REPUBLICANS.

Republicans do not forget the primaries; turn out and vote. It is true no great principle is at stake, but do not let that keep you from the polls. The Citizen is interested in a thorough organization of the party and a unification of every interest that we may poll our full vote at future elections.

It is something awful the way the Senators and Congressmen of the solid Democratic south, who a few years ago, were rabid free traders, are fighting for a protective tariff that will protect their industries. Congress is being held up, the people's money paying the bill, while Senator Bailey, the idol of the Democracy and the convicted satellite of Standard Oil, is hobnobbing with the Republican Senators in his effort to protect the chivalrous south from the boomerang of free trade. In the meantime the leaders of the old, moss back stage coach democracy of the north are hunting around for some argument to keep alive an interest in their dilapidated ship of state which drifted on to the breakers of Bryanism and now is gradually going to pieces, and the pieces being used to strengthen the craft that Socialism is trying to float.

A SENSELESS CUSTOM.

The wires of our phone have been used since Decoration Day until we could smell the burning rubber used in the insulation material, as it was dissolved under the burning protests of sick mothers, nervous women, bed-ridden old people and hard working men and women whose sleep was disturbed by the firing of the cannon from Irving Cliff at the unnatural hour of five o'clock on the morning of Decoration Day. At this hour of morning vitality in every human being is at its lowest ebb, and a shock resulting from the firing of cannon at this hour is unusually severe and dangerous. Why should people be disturbed at this unusually hour just when tired nature is beginning to absorb the benefits of a night's rest? Why should workmen who toil so hard be disturbed on the morning of a holiday when the opportunity for extra rest is given them? Old soldiers, the people have been very solicitous for your welfare; why not reciprocate; fire your cannon at sunset or during memorial services. We trust that if there must be a salute on July 4th that this matter be given consideration. To the many who have written us letters protesting against this outrage (as so expressed in most of the letters) we would say that instead of publishing the letters we have written the above. Later—we have ascertained that the firing of the cannon on Memorial Day at 5 o'clock a. m. was in direct violation of the orders of Commandeur Henry Wilson of Capt. James Ham Post. It appears that some young men got possession of cannon and powder and caused the trouble. It will not occur again.

A dispatch from Nairola, Africa, says that Mr. Roosevelt is annoyed at certain special dispatches which it is reported here are appearing in American or English newspapers. He requests the Associated Press to send out the following statement: "No newspaper has a representative with the Roosevelt party, nor any nearer means of gaining information of the party's doings beyond what is generally known. Any special dispatches appearing are in all human probability sheer inventions. Moreover, the details which purport to be thus obtained can only be due to bribery, and it is safe to state that a dishonorable man giving a bribe and a dishonorable man accepting the same would be willing to invent untruths for money, or traffic in other forms of dishonor."

A quarter of a million of dollars will have been appropriated by congress for the purchase and construction of the isthmian canal, if the estimates for the expenditures in canal construction for the fiscal year, beginning July 1, 1910, are agreed to by congress next winter. These estimates, amounting to about \$35,000,000, have just been received in Washington from the canal zone and are being reviewed by Secretary of War Dickinson. Already there has been appropriated for the purchase of canal rights from France and Panama and for construction a total of \$210,000,000. Secretary Dickinson finds it very difficult to reduce the estimates and congress itself has learned that a reduction of the estimates merely invites a deficiency appropriation later. The estimates for the canal are sent to congress independent of the appropriation for the military establishment proper.

REPUBLICANS:—Attend primaries on Saturday, June 5th, and vote for Wm. C. Ames and Charles T. Smith, delegates to State Convention. ADV.

HYMENEAL.

Wilbur St. Clair Jaunes and Mrs. Cora R. Silsby, both of Carbondale, were married at the Honesdale Presbyterian manse on Wednesday morning. The ceremony was performed by Rev. Wm. H. Swift.

A pretty wedding was solemnized at the Methodist Episcopal church, Bethany on Wednesday morning, when Miss Laura A., daughter of Mr. and Mrs. J. V. Starnes, of that town, was united in marriage to Horace Noyes, of Honesdale. The ceremony was performed at eleven o'clock by Rev. W. B. Signor. The bride was attended by her sister, Miss Blanche Starnes, and Fred, Booth, of New York city, cousin of the groom acted as best man. The wedding march was rendered by Miss Wolff, of Scranton, violinist, and Miss Ella Gammell, organist. The ushers were Fred. Hauser, Wayne Hazen, and Russell and Walter Starnes. After the ceremony a reception was held at the home of the bride's parents. The bride is one of Bethany's well-known young ladies and the groom is a popular clerk at Peil's drug store in this place. The happy couple were the recipients of a number of beautiful presents from their large circle of friends. Mr. and Mrs. Noyes left on the 2:50 p. m., Erie train for a wedding trip to New York and other cities. Upon their return, they will reside in Honesdale.

English as She is Uttered.

"What is the cabbage?" inquired the departing patron who wished to go to the railway station from the hotel.

"What's the what?" exclaimed the clerk losing his clutch on the perfect English he usually handed over the counter.

"What's the cabbage? I said."

"I know you did but I do not quite get your meaning."

"Oh, you don't? You know what cabbage is, don't you?"

"I guess I've seen enough of it to know. I used to live in the suburbs of Chicago."

"Well, what is it from here to the depot?"

"I suppose it is just what it is everywhere else; that is, a vegetable which—"

The departing patron interrupted with violence.

"Aw, say," he protested, "you ought to be p'owed under, or fertilized, or something. Cabbage is cab fare, ain't it?"

Crystallization and Life.

Prof. Otto Lehmann, whose announcement, a few years ago, of the existence of "liquid crystals" gave rise to much discussion, which has ended in the recognition of the reality of the phenomena described by him, maintains that although crystals themselves are not living, crystallization is the agency made use of by living growth. The similarity in aspect and behavior between certain liquid crystals and bacteria is remarkable, "and," says a reviewer of Professor Lehmann's work in Nature, "can scarcely be accidental." The same reviewer holds that Professor Lehmann has "made an important contribution to the solution of the great question confronting all science and philosophy—What is life?"

British Water-Power.

The growing industry of extracting aluminum has stimulated the search for water-power in the British Isles, because the extraction of aluminum is so expensive that only low-cost power can be economically employed. In this respect Scotland, with its mountains, is coming to the front. The water-power plant at the falls of Foyers, in Scotland, has hitherto been the largest in Great Britain; but now a still larger plant, at Kinlochleven, utilizing the rainfall over a tract of 55 square miles, is about to be put into operation for the production of aluminum. Its nine hydraulic turbines, each of 3,200 brake horse-power, are the largest water-wheels in the British Isles.

Foghorn Arouses Birds.

There has just been erected on the Bass Rock, the precipitous island in the Frith of Forth, off the Haddingtonshire coast, a new foghorn which has cost \$200,000. It will be interesting to note the effect of the hooter on the nerves of the sea birds, of which thousands of one kind and another are to be found on this desolate spot. At dusk the captains of the passenger steamers in passing generally sound their whistle or siren for the amusement of their passengers, and it is a sight not easily forgotten to watch myriads of sleepy birds fly a short distance and then return, after uttering their protest after the manner of the owl in "Gray's Elegy." The new foghorn will give three blasts every two minutes.

The Patient was Improving.

The following was told of the patient of a well-known New York physician: The patient, an elderly gentleman, became quite ill while the doctor was absent upon a vacation, the indisposition being the result of too frequent potatoes. A female nurse was at once engaged to care for him in his hotel.

A lady, residing in the same hotel, became aware of his illness, and interested herself to the extent of one morning inquiring concerning his condition of the chambermaid.

"Shure, ma'am," replied Maggie, "an' I think he do be gettin' along very well. The nurse was sittin' on 'is lap this mornin'."

THE BASE BALL WORLD

The Carbondale Commercial Institute base ball team defeated the High school team at Athletic park Saturday afternoon by the score of 8 to 6. The batteries were: Carbondale, Davis and Barrett; Honesdale, Histed and Sandercock.

Sunday afternoon White Mills defeated a picked nine from Honesdale by the score of 7 to 5. White Mills scored all of their runs in the first inning. After that they could do nothing with Welch, the local pitcher.

Edward Murphy, of White Mills, is playing first base for Gloversville, N. Y. team. William Kuper, of this place, is playing left field, and John C. Reilly is manager and second baseman.

"Billy" Miller, of Port Jervis, has signed to pitch for the Cuban Giants. He joined the colored aggregation last week in Binghamton.

Theodore Vetter is playing with the first independent team of Briar Cliff, New York.

On Monday morning last the Honesdale Machinists won a decisive victory over the Carbondale Modocks on the St. Aloysius diamond. The Maple City aggregation had seventeen men pass over the home plate while the Modocks had but seven. The batteries were as follows: Machinists, Albert Mauer and Edward Walsh; Modocks, Roy Burnette and Leo McDonald.

LIVE POULTRY—Easier; chickens, broilers, per lb., 22c-23c; fowls, 16c-17c; old roosters, 10c-11c; ducks, 12c-13c; geese, 8c-9c.

DRESSED POULTRY—Steady; broilers, nearby, fancy, squab, per pair, 60c-75c; 3 lbs. to pair, per lb., 35c-40c; western, dry picked, 28c-30c; fowls, barrels, 10c-12c; old roosters, 12c; spring ducks, nearby, 15c-16c; frozen broilers, milk fed, fancy, 24c-25c; corn fed, fancy, 22c-23c; roasting chickens, milk fed, 22c-23c; corn fed, 20c-21c; geese, No. 1, 12c-14c.

HAY AND STRAW—Firm; timothy, per hundred, 75c-81c; shipping, 78c; clover, mixed, 50c-55c; clover, 60c-75c; long rye straw, \$1.45; small bates, 25c-35c, less.

LESS WORK FOR NAVY YARD.

June 15 Will See 1,500 Men Discharged at Norfolk.

Norfolk, Va., June 3.—The discharge of 1,500 men from the Norfolk navy yard is threatened by June 15.

On that date the battleships Virginia, Louisiana and Minnesota are expected to leave, and the heavy discharge will result from lack of work. There are now in the navy yard 3,100 men, as many as were ever employed there at one time.

I HEREBY announce myself as a candidate for the nomination of Jury Commissioner on the Republican ticket, and request the votes of Republicans at the primaries on June 5th.

I. G. SIMONS.

CASTORIA
For Infants and Children.

The Kind You Have Always Bought

Bears the Signature of J. C. Watson

OBITUARY.

Charles W. Douglass, a former resident of Port Jervis and superintendent of the Delaware Division of the Erie railroad, who was well known here, died at eleven o'clock last Monday night at his home in Wayne, N. J. Death was due to a complication of diseases, after a confinement to his home of two months. He was aged 77 years, and is survived by his wife and one daughter.

Cecelia Gladys Stevens, only daughter of Dr. William A. and Mrs. Mayme Stevens, died Monday morning at her home in Hamilton, of typhoid fever. She was born March 10, 1892, in that village and was a pupil in the Hamilton district school until two years ago, when she passed the examination for a common school diploma with honor, and was admitted to the High school at Lake Ariel, to which village she and another pupil, Marion Helen Boyce, drove five miles and return on school days for two years. Had she lived she would have graduated in 1910. She was a member of Central M. E. church and the Sunday school; of the Epworth League, the Salem grange, the W. C. T. U., and the Loyal Temperance Legion, of which order she was a graduate. She was a member of the gold contest club, having won the W. C. T. U. silver medal two years ago. The deceased is survived by her parents, and two brothers, Carl and Glen, at home.

Miss Alice Butler died at her home in Carbondale on Wednesday last. She had been in poor health for many months, and a year ago underwent an operation in the hope of regaining full health. It did bring temporary benefit, but six months ago she was again compelled to relinquish her many duties and since that time had been confined to her home. During the time of her invalidism she maintained the same spirit of cheerful composure that ever marked her conduct and when the end came peacefully she passed into the other world with perfect contentment and a blessing for the dear ones about her. The deceased was a daughter of Pierce Butler and Katherine A. Kelly and was born in Hawley on October 2, 1863. Her mother was a sister of Mrs. Samuel B. Haley, formerly of this place, and now of Towanda, their maiden names being Kate and Alice Kelly, and their home during their childhood, on South Church street in this borough. Miss Alice had spent practically her entire life in Carbondale as the family located there when the deceased was yet a young girl. She graduated in the first class to leave the Carbondale High school under the present system, and later from the Pt. Edward Institute, New York, winning honors in both schools. Early in life she united with the M. E. church and was prominent in its affairs. For many years she conducted a Bible class in the Sunday school and as head of the home department of the school made it one of the most flourishing in the state. She was a member of the Century club and had served as its president. She was also a member of the Pot Luck club, a social organization that has endured without interruption for thirty years, and her demise is the first to break its ranks. Miss Butler is survived by her parents, two sisters, Mrs. E. K. Trickey, of North Carolina, and Miss Jane Butler of Carbondale, and one brother, Attorney H. C. Butler, of Scranton, also by a niece, Mrs. W. F. McCanness, of North Carolina.

Mrs. Melvina Dix Tallman, wife of A. B. Tallman, died suddenly of neuralgia of the heart Wednesday morning, May 19th, at 1:30 at her home in Chicago, Ill.

Samantha Melvina Dix was born in Pleasant Mount, Pa., Dec. 23d, 1840. Her father, Benjamin Dix, was descended from the Dixes and Tanners of New England. Her mother, Lavisia Cox, was of Quaker origin, tracing her descent to the Coxes and Stevensons of Philadelphia.

January 1, 1861, she was married to Alanson B. Tallman, and the couple commenced life on a farm near Tallmansville. Mrs. Tallman joined the Presbyterian church in Pleasant Mount at 11 years of age. She joined, by letter, the M. E. church at Tallmansville in 1861.

In 1862, upon the death of her father, her mother became and remained a treasured member of the household, sharing with her daughter the burdens and sympathizing in the bereavement of that period. Six children are buried side by side in the little cemetery at Tallmansville.

For 48 years she followed the fortunes of her husband, the family residing during that time in Venango county, Pa., in Charleston W. Va., St. Louis, Mo., Jersey City, N. J., Brooklyn, N. Y., Detroit, Mich., Cincinnati, O., and Chicago, Ill.

The following is taken from the Gresham Sentinel:

The service in memory of Mrs. A. B. Tallman last Saturday afternoon in the Seventh Presbyterian church, of Chicago, was one of the most beautiful and appropriate ever held in this vicinity. The church was more than filled, many standing within and without. The costumes of white and the many floral tributes emphasize the immortal hope of Heaven in which Mrs. Tallman so firmly believed.

The music was selected from hymns which Mr. and Mrs. Tallman used to sing in the home and in the choir. Among the many friends

who paid tribute to Mrs. Tallman's beautiful life were the seven ministers who were present.

The pastor, Rev. W. G. Trower, spoke of Mrs. Tallman's life for her husband, her family and her church. Those qualities which distinguished her were fidelity, loyalty and love. He spoke on the text John 14:3, emphasizing those qualities of character which fit us for fellowship with the Eternal Christ.

Among the positions the departed friend held in our community was that of President of the Gresham W. C. T. U. During her term of service the fine fountain at 87th street and Vincennes Road was purchased.

Becoming a member of the church at eleven years of age Mrs. Tallman was identified with a Church throughout her life. For many years she was a member of the Seventh Presbyterian church. Her husband the senior elder, one son, an elder and Superintendent of the Sunday school, the third son a Presbyterian minister, and the daughter an active christian worker, the heritage she left is rich indeed.

The family have the sympathy of the entire community. The memory of the quiet and faithful life will be an inspiration to very many.

"POLLY OF THE CIRCUS."

On Friday evening last every seat in the Lyric Theatre was occupied. Standing room only was the notice which greeted those who neglected to secure seats in advance. All Honesdale was apparently present with the neighboring towns and country districts well represented. "Polly of the Circus" was the attraction and was given under the energetic auspices of the Honesdale Realty Company. The company which filled the cast was a most excellent one and every part was executed with a degree of ease and precision that won the attention and admiration of the appreciative audience. Mr. Barrington as the "Pastor" and Miss Wallace as "Polly" were very realistic in their respective parts, and showed a high degree of artistic skill in their acting. The work of all in the cast was so well done that the single expression "most excellent" applies to all equally. The proceeds of the entertainment which fell to the lot of the Realty company, we understand was \$193.00; this small amount out of an eight or nine hundred dollar house, seems to be out of proportion. If Honesdale continues very long to pay \$800 in order to keep \$193 of the amount in town, it will soon paralyze the arm of the theatre goer, that dives down into his pocket. The Honesdale Realty company want to get their wives and daughters who man-

age Martha Washington suppers and strawberry festivals interested in their indebtedness and they will reverse the order of things. Give them \$193 and they will make \$900, and every dollar will stay in Honesdale.

REPUBLICANS:—Attend primaries on Saturday, June 5th, and vote for Wm. C. Ames and Charles T. Smith delegates to State Convention. ADV.

Success of a Mink Farm.

It is stated that on the upper Klamath Lake, Oregon, a farm for raising mink has been established by one Tom Staten. About a hundred of the animals are housed in cages or cabinets and seem to do well and thrive in captivity, as they are all fat and sleek looking. The animals are so tame that they will take food from the hand, although one has to be careful in handling them as the mink is treacherous and has very sharp teeth. As mink in this country increase about five fold Mr. Staten expects to have something over 500 in his cages next year. The value of their fur alone will aggregate about \$3,000, but live female minks sell for a much higher figure than their hide alone is worth.

A Practical Example.

There is a certain naval officer of the United States who is very much opposed to the use of profanity by the officers under his command. Indeed, he has been known severely to reprimand, in private, officers on his ships heard to address their men in profane terms.

The following story is told concerning this Admiral's command of a squadron engaged in target manoeuvres in Magdalena Bay, Lower California. The commanding officer observed one day that the men of his ship, the flag-ship, seemed to lag behind the crews of the other vessels of the squadron, being the last to finish the execution of a command or to carry out a manoeuvre. He mentioned this fact to his captain. Just as the latter was about to reply, there came floating over the water from the vessel standing by the flag-ship a volley of oaths, the result of which was that there was some pretty hustling on the part of the men addressed.

Glaucing at his superior officer with a smile, the captain replied:

"That's it, sir. You see, my men don't get enough encouragement like that."

Beating His Rival.

"What are you crowing about? Griggby's airship showed itself superior to yours in every respect."

"Yes; but as mine was tested on a fine day the photographs turned out perfect, and Griggby made his ascent when it was too dark even for a time exposure."—Puck.

The Era of New Mixed Paints!

This year opens with a deluge of new mixed paints. A condition brought about by our enterprising dealers to get some kind of a mixed paint that would supplant CHILTON'S MIXED PAINTS. Their compounds, being new and heavily advertised, may find a sale with the unwary.

THE ONLY PLACE IN HONESDALE AUTHORIZED TO HANDLE CHILTON'S MIXED PAINTS IS JADWIN'S PHARMACY.

There are reasons for the pre-eminence of CHILTON PAINTS:
1st—No one can mix a better mixed paint.
2d—The painters declare that it works easily and has wonderful covering qualities.

3d—Chilton stands back of it, and will agree to repaint, at his own expense, every surface painted with Chilton Paint that proves defective.

4th—Those who have used it are perfectly satisfied with it, and recommend its use to others.

ALBERT C. LINDSAY, ASSISTANT CASHIER.

HONESDALE NATIONAL BANK.

This Bank was Organized in December, 1836, and Nationalized in December, 1864.

Since its organization it has paid in Dividends to its Stockholders,

\$1,905,800.00

The Comptroller of the Currency has placed it on the HONOR ROLL from the fact that its Surplus Fund more than equals its capital stock.

What Class? are YOU in!

The world has always been divided into two classes—those who have saved, those who have spent—the thrifty and the extravagant.

It is the savers who have built the houses, the mills, the bridges, the railroads, the ships and all the other great works which stand for man's advancement and happiness.

The spenders are slaves to the savers. It is the law of nature. We want you to be a saver—to open an account in our Savings Department and be independent.

One Dollar will Start an Account.

This Bank will be pleased to receive all or a portion of YOUR banking business.
