—The population of the United States is about 94,424,423, a gain of over 15,000,000 since 1900. At this rate of increase we will soon be crowding some nation out of first place in point of population.

—W. E. Shoemaker, fish warden, assisted by "Nick" Spencer, arrested two young men of Honesdale on Friday. The charge was that they were seen carrying set lines and had several bull-heads and eels in their possession. The law is that you cannot use set lines only between June 1st and November 1st. Squire Smith fined them \$20 each and cost; as they had no money, they were sent to jail; they afterwards paid their fines and were discharged.

—The House of Representatives was electrified Thursday by a speech of Mr. Covington. He had been speaking only a short while before every member was in his seat, and Senators were flocking in from the side of the dome. State House officers, with their families, crowded to seats wherever they could be found. The audience sat as under a spell, while the orator with burning words and caustic sarcasm, pilloried the shame of the State of Georgia.—Atlanta Georgian.

—A curious instance of the operation of the law in New York State recently occurred. A farmer was prosecuted for selling milk contrary to law, which provides that no milk shall be sold containing more than 80 per cent. water and 12 per cent. solids. At the trial it was proved that the milk was sold just as it came from the cow. Now the Court of Appeals decides that was no defense, and the defendant was as guilty as though he had poured water into the milk. According to this ruling a dairyman must know his cows are producing what is legally termed milk.—Exchange.

Mrs. Ballinger found him dead there later.

Cornell agricultural college had a representative present constantly during the test.

—The Pennsylvania Legislature, which meets next year, will be called upon to take action in regard to a proposition to abolish the toll roads of the State. There are more than 700 miles of these roads, and motorists have complained bitterly of them on account of the exorbitant rates which are charged for motor vehicles. Discontent became so general all over the State that at the last meeting of the Legislature a committee was appointed to conduct an investigation and report at the next session.

Attempts to ease the suffering were futile, and the attack became more and more severe. For nine days Graham did not have an hour of natural sleep. The only way that the awful strain could be relieved was by the use of anaesthetics. In that short period Graham wasted away.

—Men and women and children throughout the United States who wore the white carnation last Sunday celebrated no event in history, no glory of race, of order, creed or religion. All classes, all colors, all sects were a unit in the deep, pure sentiment expressed by the snow-white carnation. For everybody has had a mother. It was the third annual observance of Mothers' Day. —Cecil Weeks, one of our law-abiding farmers, got into trouble through ignorance of the law on fishing. He placed a fish basket at the outlet of Huff Pond which is on his own property, and was arrested and fined for doing so \$27.50, including costs. He also gave bail of \$100 for a further hearing. This may be right, but it does not look so.

—Joseph S. Pennell, census enumerator, finished taking the census of Hawley borough on Thursday, May 5th, just fifteen days after he began the work. He says, with but few exceptions, he has been treated courteously by our townspeople and all seemed perfectly willing to give the information he desired. Honesdale boasts of a family of ten children but we can beat that all hollow as Mr. Pennell reports one here of fourteen and all are living and at home.—Hawley Times.
