NO. 37

ACTION BY SULTAN

Grand Vizier and Sheik-ul-Islam Dismissed.

HILMI PASHA IS MADE PREMIER

Two Other Cabinet Members Thrust Out of Office-Famine at Hadjin, Which Was Besieged by Moslems.

Constantinople, May 6.-By the direct action of Sultan Mohammed, Tewfik Pasha, grand vizier, and Zia Eddin Effendi, Sheik-ul-Islam, a head of the Moslem faith, have been summarily dismissed from office.

Hilmi Pasha and Mollah Sahib were installed respectively as grand vizier of the empire and Sheik-ul-Islam.

Nail Bey, member of the chamber of deputies from Sinope and an active worker of the committee of union and progress, replaces Azmi Bey as miniser of public instruction, and Vice Admiral Arifhikmet Pasha replaces Riza Pasha as minister of marine.

In the imperial decree ordering the changes the sultan expressed his firm desire for the restoration and maintenance of peace and tranquillity, the welfare of the country and regularity of administration,

This sudden change in the cabinet came as a surprise, it having been an-

nounced that Tewfik Pasha would retain the post of grand vizier until after the investiture of the new suitan with the sword of Othman. The change is taken to indicate that a full understanding has been reached between the two groups of the Unionist party to support Hilmi Pasha.

Notwithstanding the presence of the troops at Hadjin, the situation there is desperate owing to the lack of food and medical supplies. The troops which relieved the city, under command of Louth Bey, arrived just in time, as the besiegers had succeeded in setting fire to a house on the edge of the city.

The fire spread, but as the breeze was blowing away from the town only five buildings were destroyed. A heavy rifle fire was kept up against those who tried to extinguish the flames.

The Mohammedans outside the walls, who numbered many thousands, pushed their attacks energetically against the inhabitants, killing and wounding many. They were so eager to get inside the city and plunder the place that they did not observe the approach of Louts Bey and his men until they were close upon them, whereupon the Mohammedans fled precipitately, carrying off all the cattle outside the city.

The Christian clergy and the whole population of Hadjin welcomed their deliverers with great rejoicing. Colonel Louts visited the churches and schools and placed guards at various points. The famine increases day by day, and starvation faces thousands.

A letter from Harni says that every man there has been killed. Only women, girls and boys under ten have been left alive. The churches and houses were plundered, and most of them were burned.

The letter, which is from the widow of a Christian missionary, says: "We have nothing to eat or wear. We are living on grass like animals. Worse than this, the Moslems are trying to force the women and girls to become Mohammedans. Already some of the women have been carried away."

At Adana many persons are dying from exposure, and the necessity for relief measures is exceedingly press-

GOVERNOR STUART DISTUIL UN TARIFF

Aldrich and Culberson Can't Agree on Increases.

TWO ESTIMATES VARY WIDELY

Texas Senator Declares That the Bill Now Proposed Has 316 Increases and 356 Decreases Over Dingley Measure.

Washington, May 6, - Statements were made to the senate by Senator Aldrich, representing the finance committee, and Senator Culberson, the minority leader, analyzing the tariff bill as it was reported to the senate and comparing it so far as increases and reductions are concerned with the Dingley law.

Senator Culberson figured the decreases to be 356, the increases 316 the duties are unchanged to be 1,271.

Mr. Aldrich made the reductions 379, but furnished no figures as to the captain and his men. The authorities and appurtenances leased, hired or number of increases made. He exhere are convinced of the truth of conditionally sold from levy or sale, pressed surprise at the number of increases announced by Mr. Culberson Repealing an act which provides and declared that the statement must derful man.

The finance committee also presented for the information of senators a detailed statement, giving an estimate of the reductions made by the senate bill in the duties of the present law.

The possibilities of the passage of the tariff bill and the adjournment of his usual listless attitude. It was one the special session of congress before of the very few times he has shown July 1 seem to have vanished. This any intelligent appreciation of what conclusion has been reached by the was going on around him since the president as a result of recent talk with senators and representatives.

Among those who have followed the trend of important legislation on the tariff there is a belief that the real tariff vevision bill remains to be framed in conference. Wheever influence President Taft feels he can bring to bear in securing a satisfactory measure will be exerted upon the conferees. The president is averse to being drawn into the fight, and there is no thought that he will be until the conferees begin their consideration of the two bills as passed by the house and senate.

In view of conflicting reports as to the president's attitude on the various special taxation propositions that have been suggested in connection with the new bill, the president has reiterated his position to recent callers. He is still hopeful that the revenue to be derived from the new bill will prove sufficient to prevent a deficit.

If it should be shown, however, that of further support to meet the current expenditures, the president will adhere to his original proposition that a graduated federal inheritance tax is the most just that could be levied and would prove the easiest to collect.

If such a tax should not prove sufficient to meet the necessities of the

government or if it should not appeal to the majority of congress, the president favors as a substitute or as an additional means of collecting revenue the imposition of an excise tax on the dividends of corporations,

An income tax, he believes and always has believed, should be levied only as a last resort. The president has endeavored to make his position clear on these points and is more amused than anything else at the attempt of the advocates of the different measures to commit him absolutely to any one of the special tax propost-
