He now thinks farming in the east is good enough for him and will remain on his productive farm at Avoy.

Saturday all the available means of conveyance was made use of to

convey the visitors, who arrived in great numbers on each incoming train, to the various summer homes out in the rural districts to pass the Fourth. The great majority of Hawleyites went to Big Pond. Wednesday will come another installment of 20 and an equal number July 16. That the camp is here to stay is assured by the purchase of a plot of ground of Mrs. Weitz, where contractor F. J. Denison and a force of men are at work erecting a lodge. The building is 36x64, will contain an assembly room 36x40 with a large fire place and a stage for amateur performances. The camp office, and store, governor's office and rooms for guests will also be located in this building. Dr. Perkins, a student at Syracuse university, arrived Wednesday and will be the attending physician. W. F. Hirsch, the general secretary of the Y. M. C. A., has been at the camp since last week.

## Double Value of Good Highways.

From the Louisville Courier-Journal:—Good roads are double acting—they make money for the farmer and with the money he buys an automobile with which he enjoys these good roads. Good roads mean automobiles for farmers; the automobile is helping to keep the farmer's boy at home, so good roads help keep the family circle intact. A good road may not cause two bushels of corn to grow where one grew before, but it will permit the marketing of several at the former expense of one.

## Wayne County's the Place to Fish.

Several residents of West Scranton fished the Paupack for trout Friday. Among them were Frank Moxley, W. H. Davis, Wallace D. Moser, the mayor's secretary, Clem Marsh and D. F. Moylan. Some nice catches were made.

Charles Kimmick, William O'Donnell, Henry Fox and Arthur Johnson of West Scranton have returned from a fishing trip to Long pond. They were very successful, catching a sufficient number of pickerel and bullheads to furnish members of the club that meets in Kimmick's hall with a fine supper. It required two large baskets to carry the catch home.

## FISH FROM WAYNE POND.

### Brings Delight to Peckville's Piscatorial Pilgrims—Another Catch Coming.

The return of Richard Bradley, Dwight Beardslee, H. A. Thomas and Arthur Thompson Saturday from an automobile fishing trip to Williams' pond was the signal for the members of the Peckville Rod and Gun club to gather at Hotel Wilson for their annual banquet Tuesday.

Mr. Bradley gave to the members a history of the trip. Mr. Thompson, in Isaac Walton style, told how the biggest fish got away.

Mr. Thomas thrilled the members of the club with enthusiasm by telling of the big eel Mr. Bradley caught but which became loosened from the hook. Mr. Thomas pounced down on the eel, which he stated would weigh at least 10 pounds. The eel, Mr. Thomas and all went into the lake and the placid waters of Williams' pond closed over them. Mr. Thomas came back, but the eel never.

The hit of the evening was by Mr. Beardslee. His theme was "Fishing with a silver hook." He told how members of the club went out fishing and without wetting a line returned with a nice string of pickerel, but lost their "silver" hook. Thompson and Thomas shot thirty-two water snakes while on the trip. A snapping turtle as large as a wash tub was hooked by Mr. Beardslee and was being pulled into the boat by his partner, Mr. Thompson, when the line broke. The turtle fell back into the water and thus the club lost their turtle soup.

Another delegation of club members went out Monday.

## DEFENDS SUNDAY FISHING.

### Commissioner Meehan Says It's Just as Good as Church-Going.

Advocating the repeal of the anti-Sunday fishing law, Commissioner of Fisheries William E. Meehan, addressing the meeting of the United Sportsmen of Pennsylvania at Susquehanna, said the Sabbath, according to the Scriptures, is made for man and not man for the Sabbath.

"It is not a question of whether or not Sunday fishing is prohibited by the Bible," said Commissioner Meehan, "but in case of being practical and providing recreation and legitimate rest on the day set aside for that purpose.

"It does not take a fisherman to see that the men of our cities are far better off angling the bank of a rustic stream than hanging about the town's street corners idling their time in useless and harmful pastimes.

"When we refuse even a man, as some will say, this privilege of seeking the quiet of some shaded creek with his hook and line, we are denying him an influence as potent in its result as going to church. We are refusing this class of man a chance to become a better citizen.

"Can you deny that anyone is under the purest of influences when he is communing with nature by the bank of the babbling brook? He hears the song of the birds that know no wrong, he sees the listless butterfly flying hither and thither in its innocence, he absorbs refreshment and moral strength from the green trees and flowers. Going back home in the evening, he has strong purposes in his heart and new ideals to strive toward.

"We cannot afford to restrict these men who toil six days a week from this good which might be theirs on the Sabbath. Fish were not given to our streams alone for the well-to-do anglers who can afford to journey whenever they wish, but they were given to the poor man also.

"We are throwing aside the best means of bettering our citizenship, and then some of us complain because the laboring men of our cities are not abler and better men. I sincerely trust that at the next meeting of the legislature this anti-Sunday fishing law will be crossed off the code, and I trust that our United Sportsmen of Pennsylvania will do all in their power to bring this action about."

The United Sportsmen are strongly in favor of this action.

## STROUDSBURG'S REUNION PLANS.

### Old Home Week In Water Gap Town To be Something Elegant.

One of the busiest committees of the Old Home week celebration at Stroudsburg is the parade committee. The men who compose it are determined to leave no stone unturned that will in any way enhance the success of this important portion of the big week, the week that will bring more prominence to Stroudsburg than any other in the 100 years of its existence. The committee has more work to do than any other one and in consequence it was enlarged to better look after the various details and the meeting held at the club rooms of the Stroudsburg Industrial club was not only very largely attended but there was more genuine enthusiasm than has been displayed since the arrangements of the week have been commenced.

The first step was to organize and this was done by the election of A. C. Sweazy chairman and T. C. Brown secretary. The chairman then outlined the work that faced the committee and the necessity of all working in harmony. In order to get the best results he appointed a number of sub-committees to look after the various parades that are listed to be held during the week. By means of this plan many little things that might otherwise be overlooked will receive the attention that is deserved. The committees chosen follow:

For fantastic parade Tuesday of the week—Charles T. Mansfield, Howard Stofflet, George W. Racener, Augustus Miller.

Automobile and drivers' parade, Wednesday—W. Dolby Palmer, R. R. Coolbaugh.

Baby parade, Thursday—Mrs. C. S. Logan is looking after this and already has assurances that there will be many competitors for the prize.

Civil parade, Friday—A. L. Snyder. Mr. Snyder will endeavor to ascertain how many lodges will turn out by the time of the holding of the next meeting and then he will be given all the assistance he requires. Mr. Snyder is a hustler in lodge matters and he can be depended upon to look after the duties referred to him with great care.

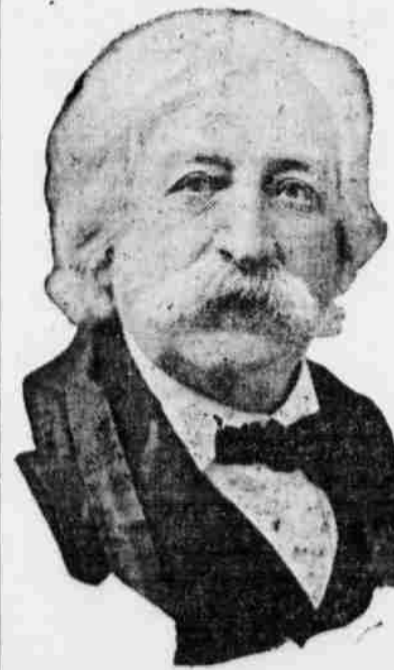

Firemen's parade, Saturday—Howard Stofflet, Martin Bush, Augustus Miller, C. T. Mansfield, George W. Racener, Clayton Brown, John J. White, Chief Harvey Smith of the Phoenix and J. L. Harbaugh, chief of the Stroudsburg Chemical company. Invitations have already been sent out to a number of companies to participate in the parade.

It is the object of the committee to make the fantastic parade, which will be the opener of the week, the biggest of the kind ever held in this place, and this means much, because there have been some very successful ones in the past. This is not confined to any particular class of persons, but everyone in the borough is invited and urged to participate in it. The various details will be given out shortly and also the prizes that will be competed for. There will be prizes for all the parades and the full list will be announced shortly.

Another meeting of the committee will be held at the same place Wednesday evening at 8 o'clock, when all the sub-committees appointed are expected to make their reports and future action will depend on this. A grand marshal will be appointed later.

## MELVILLE W. FULLER.

Chief Justice of United States Supreme Court Passes Away.

Hadley Orders Lynching Inquiry. Charleston, Mo., July 5.—An exodus of the negro population of Charleston is reported to be in progress following a double lynching, when Robert Coleman and Sam Fields were hanged for the murder of William Fox, a Mississippi county farmer. Governor Hadley has ordered an investigation.

The Call of the Wild. Twenty thousand pairs of arms that beat the frantic air. Twenty thousand pairs of eyes that gleam or glare. Twenty thousand voices wild that scream and yell and swear— Football; that's all.

## CLASHES BETWEEN WHITES AND BLACKS.

New York, July 5.—Following Johnson's victory over Jeffries disquieting reports have been received from numerous cities of clashes between whites and blacks bordering upon race riots. Great uneasiness is felt concerning the ultimate outcome of the Fourth of July fight between the white man and the negro.

Uvalde, Ga., July 5.—Three negroes were killed and many wounded in a clash with whites at a construction camp near this place.

The negroes had been exulting over the beating given the white man by the black champion.

New Orleans, July 5.—There were frequent outbreaks between whites and blacks as the returns from the Jeffries-Johnson fight came in.

Norfolk, Va., July 5.—Assaults on negroes by the lower element of whites were committed in this city and Portsmouth last night following the announcement that Jeffries had been defeated by Johnson. No less than a half dozen negroes were made victims of the wrath of mobs in Norfolk.

Washington, July 5.—Washington's negro population of 100,000 was stirred to a fever heat by the negro pugilist's victory. There were numerous clashes between whites and blacks, but none was serious.

## Big Heads and Large Minds.

Big men have larger heads than small men, as a rule, not because their bodies are larger. And, therefore, the proportion of the head to the whole organism must be taken into account. Again, a larger head may inclose a comparatively small brain, and a thick skull by no means indicates intellectual force. Still further, a small brain may have a very fine quality of organism, and a larger brain may be very imperfectly organized. Taking all these factors into account, we cannot always be sure that the man wearing the biggest hat is the possessor of the biggest brain.
