Bellman's orchestra has been engaged to play for the dancing, and this will start at 10 in the morning. It will stop when the dancers get tired, which means practically all-day dancing. Other sports, including a ball game, have been arranged, and there will be enough refreshments to feed all comers.

—It is expected about 30 stores will close Wednesday, Merchants' day, though not all the proprietors and help will go to Lake Lodore to join the business men of Carbondale. In the latter place Wednesday will be generally observed as a full holiday. Those stores which have been closed at noon Wednesdays will close all day and the drug stores, butcher shops, confectionery stores and barber shops will have a half holiday. If the weather continues good it is believed the largest excursion ever run by the business men will take place. The singing contests will, it is expected, be between Carbondale parties. Nobody in Honesdale it appears, has thought of entering the vocal competitions.

—The state Republican campaign will open at Charleroi, the home of Congressman John K. Tener, Republican nominee for governor, the night of Sept. 3. All the state candidates will attend.

—Honesdale and White Mills will play on the silk mill lot Saturday at 3 to end the series of five games. Honesdale has already won three games and the series, but the fifth game must be pulled off to make the agreement good.

—An old map of Milford in the county of Wayne shows that the road at that time crossed the Sawkill near its mouth and that a sawmill stood about in front of the old LeClerc house on the river bank. Israel Wells had a sawmill near where Struble's mill stands. Buchanan had a tavern across the creek in front of Metz house, the house now occupied by Buist was called Torrey's house and a house on the site of the Dr. DePlasse cottage was called Jensen's house. There was a tavern where Brookside villa stands. There are eleven dwellings noted, four saw mills and three grist mills on the town plot. The map was made prior to 1863.—Pike County Press.

—If Phoebe Snow ever takes a ride on the D. & H. she surely will have to send her mousseline to the laundry, says the "personal and pertinent" paragrapher in the Carbondale Leader. Not that the D. & H. is not as dustless as the road of anthracite, but because the travelers up in this region take the greatest delight in riding with their car windows open in the fond belief that they are more comfortable with the fresh air coming in but not seeming to realize that they are making things mighty uncomfortable for those who do not enjoy having their eyes, ears and noses fled with soot and cinders. You can always tell the greenhorn traveler by the way he or she shoves up the window on the railway train. The same class of people are the ones who cannot sleep at night unless their windows are closed and the room hot, stuffy and poisonous. The railroads ought to publish a booklet on how to act while on the cars, and send a big supply to Carbondale and the towns along the way.

—The Merry Heart club enjoyed a picnic at Fiddler's Elbow Friday.

She was born in Germany April 13, 1824, and came to this country with her husband and four children in 1854. Her husband died in 1882. She is survived by one son, William of Honesdale, and five daughters: Mrs. Chris. Hartung and Mrs. Adam Reitenauer of Honesdale, Mrs. Edward Peterlein of Grand Rapids, Mich., Mrs. Joseph Krantz of Carbondale and Mrs. Charles Karper of Brooklyn. Interment in the Lutheran cemetery.

—When Judge Searle went to the postoffice Monday morning the first thing he pulled out of the box was an invitation to the annual feast of victuals and flow of avoidpoups of the New England Fat Men's association at Music hall, Boston, this month. The judge, a New Englander by raising and education, knows many of the men that belong to the association and he is eligible to join it, but he will not go. To belong to the New England Fat Men's association it is necessary to be a white man, 200 pounds or over (avoidpoups, not drugstore weight), good-natured and fond of an old-fashioned Northeastern clam and bluefish dinner. It is hoped the association may be able to get President Taft for a guest this time, as Beverly, the summer White House, is not far from this year's dinner. Mr. Taft weighs 309 and the association wants his presence badly. In 1908, when he was running for president, he received an earnest request from the president of the Fat Men to go to the gathering at St. Johnsbury, Vt., but he facetiously declined by saying that from Washington to the north woods of Vermont was too strenuous a summer trip for a fairly busy man of 309.

—Of Interest To Glass Cutters. The Crocker, Glass and Brass Salesman has the following bit of satire, which is full of meaning to the glass-cutting fraternity: Honesdale, Pa.—Someone might endeavor himself to the trade by compiling a complete list of the cut glass manufacturers of the United States and keeping it up to date in loose leaf form by monthly additions. This would avoid the risk of duplication of names for those starting new factories. It would also help certain buyers of large quantities to find the newest concerns whom they are always eager to help, not only by placing orders when they are most needed, but also by furnishing the prices of the goods to spare the beginners the time-consuming task of figuring.

by means of poison, or lying in wait, or by any other kind of wilful, deliberate and premeditated killing, or which shall be committed in the perpetration or attempt to perpetrate any arson, rape, robbery or burglary shall be deemed murder in the first degree; and all other kinds of murder shall be deemed murder in the second degree." The jury are to determine the degree, except when the accused pleads guilty, in which case the court hears evidence and determines the degree. Murder in the first degree was made punishable with death; murder in the second degree and manslaughter by imprisonment.

The homicide is not deemed murder unless the victim dies within a year and a day after receiving the injury, the day on which it was received being counted the first day of this period.

As to the guilt of the parties concerned in a homicide, when they act in concert, with the common purpose of injuring their victim, the act of each, in carrying out this purpose, is the act of all and they are equally guilty. The one who actually makes the fatal assault is a principal in the first degree. Others who are present, aiding and abetting, or with intent to aid and abet, are principals in the second degree. There is, however, no distinction between them, in either the procedure or the penalty.

The public buildings bill recently passed by congress provides for the purchase of a site and the erection of an \$80,000 postoffice building at Port Jervis. The building will be one of the finest in the state.
