Below this inscription in a curved line, appears "United States Postage." At the bottom of each side is a prominent Arabic numeral "2" with the words "two cents" in a panel between the figures.

In the centre is engraved a picture showing the Palisades of the Hudson river and the background, with the "Half Moon" sailing up the river and the "Clermont" steaming in the opposite direction. In the foreground is an Indian in a canoe, and in the distance a canoe containing four other Indians.

The following letter was received from Hon. C. A. McCarthy, president of the town council, and read before the meeting. It was addressed to J. D. Weston, chairman of the executive committee of Old Home Week celebration:

"Mr. Chairman: I have understood from you that it may be deemed necessary to ask the town council for some concessions by way of suspending temporarily certain borough ordinances which may come in conflict with carrying out to the best advantage some portions of your excellent programme. I am sure I can speak for every member of the council when I say that everything which may be legally and properly done by the town council to advance the best interests of Old Home Week will be cheerfully and promptly done by us."

Borough ordinances are enacted for the ordinary government of our borough and I see no reason why extraordinary occasions like the present one may not be made an exception, and any ordinance which may interfere in any way with carrying out in every detail the excellent and programme ought to be suspended for this occasion. The town council desires further to say that as a body it is as well as every individual member thereof, in full sympathy and accord with Old Home Week, and will be pleased to assist in any way consistent with its official duties in making the occasion what it now appears it must be, one which will add to the town's reputation for hospitality, generosity and sociability.

"As far as the regulations, for peace and order are concerned, I believe nothing has thus far been left undone and we are ready to give every assurance that the town will be paroled that no fear of the slightest disorder may be anticipated. The town itself being concerned principally in the event of a successful Old Home Week it would only seem proper that the town council should do everything consistent with its duty to promote and encourage the efforts being made by the citizens' committee to make the occasion a model which other towns will copy."

"This is the duty which seems to devolve upon us, and which we cheerfully accept. The location, the beautiful scenery and surroundings of our town; its historical and romantic associations need only to be better known to be better appreciated, and it is hoped that upon the return of those of our people who have been absent for many years they will find that at least the hospitality of the people and of their ability to do things in the proper way, have not in any way depreciated in the years that have intervened."

"The council will be always ready to receive suggestions and communications from you regarding your further wants in the matter, with every assurance of receiving the fullest and most favorable consideration."

"With kindest regards and best wishes, I remain

"Very truly yours,

"Charles A. McCarthy,

"President Town Council."

Upon the conclusion of the letter it was received with loud applause by the members of the committees and others in attendance.

—A number of decorated coaches and vehicles will be a feature in the civic parade.
