Congressman Bennett returned to New York by train Saturday.

—Mike Bregstein is bemoaning the loss of a watch chain, more or less valuable, that disappeared from the young man's vest not many days, or nights, ago. He hates to believe some unprincipled person deliberately appropriated his property, but he swears he did not carelessly misplace the chain, either in his store or when he went out to Beach Lake to take a swim. He thinks the chain may yet show up and thus far he has not reported his loss to any officer, but just the same he would like to see that chain back.

—Lively times are predicted in the next legislature over a proposed bill to provide that every man must secure a gun license as required in New Jersey. The bill is understood to have been outlined by the state game commissioners at their recent meeting in Harrisburg and steps are being taken to have local shooting associations take up the work of creating sentiment in behalf of the measure. It is pointed out that the bill would raise a sum large enough to enable the state game commission to increase its work, as well as to provide additional game preserves. It is expected considerable opposition will develop.

—James G. Shepherd, president of the People's Coal company, and Attorney Roswell H. Patterson left Scranton last week for Vancouver Island, off the southwest coast of Canada, where they will inspect a large tract of lumber they have acquired. They will spend about four weeks along the Pacific coast. Mr. Shepherd, Mr. Patterson and John G. Hayes, superintendent of the People's Coal company, some time ago invested heavily in the tract, which takes up about 12 miles of practically solid timber. The wood is gigantic hemlock trees. Mr. Hayes returned recently from the island and made so favorable a report on the investment that Mr. Shepherd and Mr. Patterson will visit the tract. The Shepherd purse of \$5,000 for an airship race from New York to Scranton is still open, but little has been heard about the matter lately.

—The Baptist Sunday school will picnic in Oliver's grove Friday afternoon. All members of the church, school and congregation will be welcome.

—Loud protest having been voiced in Washington against what was rumored to be a wholesale vivisection of dogs by the department of agriculture, the animals to be secured from the district pound. —United States Forestry Inspector J. F. Collins arrived at Delaware Water Gap Monday. Mr. Collins said that within 35 miles of New York every chestnut tree has been killed by some disease, the forestry department up to this time having been unable to explain. The government has established two stations, one at Long Island and another in southern Pennsylvania, to cope with the blight. On making an inspection at Delaware Water Gap, Mr. Collins finds many of the trees affected.

—The committee in charge of the Honesdale-Carbondale Merchants' day at Lake Lodore, Wednesday, Aug. 3, is making elaborate preparations for the entertainment and amusement of all. A fine program of athletic events is being arranged and good music will be furnished for dancing. What promises to be a unique and prominent feature will be a special singing contest for men and women. One of the quartet competitive numbers will be "Annie Laurie." There will also be solo contests.

—Travelers on the O. & W. between Orson and Poyntelle have anything but an enjoyable time when the train strikes that piece of road bed where ashes are dumped or where the bed is constructed of soft white ashes, says a correspondent of the Carbondale Leader. In passing over this spot dense clouds of ashes fly up and not only envelop the cars but it drives in the windows, doors, and other openings until everything is covered with white dust. The best thing the company can do is to haul a load or two of crushed stone and spread it on the annoying spot. Of if they cannot do this, let the trainmen close the windows before this place is reached. Last Sunday a great number of people of this city were on the train and can bear witness to the discomfort.

—The Eight County Veteran association will meet at Fernbrook park Wednesday, Aug. 10. At 11 there will be a business meeting and at that time officers for the ensuing year will be chosen and the place of the 1911 meeting determined. At 1 the campfire will be started. It will end when the old soldiers get ready for it to end. Every 40 minutes the cars leave Wilkes-Barre for the park. President Morris Sullivan and Secretary James A. Fleming have given their personal assurance that there will be plenty for the Grand Army men, Sons of Veterans, Women's Relief corps and Ladies of the G. A. R. to eat, and good music has been engaged. Some speakers of note are expected to be there. Judge Wilson, commander of Ham post, who had a pocketful of the enormous red posters Tuesday and Wednesday, says Honesdale will be represented. The glee club from Newfoundland is to sing.

—The heart of William Schloss, the longtime salesman for Katz Bros., was made glad the other day when he received a little check from the general passenger agent of the Delaware & Hudson. Mr. Schloss went to Reading to the Red Men's convention in June as a delegate from the local tribe and when it came time to come home he boarded a Central of Jersey train by mistake and was taken around by way of Scranton. He put in his claim for \$2.35, the price of the unused portion of ticket, and that claim has just been honored. The trip the Honesdale Red Men took to the campfire that the state brethren had kindled in Reading was a pleasurable experience in many ways to him, but one feature of the start Mr. Schloss remembered disagreeably for some days. The fellow boarder at the Wayne hotel who had agreed to call Mr. Schloss at 6 made a mistake, his watch being out of kilter, and rapped on the delegate's door a full hour earlier than that.

—Wilkes-Barre's councils Tuesday night passed a resolution directing the city solicitor to begin equity suits against the Spring Brook Water company to compel that corporation to furnish an ample supply of pure water. The people of Wilkes-Barre are much excited over threatening conditions which point to a typhoid epidemic. Honesdale people who go to Wilkes-Barre would do well to do their water drinking before they start and after they get back.

—Quietly negotiating with its men for several weeks without anything but the slightest hints being made public, the Philadelphia & Reading Railway company has completed the adjustment of its wage scale on a similar basis in that used by the New York Central. Not only have changes been made in unsatisfactory schedules, but, according to A. T. Dice, general manager, increases have been made in addition to the 6 per cent. increase. He said: "We have met all those who came to us in a fair spirit and in addition to the 6 per cent. increase have made other increases." Mr. Dice said the work of making the changes was completed and nothing further remains to be done.

—George Miller, the venerable undertaker, says the scheme on the part of the undertakers of nine counties to cut out the Sunday funerals has been talked up every year for four or five years, has never won out in the past, and is not likely to win out when the funeral men meet next month in Wilkes-Barre. Mr. Miller, who has been at the calling 50 years and is a philosopher as well as an undertaker, puts his views on the subject of Sunday funerals in a small nutshell as follows: "The only way to get them to stop demanding Sunday funerals is to get the liverymen to double their charges for Sunday carriages and the sextons to double theirs for Sunday work at the cemetery. Then the Sunday funerals will fall off. They won't until then."

Stomach Misery

Get Rid of That Sourness, Gas and Indigestion.

Mi-o-na stomach tablets will give joyful relief in five minutes; if taken regularly for two weeks they will turn your flabby, sour, tired out stomach into a sweet, energetic, perfect working one.

He did no newspaper business that day and his trip to that part of the county was not to gather data for more Lord stories, but Landlord Bleck of the hotel took him out to see the ditch which made so much trouble and gave the Honesdale scribbler a glimpse of some of the finest scenery along the Delaware at that point.

Rev. W. H. Hiller is on his vacation, yet he is in Honesdale about all the time. He has some private business to look after and this brings him down street every day, but he is not preaching. LETTERS FROM THE PEOPLE.

About Those Tightless Bathers.

Editor of The Citizen: Let me commend you on your editorial in a late issue of The Citizen on the bathing nuisance along the shores of our rivers. Also, the shores of the Lackawaxen are invaded by hordes of naked savages most any warm summer day. These men and boys always succeed in attracting attention to their presence by shouting to each other in language betraying a vile mind in their naked bodies.

What influence of church, school and parental education do these boys reveal? Do they not prove that we are rather arrogant in sending large sums of our money to foreign missions for the uplift of savages of other races, with so much to do at home?

Is there no remedy? It is certain that to plead publicly through the press for the cessation of bathing nakedly in public will remain without effect on such minds as are betrayed by their possessors' actions and utterances.

It seems that we get scant police protection for the taxes we pay.

Has it never occurred to any enterprising citizen of our town that it might be profitable to establish bathing pavilions on the spots most tempting on the shores of the Dyberry and Lackawaxen rivers and extend thereby the pleasure of open air bathing to many now deprived of it?

A SUBSCRIBER.

It has been suggested by a thinking citizen that it would be well to print some day the names of these skin-tight bathers, also the names of some of the women that watch them.—Ed.
