A Clash With Caged Pythons. Carl Hagenbeck thus described an adventure with caged pythons: "My son Heinrich had no sooner opened the door of the cage than the four reptiles, as though by prearranged plan, flew at him with wide open jaws. One of them very nearly succeeded in coiling itself round him, but he deflected himself vigorously, and I and a keeper ran to his aid, but it was some minutes before we succeeded in freeing him. Then the largest of the four fixed himself firmly with his tail on a rafter at the top of the cage and made savage bites at us. When we had thrown a sack over his head we had to secure further assistance to unloosen his tail. No sooner had we with great effort got it loose than the monster twisted itself around Heinrich's right leg and began to twine itself higher up his body. It was a life and death struggle that then ensued, but by exerting all our might we at last succeeded in tearing away the reptile and forcing it into a sack."

IMPORTANT NOTICE TO TEACHERS.

Prof. Oday desires to suggest to all those who usually attend his summer school for teachers, that they now enter the High school and take the review work there. The regular High school work includes classes in the common branches which are required for teachers' examinations, with the exception of the reading work. The regular work of the school gives a teacher a much better preparation than would the four weeks' summer time. The pupil-teacher is brought in closer relation with the different teachers in the High school, as well as those in the proper grammar grades, hence receives a broader knowledge. If you were planning to attend the summer school, we will be pleased to enroll you in the regular high school work. Do not neglect this opportunity to prepare for your examinations.

The summer school for teachers, which has usually been conducted by Prof. Oday and Mrs. Dix, will not be held this summer, as Prof. Oday and his wife anticipate taking a western trip, and Mrs. Dix desires to visit her daughter in Spokane. They feel that they need the entire vacation for the purpose.

Prof. Oday has received notice that the Honesdale High school has been placed on the accredited list of the University of Michigan; this means that students who have completed the required work in our local school can enter the University of Michigan without any examinations. It is expected that two of the Alumni, viz. Reuben Brown and Austin Lyons will enter the Law Department of the University of Michigan next fall.

A Hindoo Superstition.

When visits are exchanged by the friends of the Hindoo bride and groom to complete arrangements for the wedding great attention is paid to omens, which are considered especially potent then. For instance, if the groom's messengers should meet a cat, a fox or a serpent they turn back and seek a more propitious time for the errand. After the bride's father has received the offer he must delay replying until one of the ubiquitous lizards in his house has chirped.

PROF. REHBEIN HONORED.

On Saturday night Kingston Council, No. 356, of the United Commercial Travellers, installed their new officers. After the installation speeches were made by several of the brethren. Prof. A. S. Rehbein, of Honesdale, the magician, was introduced and gave an exhibition of skill in doing seemingly impossible things, that those present began to believe that the physical senses are not reliable and cannot be depended upon. The Professor had the crowd so completely amazed and hypnotized that they had hard work to get back into a normal condition and tell him that as it was through his efforts that Kingston Council had been instituted, and that as an appreciation of his many kindnesses, they had a handsome counselor's pin which Past Senior Counselor Harrison, in a very nice and appropriate speech, presented to him. St. James' orchestra furnished the music in a very acceptable manner, while the refreshments were being served and during the entertainment.
