While endeavoring to reach a high note while singing a solo in the Grace Episcopal church, Miss Minnie Smith struck her head against a lighted gas jet, igniting a large picture hat. Immediately the feathered plumage of the Easter finery was a mass of flame, and cries of horror were heard throughout the church; but a panic was averted when the soloist coolly removed her headgear and handed it to one of the male members of the choir, who hurriedly carried it outside, but too late to save the Easter chanteuse.—Carbondale Leader.

"A Trip to Africa," the musical success, in which the original "Black Patti," (Sissieretta Jones) and "Jolly" John Larkins, together with the "Black Patti" show is appearing. In the strongest production that has ever been presented by a colored organization. The scenic effects are a marvelous presentation and depict the interior African Jungle with all of its details. Nothing has been left undone to make this most realistic. This production is in three acts and is very evenly balanced with musical numbers, comical situations, and the funny comedians keep things going for the full two and one-half hours that you are auditor. A number of new faces will be seen with the "Black Patti" show this season. They will come to the Lyric Monday, April 11.

Krantz, Smith & Co. were in Barryville Wednesday, and purchased a good size tract of ground. The engineer met them by appointment and the ground was staked out for a factory; contracts were closed with builders, who agreed to turn them over the keys of a completely finished factory in four weeks, all ready for business. The inducements held out for locating this factory were very satisfactory to Messrs. Krantz and Sell. Just what they were, outside of relief from taxation, were not made known to us, but we understand a written statement of the number of men employed and the amount of money paid for labor during the past few years, appealed so strongly to the people of Barryville and neighborhood, that they more than met the expectations of Krantz & Sell.

Herman Harmes and family left Wednesday to take up their residence in Hawley.

Ground is being broken to begin work on the Misses Thoma house on West Park street.

The next annual conference of the Methodist Episcopal church will be held at Owego, N. Y.

Henry Erk, chauffeur for the Auto Transportation Company, reports that the new automobile which the Mack Co. of Allentown has built for our transportation company, is a "dandy" and the public will be greatly pleased with its easy and comfortable riding qualities.

The strike situation remains unchanged, both sides have settled down to what looks like a long siege. The men have been enjoying the nice weather, some have gone away to work, others are making garden and doing other work, which the long hours in a factory would compel them to do in the early morn or the late evening.

The engineer, who is to survey the ground over which the trolley is to run, has been expected on every train, but his prior engagements in Philadelphia have taken him longer than expected, and as he is to give his constant attention to the work here, after he starts, he has received permission to finish his Philadelphia contract. The early session is one of the unexpected causes of delay, May 1st was thought to be the very earliest date, when construction work could be commenced.

Berry, of Galilee; Edw. and Moses Berry, Mrs. Leo Caywood and Mrs. Anna Stalker, all of Clarion, also one daughter, Mrs. Edgar Gregory, of Honesdale. The funeral took place Thursday, Rev. A. L. A POSTMASTER'S REPORT.

When it was first arranged, nearly 50 years ago, to have postmasters send in quarterly reports, many queer documents were received. One, which is still on file in the post-office department, came from the little town of Waterford, Ill., and is as follows: "July the 9, 1856.—Muster James Buchanan, President of the United States—Dear Sir: Bean required by the instructions of the postoffice to report quarterly. LETTER FROM A GLASS CUTTER.

Mr. Editor: I desire to call the attention of the readers of your paper to the gross injustice done me by Herbeck-Demer Co. in publishing their payroll. In the first place I did not leave their employ but was laid off, and was not working when the men went out. They published me broadcast as being a second-class man by placing me in Class No. 2, whereas I have been considered by them and every concern for whom I worked as a first-class workman and capable of doing any and all kinds of glass cutting.

Third—They make a sworn affidavit that they paid me on March 19th the sum of \$32.64, whereas they only paid me \$31.14, and the same was marked upon my pay envelope. I ask that you give this the same publicity that you did the false report of Herbeck-Demer & Co. regarding me.

GLASS CUTTER.

Another Letter.

We desire to correct some of the sworn statements made by the Herbeck-Demer Co. and published in your paper by them. They misstate facts when they say the cause of the strike was due to the wages paid.

The strike was called because men were discharged or laid off, (which is the same thing), when it became known that they were members of the Union. They claim in words, that every man has a right to join any organization, but by their actions they prove that if a man joins the Union he cannot work for them. The claim of the Brooklyn and New York concerns that they cannot compete with Honesdale firms, is no doubt true, for nowhere in this country is glass cut as well and as cheap as in Honesdale and it is due to the fact that Honesdale workmen, as a rule, are the best in this particular trade. When they state that they never cut the price for cutting an article when once it is made, it is true, for the fact is they never establish a price until it is so low that it will not stand a cut.

GLASS CUTTER.

GIRL'S SLAYER CONFESSES.

Spencer, Who Killed Miss Blackstone, Says He Has No Conscience.

Springfield, Mass., April 7.—Bertram G. Spencer, the young man who was arrested as the result of some very clever detective work, in which a lock of bearing his initials furnished the clue to his identity, has made a confession that he was the murderer of Miss Martha B. Blackstone and that he was also the masked burglar who has terrorized the women of Springfield during the past two years.

Spencer declared to the police that he was utterly devoid of conscience and that he never felt the least compunction in using a revolver to attain his ends.

He says that he became a thief when a boy and held up and robbed little girls as a beginning. He has told of more than thirty burglaries which he committed. On one occasion, he says, he hid under a woman's bed until she had dozed and, after watching her conceal two diamond rings, compelled her at the point of a revolver to hand them over.

Some single suits to clean up stock, at Menner & Co.'s store, will be sold out regardless of cost. 4w

GOING TO LEAVE HONESDALE? SO SAYS DAME RUMOR

The Beginning of Decentralization of the Glass Cutting Industry—Will Occupy the Old Outing Plant at Deposit, N. Y.

We have been informed that the Kelly & Steinman Company have purchased the Outing building at Deposit, N. Y., and will remove their cutting establishment to that place. Our informant tells us he got this information from Mr. Kelly. The Outing factory derives its name from the Outing Magazine, one of the pet schemes of Knapp Bros., who failed so disastrously, and pulled down several banks and manufacturing concerns with them. The Outing factory would make an ideal cutting shop; is splendidly situated on the Erie Railroad, has a magnificent surrounding country for help, and the people of Deposit will not only welcome any manufacturing establishment, but would support them royally, as the failure of the Outing company has taught the people of that town, that the failure or removal of a factory with a good-sized payroll is a calamity.

We hope this rumor is not true, and we trust no concern will leave Honesdale. We need them all, and a few new ones, and for that reason we hope that men and employees will get together and will arbitrate. There is not much difference between them, and a good level headed arbitrator, whom both parties know, could soon formulate an agreement that would make all hands happy and satisfied. Get together.

HYMENEAL.

UTEGG—KEPPEL—Married on Wednesday afternoon, at 2 o'clock, at the German Lutheran parsonage, by the Rev. Dr. Coenan, Miss Louise Keppel, of Milanville, Pa., to John Utegg, of White Mills, Pa.

BIRTHS AND DEATHS.

The state law requires that all births be reported to the local Registrar of the district in which birth occurs. When no physician is present, the law requires that a regularly licensed midwife or one of the parents or the householder report the birth. The correct registration of its birth is a valuable inheritance to which every child is entitled and which is within the power of every parent to bestow. Still births should be reported as both birth and death. The local Registrars named below should be notified of all births without medical attendance which may have occurred in their districts since January 1, 1906:

- L. B. Nielsen, M. D., Honesdale, Pa. Honesdale and Prompton boroughs, Texas, Oregon and Berlin townships. W. C. Knapp, Hawley, Pa. Hawley borough, Paupaek, Palmyra, Cherry Ridge and South Canaan townships. G. E. Miller, Bethany, Pa. Bethany borough, Dyberry and Lebanon townships. J. K. Stearns, Starrucca, Pa. Starrucca borough, Preston and Scott townships. C. H. Stephenson, Waymart, Pa. Waymart borough, Canaan, Clinton and Mount Pleasant townships. W. A. Stevens, M. D., Hamilton, Pa. Lehigh, Dreher, Sterling, Salem and Lake townships. John Barrett, Equiunk, Pa. Manchester and Buckingham townships. A. V. Tyler, Damascus, Pa. Damascus township.

Blank reports may be obtained on application to local Registrar of the district.

BUILD BIG SHIPS IN CANADA.

Ottawa, April 7.—Harlan & Wolff, the Belfast shipbuilders, are behind the incorporation of the Dominion Drydock company. It is proposed to establish plants at Levis and St. John. The incorporators are Baron Pirrie, chairman of Harlan & Wolff; Sir Robert Perks, Sir Thomas Shaughnessy, Andrew Allan, W. Dohell and W. E. Foster. It is expected that at least some of the ships of the Canadian navy will be built in these yards.

Old-Age Pensions.

Let the old-age pensions be limited to fathers and mothers of seventy years who have brought four children or more into the world. These probably have had no opportunity of providing for old age.—Le Journal, Paris.

Sensitive Plants.

There are plants so sensitive that if, when standing by them, one should suddenly put up an umbrella or sunshade, it would cause them instantly to close together their leaflets and turn down their leaf stalks.

STORY OF THE PAY-ROLL

Mr. Herbeck, of Herbeck-Demer & Co. brought to this office a certified copy of a pay-roll and asked us to publish it. He informed us that he had called on the other newspapers and that they were willing to publish same. Mr. Haines informed us he was going to print it and wanted to know if we would let him use our type. He requested us to let him have the type as early as possible on Monday so he could print it on the first run of his paper. About 10 o'clock his young man came to our office, paid for the use of the type, and stated, he was waiting for it, so he could make up and go to press. They kept the type in their office from 10 o'clock Monday until 10 a. m. on Tuesday, at which hour we commence to get ready to print our paper. When they returned the type they informed us that the young man had been told by Haines, to use it, but that he had forgotten to do so, although the same person had come to our office, carried the type over and made up the form. After we had printed the article and Haines found that the only part the men objected to was the printing of the names, he came to us, wanted the type and permission to mutilate the slugs by cutting off the names. We refused to allow him to mutilate the type, and returned him his money. The truth in a nutshell is, that B. F. Haines was afraid that if he printed this article, he might lose a few subscribers, and further more he is no doubt opposed to printing pay-rolls, as the printing of his own roll would show up the hollowness of his sincerity in the interest of labor. His action in this matter is in keeping with the whole tenor of his life.

SOCIALIST IS ELECTED MAYOR.

Milwaukee, Wis., April 5.—Returns of the city election here to-day show that Milwaukee has elected the first Socialist mayor of any American city.

Emil Seidel, heading the Social-Democrat ticket, defeated both the Republican and Democratic candidates for Mayor.

Seidel is a patternmaker who works at his trade regularly. He was elected by a plurality of nearly 8,000. This is the biggest plurality ever given a candidate for mayor of this city.

The Socialists have also elected at least six aldermen, with many of their ticket running close, and in no doubt.

Kleis, the Socialistic candidate for Circuit Judge, led the two non-partisan candidates in the city by a few hundred, but the suburbs are so strongly anti-Socialistic that Franz Eschweiler will be the choice.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
