Glass Cutting Industry.

During the late panic the Wayne counbusiness, employing as many men as possible, although the profits of the manufacturers were eliminated to such an extent that they did not realize enough to pay interest on their investment; but they managed to hold their men together and made many new friends among the dealers in cut glass, to whom they sold goods at cost prices. This has angered the New York State and Western cut glass manufacturers, with the result that there is an effort being made, through paid emissaries, to create a spirit of dissatisfaction among the workingmen in this section of Pennsylvania, with a view to diverting trade from Honesdale and vicinity to other places. We hope our glass cutters will not permit themselves to be fooled by any well-paid individual who, with nicely arranged arguments, tries to put them into an antagonistic position with their employers, as a dissurbance of this character, just now, will drive business away from Honesdale, help outside concerns, and injure our workingmen more than any thing else.

They also ask that the State pay the minimum wages of the public school teachers for the minimum term; also for an appropriation for the public roads of a minimum sum per mile for road purposes equal to 50 per cent, of the road taxes paid in each township, and relieve the counties and townships of the partnership system of constructing roads.

WARDS OF THE STATE.

Pennsylvania's School for Soldiers' Orphans.—How the Children are Cared For.

The State "Soldiers' Orphan Schools' maintain and educate, at the expense of the State, the children of deceased soldiers, and of those who are living but are unable to suitably maintain and educate them. from the different springs. The two largest buildings are the boys' and girls' dormitories, having wide porches on three sides of the building, the Superintendent's office, reception room, girls' reading room, play room and wash family of Mrs. J. K. Jenkins until her room, (where each child has a stand and shelf for brush, comb, soap and tooth brush) two sewing rooms, all on the first floor; guest room, matron and babies' room, and one long room for children. The long rooms contain seven-SUBSCRIPTION: \$1.50 A YEAR, IN ADVANCE ty-five single white beds, being on the second and third floors.

The boys have the same with the dining room in addition, which is one long room with several tables, being able to seat two hundred at a time. Every thing in these buildings is exceptionally clean, by cut glass factories continued doing with all white linen. The other buildings are school, hospital, teachers' home, laundry, cobbling shop, chapel, barns and store houses. One store house contains 1,100 bushels of potatoes, of which the institution requires 5 bushels a day.

The clothing is furnished by the State, the beys having soldiers' uniforms, from the smallest (4 years old) to the oldest. The girls for summer have two plaid children, five daughters and three sons, gingham and two white dresses, aprons, and straw hats. For winter, dark blue woollen dresses, trimmed with plaid straps, gingham aprons and long military capes. The cost of clothing and provisions for one year is \$19,683.00-\$8,069.07 for clothing and \$11,613.93 for provisions-the State paying the bills.

The number of pupils is 345, and the school building is not large enough for all to be at study all day, making half sessions necessary; but no time is wasted as those not in school are being taught all kinds of house work-sewing, ironing and cooking; the boys farming, cobbling and even scrubbing the dining room floor and beautifying the yards. All work until four o'clock, at which time they drill on the lawn, some of the boys playing in the band. After drill is play time until six o'clock, and at eight o'clock every child is in bed.

The ages range from one year to eighteen years. There were three two yearold babies playing with their toys and as happy as could be.

The educational department is under the supervision of an excellent principal assisted by a corps of faithful and experienced teachers. That good work is being done is certainly evident.

All holidays, Thanksgiving, Christmas, New Year's, Easter, Memorial Day and all others, are properly observed and appropriate services held.

Religious and moral training are not neglected. Sunday school is held every Sunday and devotional exercises daily. Preaching in chapel on special occasions.

The superintendent, Dr. Hughes, is a gentleman of exceptional ability, caring for and loving these children with almost a father's love. He rules them with the utmost kindness, and the children in turn love him as well.

In conclusion let me say there is no need to feel sorry for these children, but we may rejoice with them that they have The Granges throughout the country such a lovely home and are so well cared N. H.

CITIZEN'S 5 MILE RACE How to Train.

For all who may contemplate entering this race, the following suggestions are important:

Long walks and slow jogging should always be given a course of training for distant running. Whenever a difficulty in breathing is felt, the athlete should walk until his powers of respiration have recovered. He should never sit or stand around uncovered, but as soon as his work is done, cover up warmly until an opportunity to be rubbed down is given him, and then dry, warm clothes should

While running, the athlete should stop just as soon as he feels a pain in his side, or the front part of his lower leg becomes sore.

The diet should be simple, sleep abundant. Omit tobacco, all alcoholic liquors,

and get the winter's stiffness out of the muscles.

Further advice will be given from time to time within the next few weeks.

For additional information watch the columns of this paper. In a few days detailed announcement of the necessary steps to enter will be made. In the meantime those desiring to enter can do so by communicating with THE CITIZEN.

Italian Beats Johnny Haves In New York Marathon.

TWO LAPS AHEAD AT FINISH.

Crowd of Ten Thousand Persons Witnesses Exciting Indoor Contest at Madison Square Gar-

den, New York.

New York, March 16.-In the presence of more than 10,000 spectators at Madison Square Garden, Dorando Pietri, the Italian runner, again beat Johnny Hayes, the Irish-American, in an indoor Marathon at the distance of

26 miles 385 yards. The Italian finished two laps ahead of Hayes, and the winner's time was 2 hours 48 minutes 48 seconds

The time of the Longboat-Dorando race on Dec. 15 last was 2 hours 45 minutes 5 2-5 seconds.

Hayes won the pole at the start, but two seconds after Sheriff Foley sent them away Dorando went to the fore and was leading by a couple of feet at the end of the first mile. The official

The runners passed the second mile mark in 10 minutes 42 seconds, which is 36 seconds better than the time made on Thanksgiving eve by them. Dorando still was slightly in the lead. and Hayes permitted him to do the pacing throughout the third and fourth miles. The time at the finish of the third mile was 16 minutes 20 seconds and at the end of the fourth 22 min-

Dorando also led at the end of the sixth mile, but in the first lap of the seventh Haves sprinted and took the lead. Amid loud cheering the American circled the track at a rapid pace, but then slowed down, and Dorando again went to the front.

The enthusiasm as the runners jogged around the sawdust and clay track was intense, the Italians vieing with the Americans and Irish-Americans in cheering on their partisans. There was a terrific burst of cheer-

ing from the 10,000 spectators when Dorando led Hayes by a couple of yards past the ten mile mark in 56 minutes 46 seconds. In the running of the fourteenth Hayes made a sprint, which to the

spectators looked to be a try-out to ascertain just how much the Italian held in reserve. Several times the runners changed positions, but the Italian would not be

denied and led Hayes across the line at the end of the fourteenth mile. Dorando also held the lead at the finish of the fifteenth, his time being 1 hour 27 minutes 5 seconds. Dorande after finishing the sixteenth

mile in 1 hour 33 minutes 20 seconds sprinted away and amid terrific cheering lapped Hayes inside of a half mile. Dorando's time for seventeen The time to start to prepare for the 1 hour 39 minutes 22 2-5 seconds, was run is now. Do not wait, but pitch in the fastest for the distance ever run in America. During the running of the eighteenth

mile Dorando gained another lap and then settled in behind the little Irish-American, whom he followed step by step with dogged persistency.

What Class are YOU in

The world has always been divided into two classes—those who have saved, those who have spent—the thrifty and the extravagant.

It is the savers who have built the houses, the mills, the bridges, the railroads, the ships and all the other great works which stand for man's advancement and happiness.

The spenders are slaves to the savers. It is the law of nature. We want you to be a saver—to open an account in our Savings Department and be independent.
