A FATAL EARTHQUAKE.

It Causes Serious Property Damage in Southern California.

SIX SQUAWS KILLED AT SABOBA.

At That Indian Reservation the Only Fatalities Are Reported, the Victims Being Killed by Falling Walls. People Flee in Their Night Clothes.

o'clock yesterday morning a severe earthquake shock was felt over a long portion of Southern California, the undulations hasting about 12 seconds. The entire center of the shock appeared to have been at San Jacinto, a small town in itiverside county. The business portion of San Jacinto consists of two blocks of two story build-ings, some of which are built of brick. Ten of 15 buildings were damaged, chimneys being toppled over and wells cracked and shaken. The total damage at San Jacinto and Hemit, a small town near by, is estimated at \$50,000. The large Tourist hotel at Hemit was damaged and the San Jacinto also suffered. The rear wall of the Johnson block at Hemit fell. No person was injured at either place as far as known. The shock was heavy at Santa Ana, Anheim, San Bernardo, Riverside and other places, but no particular damage is reported except from San Jacinto and Hemit. In this city no damage was done, though the shock was particularly violent.

The only loss of life so far as known was at the Saboba Indian reservation, where six squaws were killed by falling walls and two fatally injured. A number of Indians were seriously in-jured. The shock was heavy.

At San Jacinto the main shock was most athe preceded by a loud, roaring sound and br. p awakeged many just in time to escape from the doomed buildings. The business street is such a wreck that tons of debris had to be removed before the buildings could be entered. The mack go without a Christmas dinner yestercaused dry artesian wells to flow day. In the special circumstances of the present war the government is bound to regard food as contraband No doubt the question can be satisfactorily settled by paying compensation
