trusts and combina-tions, may we not appeal to you to come to the resone of the liberties of the people and their imperiled institu

So far as actual news was concerned, there was a suspension by a newly organized trust company and by a firm of bankers and brokers who have fig-

follores above mentioned as the sum total of disaster, so far as admitted insolvency was concerned.

The trust company which closed its doors yesterday was the Produce Exchange Trust sempany. The company with a capital of \$2,500,000 and had a reported surplus and undivided profits.
