66th YEAR.

HONESDALE, WAYNE CO., PA., FRIDAY, AUGUST 13, 1909.

PEOPLE OF THE DAY

The New French Premier.

Aristide Briand, the new French premier, is a brilliant scholar, orator. avowed Socialist and was the author of the final chapters of the separation law that divided church and state in France. Before his recent elevation M. Briand was minister of justice and worship in the Clemenceau cabinet.

M. Briand was born in Nantes on March 28, 1862, attended school in that more than 31,000,000 acres. city and finally became a lawyer. He was elected to represent the Loire in the chamber of deputies. Five years ago he was known only among his own party, the Socialists.

He was appointed reporter of the church and state separation bill and soon became recognized as a high au-

hority on the subject. He aimed to raw up a bill broadly liberal in spirit, out devoid of fanaticism and designed assure freedom of worship and concience. For his work on that bill he as elevated to the post of minister of public instruction and worship.

During the church and state troubles e acted with firmness and moderaion, and after the death of M. Guyot-Dessaigne on Dec. 31, 1907, he was appointed minister of justice, retaining also the ministry of worship.

The Can Opener.

Speaker Cannon at Valley Forge defended the milder forms of profanity

"These not irreverent cuss words." said he, "act as a safety valve. A when the light is strong enough to suit. man but for them might do shocking things-smash the piano, scissor the portieres."

Speaker Cannon lighted a fresh

cigar. "So many things in the home," he said, "incite a man to-er-let off steam. There's opening cans, for instance-opening these newfangled cans with patent openers that are always getting lost.

steam terribly the other day as he opened one of these patent cans. His wife, tired of the noise, called from

the next room:
"'What are you opening that can with, dear?'

'The can opener, of course,' he replied.

"'Oh,' said she, 'I thought you were opening it with prayer."

A Master of Aviation.

Orville Wright, who recently remained in the air at Fort Myer, Va., seventy-two minutes and forty seconds, carrving Lieutenant Lahm of the signal corps as a passenger, tacked a new record to his long string of aerial performances. The best previous record was made by Wilbur Wright last year at Le Mans, France, when he carried a passenger for 1 hour 9 minutes 31 seconds. Incidentally Orville more than met the government requirements for carrying power and in a later ef-

fort for speed in straightaway flight. Before his record breaking achievement the best that Orville Wright had been able to accomplish with a passenger aboard was 9 minutes 6 1-3 seconds. This was during a trial flight made over the Fort Myer drill ground

on Sept. 12, 1908, when he circled the field for a distance of 5.88 miles with Major George O. Squiere of the army as his passenger.

It was in attempting to better this flight that he met with the accident on Sept. 17, 1908, which resulted in the death of Lieutenant Thomas E. Selfridge of the signal corps and in serious injury to himself.

On this occasion the machine, after completing two circuits of the drill ground, was dashed to earth from a height of seventy-five feet by the breaking of one of the propeller blades.

Mending Table Lines. A neat way to mend a hole in table linen is to darn it with linen threads off an old tablecloth. It will look much neater than a patch sewed on. It is advisable to keep a piece of a discarded tablecloth in the mending basket for that purpose.

Flower and Tree.

Bamboo trees do not blossom until they are thirty years old.

The carnation was called by Greeks the "divine flower."

Because of the way in which its petals are marked the French call the weet william the "poet's eye." In Germany the periwinkle is the

flower of immortality, but in Italy it is the flower of death. Garlands are made of it and placed on the bier of children.

Proverbs.

A little truth makes the whole lie

pass,—Italian Proverb. Weak men never yield at the prope time.-French Proverb.

good mother.-German Proverb.

While Mark Mold, convict, still waited on deck for the officers to stow him in the dark hold with his fellows a boat from the Liverpool dock came Senator Dick of Ohio started life as alongside with several passengers, among them a handsome lady of thirty, Mrs. Howland, wife of Colonel Howland, quartered with his regiment near Port Jackson, Australia, where she was going to join him, and her little daughter Grace, a beautiful child

of six years. As Mrs. Howland was assisted up the gangplank she noticed Mark Mold and shuddered.

"You need not be afraid, ma'am," said the captain. "The criminals will be kept in the hold chained. They can do you no harm."

"Can you not send them away from here? I wish you would." "I regret that I cannot, as I have

agreed to take them." As day after day passed the bright little cherub Grace spread light and joy throughout the vessel.

Soon she noticed on deck the convict. Mark Mold. who, having been taken ill in the confined air below, had been relieved of his chains and led up to breathe the fresh air. A pleased look crossed his haggard face as he inhaled the pure breeze and looked out on the broad, blue, rolling ocean.

"Won't you have some? Here, take it. You may have it all," fell a childuniversity is Chester Dutton, ninety- ish voice on his ear, and, looking down, he saw Grace at his knee holding up her cake.

He seemed about to put his hand on her head when Mrs. Howland gently but quickly drew the child away.

The man showed no emotion at this action of the lady. "You must never go near that bad

man again," said Mrs. Howland. Just as she spoke a heavy squall struck the ship, hurling her down and almost on her beam ends and driving her through the water with everything

humming. Suddenly there was a wild shrick from Mrs. Howland as little Grace, who had attempted to run into the cabin, was literally blown to leeward

"My child! O God, save my child!" screamed the distracted mother, whose voice, however, was nearly drowned by the booming thunder of wind and ocean, the rattling of canvas, the slatting of sheets and ropes and the swash-

They looked at each other, and not one moved, for all felt that certain death awaited the man who should plunge into that wrathful ocean, but Mark Mold plunged overboard, and the mother clung to a backstay, eagerly watching for his reappearance; but, seeing nothing of him, she bowed her head on the rail, moaning and raving like a maniae.

Still raged the storm and on tore the ship farther and farther from the place where the man and child had gone overboard. The seamen exchanged ominous glances and shook their heads.

Soon the squall swept far away to leeward, the ship righted and the sun gleamed from a clear sky upon a clearing sea.

From the captain, who, having now brought his ship to, with main topsail aback, had run aloft, a wild cry went ringing to the heavens, sending an electric thrill of joy to the hearts of all on deck.

"I see something two miles off the lee quarter. God grant it be the man and child!" His boat was soon down with good

oarsmen in it, with Mrs. Howland, full of wild, anxious hope, in the stern sheets. Nearer to that distant speck drew the boat.

"There he is!" cried the watchful captain at last. "I think—I believe but am not certain - he - yes, yes, thank God-hooray, hooray-he has the child!" Yes, there was the convict in the
