REPUBLICAN NOMINATIONS.

JUSTICE OF THE SUPREME COURT . Judge Robert Von Moschzisker, of Philadelphia. AUDITOR GENERAL, A. E. SISSON.

> of Eric. STATE TREASURER. Jeremiah A. Stober, of Lancaster. JURY COMMISSIONER,

> > W. H. Bullock.

Dr. Frederick Albert Cook, the discoverer of the long looked for North Pole, is a native of Callicoon, Sullivan county, New York.

There was a bigger crowd watching the base ball bulletins on Wednesday than there was reading the news of Dr. Cook's discovery.

The thermometer on Wednesday registered 37 degrees at Honesdale. this being the day that news was received that Dr. Cook had discovered the North Pole.

The lone bandit who single handed held up the Pennsylvania Express train at Lewiston, Pa., cowered the entire train crew, consisting of conductor and two brakemen. engineer and fireman, express messenger, baggage master and a few other employees, had the strenuonsity of a Roosevelt, the unmitigated nerve of a Harriman, and the locting propensities of Jay Gould.

This is the last issue of The Citizen before Old Home Week festivities begin. Everything points to a grand success, and all roads will lead to lionesdate next week We expect to have our borough over flowing with people, and great credit is due to JOHN D. WES-TON, CHAIRMAN, AND THE MEM-BERS OF HIS EXECUTIVE COM-MITTEE who have given their valuable time to bringing about a successful event, all bonor to the men who have given their time and money that we all might have this bls COUNTY REUNION and enloy the pleasure of meeting our friends and relatives here in old Honesdale. and while we take off our bats to the Chaleman and las executive comgion) on each committee who have labored so indefatigably night and oyberry. day in tying up the ends of their work, so as to be ready on the opening of the festivities.

ALCOROL CAUSES GOUT.

Of all the articles of diet those most likely to bring on gout are alcoholic drinks of all kinds, although there are a few that are really comparatively harmless in this respect such as whisky and light Rhine wines. It may be noted in passing that gout is comparatively uncommon in Scotland and the Rhine provinces. where. respectively. whisky and light bocks are popularly consumed in preference to heavy malted liquors. The late Sir Alfred Garrod, who was an acknowledged authority on gout, very strongly expressed his opinion on the part played by alcoholic drinks in the production of gout in the following terms: "There is no truth in medicine better established than the fact that the use of fermented liquors is the most powerful of all the predisposing causes of gout; nay, so powerful that it may be a question whether gout would ever have been known to mankind had such beverages not been indulged

THE CITIZEN HON. GEORGE S. PURDY DIED AT MT. CLEMENS, MICH.

A MAN WHO WAS A JUST JUDGE, AND A CITIZEN WHO WAS MUCH bors and it is expected a large dele-RESPECTED BY ALL WHO KNEW RIM.

Hon, George S. Purdy, Judge of this Judicial District, died on Tuesday. August 31, 1909, at Mt. Clemens, Michigan. He had been ailing for some time and, believing that the baths at this famous health resort would benefit him, had gone there for treatment. He was accompanied by his wife, who, with other relatives, were with him when the end came. His body Avenue, White Plains, N. Y. was brought home, arriving here on the 7:30 train on the D. & H. Rail-

George S. Purdy was born in the township of Paupack, this county, on January 4, 1839. His parents were Abbot N. Purdy and Eliza, daughter of Elder George Dobel, a Baptist minister, who emigrated from England in 1818 and settled in the southern part of Wayne county-then a wilder- passaic, N. J. ness:

Judge Pardy descended from a pioneer family in Wayne county, this having been the ancestral home on his father's side for more than a century.

His great-grandfather, William Purdy, was a Baptist minister (whose father was Peter Purdy), who emigrated from Fairfield county, Connecticut, and settled in Paupack township in 1792. Solomon, a son of William Purdy, married Mynis, a daughter of Francis Nicholson, who had been a soldier in the Revolutionary war, and was one of the pioneers of Salem township and their son, Abbot N., was the father of Judge Purdy. The Purdy family was of Norse origin. In 1656 three brothers of this family came to America and settled in Vermont. From this point the family spread in various directions, some crossing the state line into Connecticut. whence Rev. William Purdy emigrated to Pennsylvania.

Abbot Purdy, father of the Judge, was born in Paupack township in 1806. He was a man of strong moral and intellectual force, and of strict integrity of character. Aside from such facilities as were afforded by the public schools, Judge Purdy's educational advantages were very limited and his acquisition of the practical part of the academic course of the period was largely the result of self culture. On reaching manhood he devoted much of his time, for four years, to teaching, and for the latter part of this period was principal of the graded school of Providence, now a part of the city of Scranton. Subsequently he was employed as bookkeeper for the large tanning establishments at Ledgedale and Middle Valley. In 1866 he was appointed Commissioners' Clerk which position he held for ten years. He was admitted to the Bar May 9, 1873. In September of the same year he was married to Agnes C. Addoms, stepdaughter of tion. Otis Avery. He began active professional practice in 1876. As a lawyer be was methodical and far-sighted in the preparation of his cases; lucid, accurate, and comprehensive in their presentation; wary, vigilant, street, New York, and streamons in their trial, and logical and practical in argument. He commanded the respect of Bench and Bar and in a few years was recognized as one of the leaders of the profession. In 1885 he was nominated by the Wayne County Democratic convention for President Judge. The Democrats of Pike county presented the name of Hon. D. M. Van Auken as their candidate. The result was that Judge Henry Seeley, the Republican Hoboken, N. J. nomince, was elected. In 1893 the Democrats of Wayne and Pike county Brooklyn, New York. united in the nomination of Judge Purdy and being endorsed by the Republicans he was elected without opposition. At the expiration of his San, 1392 Broadway, N. Y. term in 1903 he was again re-elected unanimously. Judge Purdy brought to the discharge of his judicial duties the grasp of essential facts, the comprehensive knowledge of the law, and the accurate perception of the governing principles in the case in band, which distinguished him at the Ear, accompanied with the impartiality, freedom from bins, and independence of action which are recognized as indispensible to the due administ dersey City, N. J. tration of Justice. As a result his decisions generally mark the end of litigation as very seldom were his decision reversed by the higher courts. As a citizen he was honored and esteemed. He was a man of large heart. mittee we throw the same hat "high and liberal views, and was ever ready to aid any worthy enterprise of dein the air" and say well done to serving character. He was an attendant of and trustee of the Presbyterian . the workers (whose names are le- church for many years. He is survived by his wife. The funeral will be Whitehall street, N. 121 Hudson Cold slaw served in green pepper shells makes a tasty and attractive luncheon dish. Take a small, firm head of cabbage and shred fine with a sharp knife. Add to this chopped hard boiled eggs. Mix with a dressing made of a cup of sour cream, a tablespoonful of sugar, salt and pepper and a cop of vinegar.

HOUSEHOLD HINTS.

Preserving Small Peaches.

There are many varieties of small peaches which if the stones and skins were removed would leave very little meat. Instead of going through this process, remove the skins with boiling water. The water must be boiling and the peaches should stand in the water until the skins slip easily from the fruit. As peaches darken quickly when peeled, pared or scalded in this manner, the syrup should be prepared ready to receive them. Boil the syrup until it forms a thin molasses, then put the fruit in and boil. As soon as the peaches can be pierced with a fork they should be removed, or they will burst and the seeds come out. Place them in the jars with a large spoon and cover with juice. An extra juice can be added to the next kettle of juice. These peaches, if properly preserved, retain much of the natural fruit flavor. They can be cooked longer until the molasses forms a thick syrup, but this makes a strong fruit food. In making the syrup use one quart of sugar to the same amount of boiling water.
