STOP ACCIDENTS.

Manufacturers Talking of Safeguarding Workmen.

500,000 INJURED EVERY YEAR.

Committee of National Convention of Factory Owners Reports Favorably on Importation of Labor-Object to Increased Freight Rates.

New York, May 17 .- At today's meeting of the National Association of Manufacturers the greatest interest centered in a discussion of the question of the prevention of accidents to workingmen.

The association has found by inquiry that about 500,000 workmen are in-Jured by accident in this country each year, entailing a loss of millions of dollars aside from the physical damage to the victims, and it wants to find a way to lessen this loss and better the conditions.

Yesterday the chief questions dealt with were fire prevention, interstate commerce and immigration.

A committee recommended these changes in the immigration laws: "That it shall be lawful to import

skilled labor when the person importat the rate of wages prevailing generally in this country for such labor.

"That the secretary of commerce and labor be authorized upon the application of any employer and upon his showing the facts set forth as above Wagner and Monteverde and Gluck to grant permission to import such la-

Another committee reporting on transportation opposes the proposed advance of freight rates, saying:

"If to all the burdens now resting upon manufacturers we must add 20 cent increased payments for freight charges we shall find it a very serious tax. Formerly when we felt aggrieved we could go to the general freight agents and other officers for redress, but under the present consolidation of ownership in Wall street the officers of the roads are powerless."

A committee in reporting on national control of interstate commerce declares that it has evidently come to stay and goes on to say:

There seems to be no good reason friends like dogs. why the sleeping and parior car companies and express companies should not be brought as completely as the railroads under its operation. There could be no possible harm in securing fairer service rates from the Pullman company, for instance, even at the cost of some curtailment of the delicious dividends with which the stockly favored.

How to Save Gas on Ironing Days.

When using a gas stove to heat the irons for ironing much gas can be and fasten a holder tim of the store. The knob should be fastened said?" on the outside of the pan. Use this pan to cover the irons with, and they will keep the right heat with the gas prised at the amount of gas this will concert you attend your elbow neighsave and how hot the irons will be to work with. It is not difficult to remove the pan when the irons need changing, as the wooden handle will not become hot.

How to Purify Rainwater.

Rainwater is one of the best washes for the complexion in existence, but clean rainwater is often hard to get, for after every shower the water from the barrels is black with soot, etc., washed off the roof. To prevent this and to secure clean rainwater, get a bit of coarse, close canvas and make a little bag of it. Into this bag put some clean gravel, and tie the bag on to the end of the pipe, so that the water will reaching the barrel. The gravel makes a capital filter, and if it be changed from time to time and the barrel be ute. kept clean you will always have clean soft water when required for any pur-

How to Crystallize Violets.

An easy way to crystallize violets is to arrange the violets, already separated from leaves and stalks and washed, on a flat dish. Take a gum brush and brush them over with thin gum. Take two lumps of sugar and rub them together over the violets, seeing to it that all parts of the flowers get covered. They will look very pretty, especially by artificial light,

How to Prepare Stoves For Storage.

To treat stove and furnace for summer storage rub all parts of the sheet iron, iron and nickel with common petroleum ointment. Put on a thick coating of it and wrap small pieces and stovepipe in newspaper. In the fall wipe off the petroleum ointment with a soft cloth. When stove is warm polish with stove blacking.

How to Preserve House Plants. Save all water in which meat has been washed to water house plants. It is an excellent fertilizer. A dying palm and several ferns were wonderfully revived by pouring about a teaspoonful of castor oil on the soil around the

Of the Week

News Snapshots King George V. is the new ruler of England. The funeral of King Edward, under orders of King George V., meant a dupli cation of the ceremony marking the burial of Queen Victoria. President Taft appointed Colonel Roosevelt as the special representative from the United States to be present at the last rites over Great Britain's ruler. Senator Piles of Washington was brought into the Ballinger-Pinchot row on the grounds that the Morgan syndicate assisted in his election. Miss Elizabeth 1. Fleming christened the Florida. Louis and Temple Abernathy, six and ten years, arrived in Cincinnati on a 2,000 mile horseback ride from Frederick Okla., to New York to meet Colonel Roosevelt next June. Nearly 2,000 people were killed by earthquake in Costa Rica.

APPRECIATION OF MUSIC.

How to Enjoy It by Following a Little Sound Advice.

Keep your ears open for new harmonies and your heart open for new ing cannot obtain laborers of like kind personalities is the best way to apprein this country who will work for him clate music. The harmonies may sound harsh at first, as our sweetest harmopies sounded harsh to older times and sound harsh to the Chinese today. The new personalities may seem erratic and crazy at first, as Beethoven and eemed in their day.

But keep your mind hospitable. If you read that So-and-so is stingy or that he is rude to his friends or that he drinks too much or dresses too exextravagantly or not extravagantly enough do not be misled into confusing the artist with his work. It is pitiful that these things must be true. but "The Messiah" is no less great because Handel was an outrageous glutton; "Don Giovannl" is no less wonderful because of Mozart's personal vagaries; "The Creation" is no less majestic because Papa Haydn was an old fop eternally at war with his wife; the "Ninth Symphony" is no less majestic because Beethoven was an impossible curmudgeon who treated his

On the other hand, the cheap, the empty, the tawdry compositions whose names are now forgotten were no more great because their composers may have been far more scholarly, far more gentlemanly, sometimes far more popular and prosperous than the great masters. A man's personal vices and virtues are for him to carry with him holders of that company are frequent to another judgment than the artistic tribunals of posterity. Let history or biography deal with the workman; art deals with the work.

So remember that great music is being written today and will be written saved by buying a tin pan targe tomorrow and be ready for it with a enough to fit over the number of flat- welcoming mind. Despise nothing beirons used. A dishpan is excellent for cause it is new nor yet because it is this purpose. Make a hole in the bot- old. Judge each thing by itself, asking simply: "Has it meaning? What is it Small wooden knobs can be trying to say? How effectively, how bought for 5 cents at any hardware sincerely, with what novelty, is it

Remember that the greatest works ever written were once mere novelties whose obscure fathers trembled in turned much lower. You will be sur- anxiety. Remember that at the next bor may sneer or slumber at some work which will be glorious when he and you and the sons of your sons' sons are dust .-- Rupert Hughes in Delineator For May.

WELCOME GUEST.

How a Girl Can Make Herself a Popular Visitor.

The girl who hankers after invitations must understand the art of being entertained. "Why do I invite Ethel so much?" a

woman once said of a young girl to whom she had shown many favors. "I invite her because she is a joy to have around. She never looks bored, is enhave to pass through the gravel before thuslastic over every plan you make for her, is in for everything, yet does not expect to be on the go every min-

Too many girls make the mistake of thinking the sole responsibility of a successful visit lies with the hostess. The folly of this is shown when the same hostess, with the same plans for a visit, will find one guest a delight and the other such a burden that the

end of her stay is a welcome relief. It is up to every girl who wants to be a popular visitor to see that she makes herself so. Learn to accept what is done for you graciously, to be pleased with trifles or to appear so whether you would secretly much prefer to be doing something else, to be happy and animated, which does not mean gushing and giggling, and to be always in accord with everything. If you can't be these things don't visit.

How to Wash Silk Gloves.

Siik gloves should be washed in warm water and with pure white soap and should then be rinsed in several lives. When her pillowcases are beclear waters of the same temperature. Then, instead of hanging them up to dry by the wrists, hang them up by the tips of the fingers. To do this pin the side seams come directly up in the each finger out on a cloth and hang middle. Then she reseams the bottom. up the cloth with the arms of the It is easy to see that this will bring gloves hanging down. This lets the the side of the pillow under the head, the tips, which receive the most wear, dry the quickest.

CARE OF THE EYES.

How to Prevent a Strain and Relieve Inflammation by Simple Methods.

Persons who use their eyes constantly should observe some simple rules fruit cake, but few can place one in for preventing strain. For instance, at the oven without forebodings. To inthe end of a long day in an office, it sure good results bake fruit cake in the optics are bathed with a cooling pasteboard corset boxes; 16 by 5 inches application, the brightness as well as is a good size. Some buyers prefer to sight may be maintained. For such a leave these boxes in the store, and the ter will draw out a smarting pain less than two inches deep, and three is many times.

Five cents' worth of boracle acid will last for weeks, and the powder may be carried with little trouble. To use as much as might go on the point over the box and put on the pasteof the blade of a small penknife is put into two tablespoonfuls of water. The oven and bake until the cakes are done powder floats for some time in tiny through, no longer. This will require lumps, but later is absorbed and dis-

borax is poured into it. This glass, hard crust or scorched atom about goes over the eye, close against the even slices of a convenient shape and skin, is held up, the head bent until the eye is over the liquid, and then the lid is opened and closed in the bath. There will be no smarting sensation, and the under part of the lids and the ball are flushed with a cooling application that will draw out any slight in-

The bath may last for a minute, washing first one eye and then the other eye before returning to give the first another plunge. The same liquid may be used more than once, but so cheap is it that there can be no hesttation in throwing it away. No two persons should ever use the same solution, for serious eye disease may be transmitted in this way. If the eyes ache during the day this treatment, which takes but a moment to apply. will relieve them.

Camphor water, being a little strong er, is used more sparingly and is likely to cause a slight smarting. Nevertheless it is a gentle tonic that can do ing chicken.—Designer For May. no harm. To use a couple of drops are cine dropper. This may be done two or three times a day when there is such inflammation. Boracle acid dissolved in it in the same proportion as in plain water increases the beneficial properties

Salt and water is an old fashioned remedy which should be used frequently. This mixture should be strong thow that good progress had been enough to cause the merest suggestion of a smart, but it must not be painful. If one has no eye cup any small cup or glass may be substituted and the tle more than a beginning had been eye winked in the bath. Done morning made, and night, this is strengthening in effeet.

Cloths wrung out in hot water and laid over the eyes form one of the best methods of treatment for inflamed eyes. To take this application one must lie down, so the fomentations may be placed on as hot as can be borne, changing them frequently.

How to Wash Crocheted Articles.

Crocheted and knitted articles can be washed satisfactorily by sewing the articles in a pillow slip and then washing them in warm soapy water. The bag must be squeezed between the hands to make it clean, but it must not be rubbed between the hands. When you think the articles must be clean press all the water that you can out of the bag, but do not wring it. Then hang the bag in the air to drain and when it is perfectly dry rip open the pillowcase, and the article will be found in excellent condition. If the wool article is a baby's carriage blanket or a straight shawl it will be improved by dwing it on a flat surface. It may be spread on the table or on the floor if clean papers or a clean cloth is spread on the floor first. The article should be patted until it is perfectly straight and flat and should then be left until it is perfectly dry.

How to Lengthen Life of a Pillowcase Every housewife knows how soon pilloweases wear out, but it took a remarkably clever woman to see at a glance how she could prolong their ginning to show signs of wear she takes out the seam at the bottom of the case and turns it round, so that water run into the parts of the gloves where the wear would come, so the that receive the least wear and lets pillowcase will last longer. A better idea could not be found, and who minds sewing up a pillowcase seam?

FRUIT CAKE BAKING.

How to Do It Without a Hard Crust or Scorching.

Many women can mix an excellent ery household should have some prepbath boracic acid is invaluable. So is storekeepers are glad to give them weak solution of salt. Camphor wa- away. It is well to choose boxes not better.

Line each box with manila paper well greased, pour in the batter, place a thoroughly greased manila paper board lld. Place the boxes in a slow at least five hours. When baked in this way the cakes will come from the If one has an eyeglass the liquefied oven retaining the fruit flavor, with no which is an oval cup, so shaped that it them, and they will cut into tempting

How to Make Paprika Chicken.

Although many of the foreign concoctions are extremely delicious, there is not one that is more tasty than that distinctively Hungarian dish, paprika chicken. In making it select a tender young chicken and after it has been cut into joints rub the flesh with salt and powder it with paprika. When thus prepared put the chicken into a saucepan with a can of tomatoes and cook them together without adding a drop of water until the chicken is done. At this point arrange the chicken on a hot platter, add a cupful of cream to the tomato, season to taste with paprika, add a little salt if necessary and pour this rich sauce over the chicken just before it is served. Although this is an extremely simple dish, it would be difficult to conceive of a more delectable method of serv-

Booster Bill

IX.—How Many Bill Blues Have We?

Old Bill Blue's knocking was so bad He knocked out everything he had. Then he grew wise and muttered "Stung!" So "Booster Bill" a new song sung.

How many Bill Blues have we here Who knock and try the town to queer? If you are one, then, like Bill, pray

To see the error of your way.

For he who runs his own place down Injures himself more than the town, And who to lift up does his best Lifts up his fortune with the rest.

This is the golden law: WE GET What we give out. Time pays the debt. If you shed sunshine it will fill Your own life. Be a "Booster Bill."
