In an editorial in the Tunkhannock Republican and New Age last week, Victor H. Lyman, the writer, hit the nail squarely on the head when he said that the postal authorities should put a stop to some of the "foolishness" that passes through the U. S. mails. The article further says: "The Ancient Order of Hibernians is endeavoring to put a stop to the practice of circulating postcard caricatures of the Irish race on St. Patrick's Day, and in this they should have the support of all right thinking people of every race. It is nothing less than insulting to put on sale or send through the mail 'favors' which are embellished with pigs, clay pipes, 'caubeen' hats and the like, which are supposed to represent the characteristics of the Irish race, but which are as far from it as the 'big stick' is from truly representing our only living ex-president. It is to be hoped that the postal authorities will take steps to check the distribution of literature that reflects not only upon the Irish race, but upon all other people. And while they are about it, it would not be a bad idea to suppress some of the far-fetched tokens that are alleged to represent Easter, also."

Young and old have been claimed as sacrifices to the ravages of the terrible scourge.

An exchange gives an incident that illustrates the impossibility of telling where the trouble resulting from a mortgage will end. A man mortgaged his farm to buy his wife a pair of earrings. Jacob Seelye, of Auburn, a few miles from Montrose, has a cow which is evidently to the best of her ability trying to help her owner solve the "high cost of living." A few days ago this cow gave birth to quintuplets. Of course, it was not the cow's fault that three were dead at birth and the other two died soon after—she surely did her part. All of the calves, while a trifle small, were perfectly formed. The cow, which is a four-year-old, had previously given birth to but one calf. Twins, and even triplets, have been known to occur in that section of the state, but it is extremely doubtful if there is a bovine in existence that has beaten this record.

It is proposed to put up a building which will contain a main drill room, an officers' room, a company meeting room and several smaller rooms. It will also contain, in the basement, a short range target room and a number of shower bath rooms. The main drill room will be so arranged that it can be used for dances, mass meetings, entertainments, basket ball, and athletic games of all descriptions. The general mercantile business, in which Mr. Daniels is employed, has a capital stock of \$150,000 in that growing western city of over 5,000 population, most of which has been gained during the past five years. Oklahoma is now the home of the Osage Indians, the richest people in the world per capita, with their large farms, oil and coal royalties and government interests. Mr. Daniels' business calls him home the last of this month, as about the first of April Uncle Sam pays off the regular commission that falls due to 2200 Osages, \$125 to each, amounting to \$275,000.

A CAT TWENTY YEARS OLD.

John Ferguson, of Clark's Mills, without much doubt has the oldest cat in York county, if not in Maine. He is of good old-fashioned New England breed, none of the fancy variety, and was raised as a kitten in the family. If he lives four months longer he will be twenty years old. The cat's appetite is not so robust as it once was, and he isn't bothering much about rats and mice, but his health is fairly good, and no child in York county gets better care than the Ferguson family gives this venerable feline.—Lewistown Journal.

Miss Anna E. Reury, formerly of Honesdale, but for eight years an assistant editor of The Freeman, of Kingston-on-Hudson, is now a member of the staff of The Progress Magazine of Chicago.
