THE USEFUL PIG.
Thrift is not generally supposed to be among the qualities of the negro. A writer in the Philadelphia Public Ledger, however, tells a story of a colored woman who should be an example to her race. She was an extremely black African, and was being examined at a conference at Tuskegee. "Do the people in your community own homes?" came the query from Mr. Booker Washington. "I thinks they's fixing to own 'em, sah."

THE CURIOUS CHIMNEY.
One in Wales Two Miles High With a Brook Running Through It. Who ever heard of a chimney two miles high with a brook running through it? Yet such a chimney exists in connection with the copper works at Cwmavon, near Aberavon, in Glamorganshire, South Wales. This is how it came to be built: About sixty years ago the copper smoke from these works was the plague of the neighboring countryside. It settled upon and destroyed the grass for twenty miles around, while the sulphur and arsenic in the fumes affected the hoofs of cattle, causing gangrene. The owners of the works tried all sorts of devices to remedy the trouble, but in vain. Finally Robert Brenton, who was afterward a successful railway engineer in India, solved the problem. The copper works are at the foot of a steep hill. Mr. Brenton constructed a flue, or chimney, running continuously from the base to about a hundred feet above the summit, following the natural slope of the ground. The brick which lined it and of which it was largely constructed was burned close by. A small spring gushing out near the summit of the hill was turned into the chimney and allowed to flow through almost its entire length to condense the smoke. Once a year it is swept out and about a ton of precipitated copper obtained. Its top can be seen for between forty and fifty miles.—London Answers.

NO DAMAGE IN CUBAN DUEL.
Garcia Velez and Duque, Dropped From the Cabinet, Exchange Shots. Havana, Oct. 28.—President Gomez having accepted the resignations of Secretary of State Garcia Velez and Secretary of Sanitation Duque, the two fought a duel here. Four shots were exchanged. Neither of the combatants was hurt, but each declared that his honor was satisfied. The meeting was the result of Garcia Velez admonishing Duque when the city's garbage was not gathered at the time of the street cleaners' strike that the danger of pestilence might provoke another intervention by the United States. Duque resented the expressions of the secretary of state and challenged him to fight.

What Class? are YOU in?
The world has always been divided into two classes—those who have saved, those who have spent—the thrifty and the extravagant. It is the savers who have built the houses, the mills, the bridges, the railroads, the ships and all the other great works which stand for man's advancement and happiness. The spenders are slaves to the savers. It is the law of nature. We want you to be a saver—to open an account in our Savings Department and be independent. One Dollar will Start an Account. This Bank will be pleased to receive all or a portion of YOUR banking business.
