LOCAL MENTION.

—Rev. Coenen, of the Lutheran church, preaches at Aldenville next Sunday afternoon at 2:30.

—The cowless dairy is the latest. Some parties were arrested in New York City lately for diluting condensed milk with water and selling same as dairy milk.

—Sitting around the store stove disputing the question of who found the North Pole will not contribute a single chunk toward the filling of the ice house.

—Emma Sergeant, the Beach Grove teacher, who was taken to Scranton at the time of the teachers' institute, is improving.

—Geo. Knapp, who was our genial conductor on the branch for many years, was in town on Saturday. He now is conductor on No. 8 and 47 running between Elmira and New York City.

—That big pie which was made for President Taft's Thanksgiving dinner, went astray on the railroad and although tracers have been sent to search for it at last accounts it cannot be located. It is hoped that the hobos have it under cover.

—We once heard that in the west a philanthropist gave a lot of land to a town for a cemetery. It was fenced in and made in readiness, but the place was so barren of deaths that the inhabitants had to shoot one of their number to give the cemetery individuality.

—Chief Factory Inspector DeLaney is insisting upon his deputies enforcing the child labor laws throughout the State. On Saturday he sent out letters advising them to run down all possible information where age certificates appeared somewhat doubtful.

—Bears and dogs live 20 years, foxes 15, lions 70, cats 14, squirrels, hares and rabbits 7, hogs 30. A horse has been known to live sixty-two years; their average is twenty-five; sheep 10, cows 15, camel 100, eagle 104, ravens 11, tortoise 107, swan 360, elephant 400, whale 1,000.

—Mistakes will happen at the telephone exchange. A gentleman asked for the Lyric theatre; he got the wrong number, and without asking to whom he was talking, he said: "Can I get a box for two to-night?" A voice at the other end answered: "We don't have boxes for two."

—Isn't this the Lyric theatre? he called crossly. "Why no, this is Brown's undertaking establishment."

—"Do hogs pay?" asks one of our editorial brethren, whose work is to solve agricultural and such problems. Not to any great extent, dear brother. They attend church for months but when asked to help support the preacher, don't pay. That is, hogs don't take a paper and read it until at least three new pairs of spectacles are worn out, yet don't pay. The production of work is quite often profitable to those engaged therein, but hogs don't pay.

—Middletown people point with pride while Mr. and Mrs. Charles Bernard, residing on Prospect avenue, are rejoicing over the arrival of twin daughters. The happy event took place last Thursday, and mother and daughters are doing well. This is the fourth pair of twins born to Mr. and Mrs. Bernard, three pair of whom are living. Twin daughters died last spring. There are ten children in the family, the oldest being fourteen years.

—There is only one way to advertise and that is to hammer your name, your location and your business so persistently, so thoroughly into people's heads that if they walk in their sleep they will constantly turn their steps toward your store. The newspaper is your friend in spite of criticism. It helps build up the community that supports you. When the day comes that the newspapers are dead, the people are on the edge of the grave with nobody to write the epitaph.

—The American hen now has a competitor as the steamer Empress of China, from the Orient, brought 116 barrels of eggs from Shanghai. This is the first of a number of shipments that mark the beginning of an invasion by Chinese eggs.

—The following from Honesdale Council, K. of C., had the third degree conferred upon them in Scranton on Sunday: Charles Rielly, John Schilling, Thos. Artman, and Rev. Thomas Jordan. A large number of Honesdale Knights accompanied them to Scranton.

—Byrne Brothers "Eight Bells" played to a good sized Lyric audience on Friday evening and kept the onlookers in an uproar throughout the entire performance. The show was without doubt the best ever seen of its kind in Honesdale and should Manager Dittich be fortunate enough to secure a return date he could count on a packed house.

—It seems that Honesdale theatre-goers do not understand that the curtain at Lyric theatre rises at 8:15 or on the other hand all their time pieces must run slow. On Friday evening for fully ten minutes after the curtain rose a number of Honesdale were ushered to their seats. This is a habit that might be avoided much to the benefit of the players and management of the house.

—The funeral of Mrs. Horace Hand took place on Sunday at 3 p. m. from her residence on Church street. The service was conducted by her pastor, Rev. Dr. Swift. The pallbearers were J. H. Torrey, E. F. The obligations of the retiring company will be matured to the very best advantage by the new company.

—To prevent pumps from freezing: Drill a small hole, say one-sixteenth of an inch or less, in pump stock, below well or cistern cover, far enough down so that frost will not reach it. With this method (which I first used nearly forty years ago) the pump is always primed; and, in warm weather, all the water that is pumped is fresh and cool. If desirable to prevent water from vent in pump stock striking wall of well, place a tin collar around stock, just above the vent; collar should be five or six inches wide, flaring out over vent, and hang just low enough to catch the water.

—State Pure Food Inspector W. A. Hutchison, last week began prosecutions against several Susquehanna county dairymen. Five dairymen at Harford were arrested for selling watered milk to the Harford creameries for shipment to New York and Philadelphia. The men were arraigned for a hearing before Justice F. A. Davis of Montrose. It was shown at the hearing that from 10 to 20 per cent. of water had been added to the milk. Four of the dairymen paid a fine of \$20 and \$7.42 costs, but C. H. Chamberlain decided to appeal his case to court. It will come up at the January term of court.

—Professor Oday was in Carbondale on Monday afternoon, where he met Professor Ellis of Dunmore and Professor Loftus of Carbondale. For the recitation in the Literary Contest, they selected "De Quincey's Deed," by Homer Greene. The three principals are to be congratulated on their choice, as the contest is to be held in Honesdale, the home of the author.

—Friday afternoon D. & H. engine No. 731, plunged into the embankment at Panther's Bluff, and was totally wrecked. The engine was hauling a train from Farview and it is supposed the engineer lost control, for as it struck the heavy grade, it was travelling at a terrific speed. Engineer and fireman jumped just in time to save themselves.

—A fire at Atco destroyed the barn belonging to John Dexter, late Saturday night. The family were aroused in time to rescue the horses but 12 cows, 2 colts, a calf and 50 chickens, together with about 40 tons of hay, several tons of corn stalks and a lot of farming implements were destroyed. Origin of fire is unknown. Loss estimated at about \$3,000; partly insured in Bingham & Walls agency at Hawley.

—Last Friday morning George Mennett and Robert Iloff, who are employed by the Honesdale Milling Co., had a narrow escape from death. While unloading a car of feed and placing it in the old D. & H. Co's machine shop, which is used as a storage by the Milling Company, they had piled the bags up to the roof when suddenly the pile, weighing twenty tons, toppled over, and instead of burying them they were knocked to the other side of the building and fortunately were more frightened than hurt.

Christmas Booms Trade.

"Christmas booms trades of all kinds," said a statistician of New York. "It is, on the whole, a blessing."

"Take groceries and fruit. A big grocer tells me that where ordinarily he sends out 100 tons of groceries a day at Christmas time he sends out 130 tons. And of oranges, he sells a million a week in December as against 500,000 a week at other times."

"Turkeys go from 6,000 to 14,000 in this firm's output, nutmegs from five to 18 tons, raisins from 2,000 to 9,000 boxes and cigars from 1,000 to 3,000 boxes."

"Wines and spirits, which are popular Christmas gifts, sell 50 per cent. better than in any other month. I know a man who sold \$225,000 worth of whisky last December as against an average of \$125,000 for the other months of the year."

FORT STANDS BY LAKEWOOD.

Governor Says Heart of Resort Is No Place For Preventorium.

Lakewood, N. J., Nov. 30.—Following the receipt of the letter from Marcus M. Marks, president of the tuberculosis preventorium, Governor Fort had a conference with State Charities Commissioner George B. Wright concerning the laws relating to the admission of dependent children into the state.

At the conclusion of the conference Governor Fort said that the people of New Jersey were not opposed to the establishment of the preventorium within its borders, but they felt that they ought to have something to say as to where it should be located, and it was on this ground that the opposition to the home at Lakewood was based. He said the state board of health should have been consulted. He said also that it was unreasonable for the projectors to locate it in the heart of a thickly populated resort.
