# LAVERTY DISCOVERS **BUCK WAS SPEED**

Hollow-Ankled Deer Almost Got Away from Crack Adirondack Hunter's Gun

#### HAD AIR CELLS IN ITS LEGS

Noted Markman Had to Wait Until Leaves Fell for His Annual Shot, but is Amply Repaid for the Long Delay.

Huster's Home, Adirondacks, N. Y. -James Laverty, or "Mr. Jim," as he is known in this tremendous neck of woods, has got his annual buck of course. This one, the biggest and fattest deer shot on the mountainside, with the exception of that killed on the jump by Helen Middleton of Atlantic City on the opening day of the season, gave him a shock when he skinned it.

"Mr. Jim" would have got his buck long ago if it had not been for "Mrs. Jim." There being more hunters than deer here on the opening of the season, she would not permit her husband to go hunting for that buck until most of the leaves had fallen, thus educing the danger of having her helpmate shot by mistake, to a minimum. Therefore it was that Jim watched the frost and the early shower of leaves closely. Those who don't know him thought his expression of delight at the beautiful coloring along the mountain slope following the first heavy frosts was from his pure love of nature beautiful. But those who have seen his restiveness along about this time of year knew he was waiting for the leaves to fall, so that his wife would let him go hunting.

It seemed safe enough on last Saturday, and with the permission of "Mrs. Jim" he shouldered his repeating shotgun and started along the miles of slope toward the John and Fred Milholland place, several miles away toward the wildest of the wilds. For, like the real hunter who always is careful of the lives and rights of others, he hunts deer with buckshotnot that he is in fear of missing with a rifle, but that a rifle bullet travels so fast and far no one knows where it is going to stop, especially when impelled from one of the modern high power guns.

Confident of her husband, "Mrs. Jim" stood long and patiently in the chill air in front of the famous Hunter's Home. Then came re-echoing from the mountainside, mellowed by distance, the unmistakable roar of Jim's gun.

"Well, he got him," she remarked serenely, for be it known that Jim never shot a doe, and never missed a

But this buck was a curiosity, as Laverty learned when skinning it, for It had no "horseshoe" nail, or "toothpick" in either front ankle-it is called ankle for lack of any other name to express exactly where this "bone nail" is located. Just above the deer's hoof, where the pulse would be in a human, there is an unattached bone, the perfect shape of a horseshoe nail, lying snugly between the ten-dons, head down. This "nail," with the bunch of muscles is Nature's proto prevent a deer from breal ing its front legs in jumping-it acts as a sort of rubber cushion to ease

In looking for this nail to-day, to add to his trophies, Laverty was amazed to find they were missing from both ankles. Instead, there was a marked hollow, a perfect air cushion that was "just as good" so far as saving the buck from broken legs was concerned.

"No wonder he started away from me like an aeroplane at sixty miles an hour," said Laverty.

#### 5 BROTHERS WED 5 SISTERS.

Five Other Sisters Act as Bridesmalds and Five Brothers as Best Men. Columbus, Ky .-- A marriage cere-

mony in Kent county united five sisters to five brothers. Misses Maud, Nellie, Kate, Anne

and Susie Martin were married to John, Dan, Hugh, Jack and Dick Hill. Five sisters acted as bridesmaids and five brothers of the bridegrooms acted as best men.

It was proposed to follow the wedding with a honeymoon for the five happy couples to extend to St. Louis but the lateness of the crops prevented the men members from leaving home at this time.

Lightning Hits House 12 Times. Santa Fe, N. M.—News of a remarkble play of lightning in Chaves County has just reached here. A bolt struck the house of W. E. Rail, a homesteader, and H. N. Rutherford, who with his family was at the Rail home, was killed. Following this at intervals of one minute eleven more bolts struck the house, each shocking an occupant, though not fatally. There were thirteen persons in the house. The last stroke set the house on fire, but the fiames were extinguished by Mrs. Rail with buckets of water.

Inventor of Roller Coaster Dead. Toledo, Ohio.-Alonson Wood, eighty, inventor of the roller coaster, who originated many improvements on the roller skate, died here. Wood devoted the last ten years of his life to a study of aeronautics and spent several years in building a heavier-than-

A SPARKPROOF SMOKESTACK.

Simple Device Which May Save Millions in Timber.

A sparkproof smokestack has been invented which promises relief to the forest fire fighters if it should be adopted by railroads traversing forest

After being tested for some time on a Kentucky railroad, says the Technical World, it was demonstrated that not a spark escaped from the stack. So well does the Forestry Department at Washington think of this ingenious invention that it has asked the New York State Public Service Commission to compel all railroads in the State to equip their locomotives with the new stack.

The principle which led to the invention of the sparkproof stack is that all solids emerging from a locomotive smokestack, influenced by the pressure of the exhaust, hug close to the edge of the pipe and only the smoke comes up through the centre. In this new stack a simple trap catches the sparks and cinders at the edge of the circle and sends them falling down shutes arranged on either side of the stack to the roadway be-

How to Shoot with a Revolver.

To begin sighting along the barrel of a six-shooter, as in target gallery practice, is a handican to the man who wants to learn the art at its best. The hand and eye, of course, work together with all weapons and in all combats; but there is a difference between the eye-general and the eye-particular. The best form of boxing or fencing—that is what the use of the six-shooter means. You point your fist or your foil instinct. You cannot help pointing your finger directly and straight at any object, no matter how hard you try. Yet surely you do not down your finger. In the best sight work with the six-shooter, you point with the barrel just as you point with your finger, or really, you point with your wrist and forearm, and the sixshooter is the finger of your wrist, the lengthening of your arm. That is the theory and creed of the six-shooter .-Outing.

#### Speak Kindly.

A man was once saved by a very poor boy from drowning. After his restoration he said to him:

"What can I do for you, my boy?" "Speak a kind word to me some time," replied the boy, the tears gush-"I ain't got a ing from his eyes. mother like some of them."

A kind word! Think of it. This man had it in his power to give the boy money, clothes, playthings, but the little fellow craved nothing so much as a kind word now and then. If the man had ever so little heart, the boy must certainly have had the wish granted. A kind word! You have many such spoken to you daily, and you do not think much of their value; but that poor boy in the vilat whom everybody laughs, would think that he had found a treasury if some one spoke a kind word to him.

A Lightless Lighthouse. On a sunken reef 350 feet distant from Stornoway lighthouse is a remarkable beacon which warns mariners with the help of a light which is only apparent. The beacon is a cone of cast-iron plates, surmounted with a lantern containing a glass prism. The prism derives its light from refracting rays emitted from the lighthouse, and the optical delusion is marvelous. Mariners naturally suppose that there is a lighted lamp on the beacon itself and many of them will not believe otherwise. But the object of the beacon is attained when the navigator sees the reflected light, which indicates the perilous rock below. This beacon has been in use more than half a century, and since it was fixed in position others have been placed in other neighborhoods to make clear points of danger.—Technical World.

Why Foam is White.

"How white the foam is," said the pretty girl, in a voice muffled by the sable stole drawn across her red mouth. "Yet the sea is green. Why, then, isn't the foam green?"

But the young sophomore laughed in derision of such ignorance.

"Gee, you are ignorant!" he said. Beer is brown, but its foam is white, too. Shake up black ink and you get white foam. Shake up red ink and the result is the same.

"A body that reflects all the light it receives without absorbing any is always white. All bodies powdered into tiny diamond form, so that they throw back the light from many facets, absorb none of it and are white by consequence. Powdered black marble, for instance, is white. And foam is water powdered into these small diamonds, and hence its whiteness."-Philadelphia Bulletin.

How He Found Them Out. A shopkeeper, the head of a large firm, one evening, after busines hours, caused his saleswomen to be

assembled before him. "There are among you," he said to them, "several individuals whom I know to be guilty of theft from our establishment. I have the names of every one of the culprits, but I neither wish to mention them here nor to hand them over to the police. Meanwhile my firm cannot continue to employ thieves, and I ask those among you whom it may concern not to enter my premises any more after tonight. If you dare, after this, to put in an appearance, I shall hand you at once over to a detective, who will be

in the house Upon this the girls were allowed to go home. Next morning eighteen of SUGGESTIVE QUESTIONS

On the Sunday School Lesson by Rev. Dr. Linscott for the International Newspaper Bible

Study Club.

(Copyright 1909 by Rev. T. S. Linscott, D.D.)

Nov. 28th, 1909.

(Copyright, 1909, by Rev. T. S. Linscott, D.D.) Paul on Self Denial. (World's Temperance Lesson.) Rom. xiv:10-21. Golden Text-It is good neither to eat flesh, nor to drink wine, nor anything whereby thy brother stumbleth.

Verses 10-13-Is the Bible a book of rules in any sense, or is it a book of principles only?

Principles never change, but may a good rule under one condition become a bad one under another? Give examples.

There was a controversy in the church at Rome between the Gentile and the Jewish believers about meats and days; but in the eyes of God was it in any sense a moral issue, as to which were right, those who observed certain days and refrained from certain kinds of meat, or those who esteemed all days alike and ate all kinds of meat fit for food?

Did one Christian in Rome have any right to impute sin to another Christian, who believed and, therefore, acted differently in the matter of meats and days, to what the objector's conscience would allow him to act?

Does this commandment not to judge, forbid us forming an opinion concerning any doubtful action of our brother; and if not what does it for-

To-day one party in the church thinks that renting pews is wrong, another that any kind of games in the church parlors are wrong, while others think quite the opposite on these matters; now has either party any right to "judge" the other party to be guilty of moral wrong?

What should be both the constrain ing and the restraining influence with

us, in all matters of conduct? (v:12.) Verse 14 - Does God morally estimate actions in themselves or the mo-

tives which prompt the actions? Give an example of how it is possible that one man may do a thing and please God, while another may do the same thing and commit sin.

How many outward actions can you think of that are always wrong under all circumstances?

Verses 15-16 -- If your neighbor is very ill and your singing and piano playing hurts him, and you refuse to deny yourself the pleasure of singing and playing, what kind of a person are you? If you enjoy and drink your glass

of wine, when you know wine drinking is doing vastly more harm than good, what sort of a person are you? To what extent should I deny myself any pleasure the gratification of

which hurts my neighbor? No sensible parent, will allow any thing in his family, however good it may be in itself, if it proves to be injurious to the children, should he or not, apply the same principle to his

neighbors? Verse 17-Should our chief thought be given to the needs of the body or of the soul?

What does the Kingdom of God preeminently stand for? What, in the last analysis, is the

real wealth of the individual, the family, the community and the nation? Can the highest good be enjoyed if the Holy Spirit is not recog

Verses 18-20 -- What do we need to be, in order to be pleasing to God and to good men?

Verse 21-If we deny ourselves things we enjoy, for the sake of others, what is the effect upon ourselves, and do we get as much, or more, out of the self denial as we would out of self gratification? (This question must be answered in writing by mem-

bers of the club.) If all who drink wine ,in moderation, would obey the principles of self denial in this verse, how long would it be before we should have total prohibition of the liquor traffic?

Lesson for Sunday, Dec. 5th, 1909. Paul on the Grace of Giving. II. Cor.

#### MORSE GOES HIGHER.

Asks For Writ In the United States Supreme Court.

Washington, Nov. 16. - Martin W. Littleton, counsel for Charles W. Morse, presented in the supreme court an application for review by writ of certiorari of the judgment of the lower courts affirming his sentence of fifteen years' imprisonment for misap plication of funds of the National Bank of North America.

On motion of Solicitor General Bowers the court granted the government ten days within which to file a brief in opposition to the granting of the

#### GEN. F. D. GRANT SAVES WIFE

Takes Her Through Window and Down

Ladder at a Fire. Chicago, Nov. 18.—General Frederick Dent Grant, commander of the department of the lakes, was driven from his home, 1406 Dearborn avenue, by fire which originated in the basement and for a time threatened to destroy

General Grant assisted his wife in escaping by climbing out of a window to the porch roof and descending to the ground by a ladder which firemen

Several of the servants were carried down ladders by firemen.

\*\*\*\*\*\*\*\*\*\* FILLING FOR CAKES.

A List of Dessert Flavorings of Unusual Excellence.

Walnut .- One cupful sour or sweet cream, one cupful sugar, one cupful chopped nuts. Boil ten minutes, beat thick. Flavor with vanilla.

Maple.-One-half cupful maple syrup or sugar, one-half cupful cream. Cook until hairs; pour slowly into one beaten egg, white.

Almond Cream. - One-half pint cream; boll, thicken with one teaspoonful cornstarch wet with cold cream, two dessertspoonfuls sugar, three beaten eggs. Cool, add one-half pound chopped blanched almonds. Ice, decorate with almond halves.

Prune Whip .- One cupful chopped stewed prunes, beaten whites four eggs, one tablespoonful sugar; spread on layers, heap top one with whipped cream.

Filbert.-Whip one cupful cream, two tablespoonfuls sugar, four of grated chocolate, four of chopped filberts. Put between cakes containing filberts. Marshmallow.--Spread marshmal-

lows on pan in oven an instant to soften, place on layers, cover with boiled icing. Pineapple.-Use boiled icing and

sprinkle with sweetened grated pine-Coffee. One-half cupful strong coffee, two cupfuls sugar. Boll until

hairs, beat creamy. Peach.-One cupful peach pulp, onehalf cupful sugar, one cupful cream, whipped. Beat, spread on layers, sprinkle with chopped pistachio nuts.

Soft pink icing. Use fresh. Quick Filling. — Confectioners' sugar, cream or milk, chopped fruits, nuts, etc. Apple jelly with chopped

SELF-HEATING IRON.

Charcoal in Body of Utensil Keeps It Always at Same Heat.

From across the seas comes an unusually useful invention in the form of a self-heating iron, evolved by a German brain. It will be understood at once that this iron does its work in a neat and orderly manner. The top of the iron is hinged to form a lid and across the bottom of the interior is a grating on which charcoal is to be burned. This method of heating insures the utensil being always at a temperature that fits it for use and there is no danger of dirt of any sort accumulating on the bottom. In addition to doing its work clean, the

Will not Soil Clothes.

new iron has the advantage of being without offensive odor, the small amount of charcoal required to heat it causing no unpleasant smell. The time saved in having an implement with which ironing can be done steadily, without waiting to heat an iron or exchange it for another on the stove, car readily be appreciated. Then, too, the risk of soiling the clothes is eliminated.

Use of Celery Leaves.

Do not throw away celery leaves. Cut both stalks and leaves from a bunch of celery, boil until quite soft, then take two or three tablespoonfuls of flour, stir it into one quart of boiled milk; chop the celery leaves and stalks quite small; stir into the milk, add a little butter, season to taste. This is a very nourishing food for invalids, also it is a very good remedy for dyspepsia. The white lower par of the celery can be used for salad after the tops are cut off, so this is really a most economical dish. It is so light and nourishing that it makes an excellent meal for children.

Various Uses for Lemons. Lemon juice will cure a sore throat if the throat is gargled with it.

A cloth soaked in lemon juice and bound about a cut or wound will stop the bleeding. Lemon juice rubbed on the hands

while washing them will remove stains made by vegetables or fruit. Lemon juice and salt spread on garment will remove fron rust. A Dainty Breakfast Dish.

Toast your bread light brown, but-ter and sait. Beat the white of egg stiff and pile on the toast, scooping out a little round center, into this drop the whole yolk. Set in the oven and brown again. Put bits of butter and salt and pepper on the egg and serve on individual plates.

If fat or milk boil over on the kitch en stove salt thrown on it will keep down the smell. If hot grease be spilled on the table or floor cold we-ter thrown on it will set it and pro-

### BREGSTEIN BROS. FALL OPENING

### We want you here today!

Rather a pointed request but we're saying it by right of superior knowledge on the subject of FALL AND WINTER CLOTHING.

The need of heavier garments is as insistent as we are about hurrying you male folks here. We know what a great store this is; know how well prepared we are to save you. That's why we say with all the confidence in the world, "Come Her e."

#### HIGH ART AND COLLEGIAN

Suits and Overcoats are ready in all the striking patterns for the present season. Styles for the young man-styles for the older. All in all, it's a grand gathering of clothes you should wear-\$10 to \$20.

#### Hats

If your price is \$1.50, we'll show the Prominent; if you'll pay \$2.00, Gold Bond is the hat for you. Then comes the Knox at \$3.00. Variety

#### Furnishings

best place. It's here. The Eclipse shirt, \$1.00 to \$2.00. Ever wear the Just Right Glove, \$1.00 to \$2.00 and the Corliss Coon collars? In quarter sizes, 2 for 25c.

#### Underwear

We feature the Australian natural wool underwear at \$1.00 per There are a great many places to garment; also Setsnug Union Suits buy fixings, but there's always one for men at \$1.00 to \$2.00 per suit.
