The State Board of Health has issued orders to creamery managers throughout the state to keep the various branches of their business separate; that is to say, the reception, bottling and handling of milk cannot be done in the same room where the washing of cans and other work of a more or less dirty nature is done. This is merely a sanitary precaution.

A Maltese cat was worried by a dog and climbed to the top of a tall tree in Harrisburg one day last week. Its perch proved to be anything but a place of safety for the feline, however, as, afraid to leave its perch, it endured a fusillade of bricks and stones, for several days and then quietly yielded up its nine lives. By the aid of a long ladder and through the stimulus of a dollar, a man was found who shinned up the tree and dropped the cat. Our Honesdale tabbies do better. Within a few days past we have seen three mounted on telegraph poles just outside of our sanctum window. Of course every passer-by was greeted with an appealing mew; but no first aid turning up, the wise cats finally ventured to turn around and let themselves backwards down to terra-firma.

The Third Annual Banquet of the Wayne County Pennsylvania Society of New York city will be held on Tuesday evening, February 23d, 1909, at half past seven o'clock, at the Hotel Manhattan, corner of Madison Avenue and 42d street, New York city. The privilege of purchasing tickets to the dinner will be extended to many Wayne county people; but as there will be a limit to the number who can be accommodated, and as applications will be filed in the order received, it will be well for such as accept invitations to notify the Secretary, Charles S. Penwarden, 11 Nassau street, before the 17th of February, on which date seats to members and guests will be assigned. The officers of the Society are: Chas. W. Hand, President; Wm. F. Dorflinger, 1st Vice President; Dr. Peter J. Gibbons, 2d Vice President; W. Monroe Weiss, 3d Vice President; John H. Strongman, Treasurer, and O. B. Hadwell, Historian.

Such of the Honesdale public schools as have been accommodated in the Town Hall during the present term, while the new building is being erected, have been closed on account of scarlet fever in the families of some of the children in attendance. The town hall was fumigated yesterday, but just when school will be reopened, cannot be positively stated. The other branches of the high school are occupying the old school building as usual, but, as a precautionary measure the class and recitation rooms will be fumigated to-morrow, Saturday.

The Captain of Troop B, of the State police has made his annual report to the Department, showing 1,302 arrests. The men patrolled 113,000 miles. The troopers worked Berks, Bradford, Carbon, Columbia, Delaware, Huntingdon, Lackawanna, Lehigh, Luzerne, Lycoming, Montour, Monroe, Northumberland, Philadelphia, Pike, Schuylkill, Sullivan, Susquehanna, Montrose, Wayne and Wyoming counties. Riot calls were few, and in most cases two or three men were able to handle the trouble. Capt. Robinson speaks of the growth of respect and esteem shown by the public for the troopers and advocates higher wages for them.

"It is to laugh" at the millionaire residents of fashionable Tuxedo, who in times past have been wont to amuse themselves with stories of ferocious wolves and bears in "way back" localities, when we find them chased into their luxurious boudoirs, almost in the shadow of the metropolis, by an invasion of wild cats. Thus far, according to the latest reports, the henk and odor of the automobiles, so much in evidence in that exclusive resort, have sufficed to keep the monsters at bay; but what will happen when they get used to those smell and sound adjuncts of modern civilization we can scarcely conjecture. The bob-tail invaders are said to have struck consternation into the ranks of their Angora second cousins, who have heretofore displayed their inflated caudal appendages on the lawns and among the trees of Tuxedo, the admired of all observers, but who now find quiet nooks in the parlors and cory corners under the beds much more to their liking.

Former Representative William C. Norton, of Clinton township, this county, has been instrumental in having introduced in the State Legislature a bill which, if it becomes a law, will inaugurate a State fair in Pennsylvania. The bill carries with it an appropriation of \$200,000 to the board for the purchase of a site for the fair grounds; for the preparation of the same, and for permanent equipment of the grounds. An additional appropriation of \$25,000 for the payment of premiums to exhibitors and for necessary expenses, is also provided. Under the terms of the bill the commission is to consist of the governor of the state, the secretary of agriculture, the superintendent of public instruction, and other members to be appointed by the governor, as follows: One member from the Pennsylvania State Grange, one member from the Pennsylvania Live Stock Breeders' Association, one from the Pennsylvania State Dairy Union, one from the Pennsylvania State Horticultural Society, one from the Pennsylvania State Veterinary Medical Association, one from the senate of Pennsylvania, two members of the house, one from the agricultural experimental station of the Pennsylvania College, one from the state board of agriculture, and two members at large, one of whom shall represent transportation interests. The act provides for a State fair to be held annually at such time and place as the board may select, the exhibition to be entirely under its control and direction.

THE POULTRY QUESTION.

An Encouraging Meeting—A Creditable Exhibition Will be Made at the Next Fair.

A very bright, practical and helpful meeting of the Wayne County Poultry and Pigeon Association was held in the Court House, Honesdale, on Monday, the 25th. A common sense constitution and by-laws were adopted, after some spirited remarks by some of the up-to-date breeders of the county.

An offer of the Wayne Co. Agricultural Society to give the use of the lower floor of the Crystal Palace for a poultry exhibition at the fall fair was accepted, and a resolution of thanks was extended to the society.

Members of the Poultry and Pigeon Association, do you know what that means? It means that we must get busy, and present at least 600 birds in competitive exhibition.

The exhibition will be open to the world, but special premiums will be offered to the members of the association. All birds will be judged according to the American standard of classification.

The membership fee is \$1, and thereafter \$1 per year retains membership. Those desiring to become members can do so by sending their names and addresses, enclosing therewith \$1, to W. A. Wolford, Hawley, Pa.

Now, boys and girls in this county, get busy! Get a setting of some thoroughbred eggs, from some one of the up-to-date breeders of the county, or elsewhere, and win some of the prizes next fall.

The next regular meeting will be held on the second Wednesday of April, at which one of the most practical poultrymen of the United States will give an address or two on seasonable topics. W. C. Woodward, of Niagara, F. C. Deiterick, of Aldenville, George Swartz, Ariel, W. A. Wolford and R. F. Martin, Hawley, were some of the many alive spirits there.

What's the matter with the business and professional gentlemen of Honesdale, that they do not interest themselves in the work? We hope soon to see them in attendance, and also winning prizes.

Set aside a corner in the back yard; get the boy or girl of the home an old dry-goods box or piano box and a setting of eggs under some mother hen; and watch the result. J. B. CODY.

Large numbers of French waste paper books masqueraded in full morocco as Oeuvres de Miss Burney or somebody else, and the price varied from 50 to 100 rubles a yard, according to the binding.

"Black Beauty."

It is seldom in the annals of the drama that a play is as good as the book from which it may be drawn, but perhaps once in a decade the feat may be accomplished with success, and the result is always very marked, as in the case of "Black Beauty," which not only was an international success as a book, but is well on the way to the same record as a play. Everybody in almost every country on the face of the globe knows "Black Beauty" by heart, and truly it was a heart story that touched a tender chord in every breast toward the dumb animals. The author of the book lived just long enough to learn of the success of her touching story, but since then it has been read by over ten million people, which attests the wonderful humane power of the story. The President of the American Humane Education Society, Mr. George T. Angell, has the honor of putting forth both the book and play, for in his 85th year, still vigorously pushing his great work for all the animal world, he offered a \$1000 prize for the finest play written from "Black Beauty," and after the jury had made its selection, Mr. Angell paid the prize money and sold the play to the well-known theatrical managers, Atkinson and Thatcher, who immediately began preparations to stage "Black Beauty" in a magnificent manner and tour the United States with it, and it will be seen in this town at the Lyric on Monday, Feb. 1st only. These enterprising managers have secured a popular theatre edition of the book, which can be bought at the local stores for a small sum, to refresh the memory on this great humane play before seeing the play which has made the greatest hit of any drama put out in a decade. A very fine company of selected players will bring their own beautiful scenery and fresh costumes, also three fine horses which take the well-remembered parts of "Ginger," "Merrylegs" and "Black Beauty" in the play, which closes with a grand allegorical scene.

We have made arrangements so that we can send for \$1.75 the CITIZEN for one year and the FARM JOURNAL for five years.
