

IN THE WORLD OF SPORT

Danny Maher, Who Will Quit the Saddle.

Danny Maher, the phenomenal American jockey, will retire at the end of the present season, due to his steadily increasing weight. Maher, like Willie O'Connor, is going in for cross country weight. Maher likewise will follow the hounds and do a little gentleman's riding, but the turf in the future will see little of him save as a spectator. "I am getting to the end of my riding days quickly now," said Maher. "I have risen in my profession, and I think I may say without egotism that I have got about all out of it possible. For over ten years I have been riding steadily. I have amassed a fortune, and I now own a magnificent country home and am ready to leave turf honors to the youngsters."

Beaurepaire Breaking Records.

Along with annexing most of the big English titles at swimming, Beaurepaire, the Australian, has started to make history in the record line. He is not attacking any obscure marks by mediocre performers, but is going for the records of the cracks. A few weeks ago he wiped off three previous marks at the Exeter baths, London, in one night. He first attacked the 200 meters, which he swam in 2 minutes 30 seconds. The 300 yards was the next to receive the attention of the Australian, and he swam it in 3 minutes 30 seconds. The best English record for this distance was 3 minutes 31.25 seconds, by T. S. Battersby last year.

It was in the 300 meters that Beaurepaire gave his greatest display of speed, and he knocked a big slice off all world's records. His time was 3 minutes 50.15 seconds, and nothing like this has ever been achieved, even with a tide or indoors.

Searle Wonderful Single Sculler.

Coach Jim Wray of Harvard says: "I think Howard Searle, who succeeded Beach as the sculling champion, was the greatest single sculler that ever sat in a boat. He rowed rings around Beach in Australia after Beach had beaten Edward Hanlan and Jake Gaudaur. Then Searle went to England and rowed William O'Connor on the Thames. O'Connor was the best man England ever produced, and Searle's Australian backers had no trouble betting \$50,000 on their man. The Australian won the race hands down. Searle died a few months after this race. Searle was succeeded as champion by James Stansbury, another Australian. Sure thing gamblers queered professional rowing in England just like they did in this country."

Shrubb Coaching Harvard.

If Harvard fails to win the intercollegiate cross country championship this year it will not be due to improper coaching.

The Atlantic association has engaged Alfred Shrubb, the noted distance runner, and if he can impart to the Crimson runners some of the things he knows about the game Harvard will clean up in November. In 1908 Shrubb coached the Harvard cross country squad with success, Harvard making a much better record than previously or since in the intercollegiate. It was under his tutelage that Herbert Jacques showed such good promise as a cross country runner.

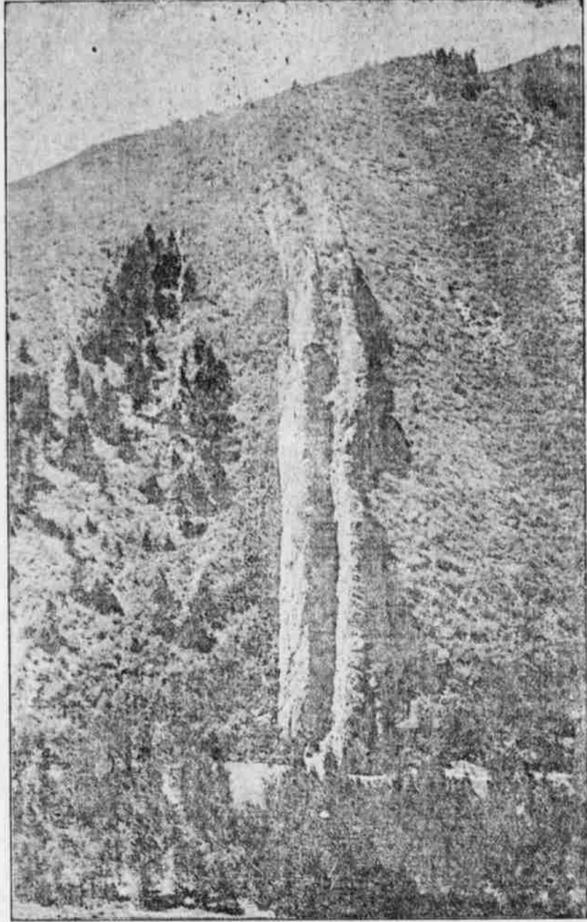

Ottawa Crew Going to Henley.

It is possible that the Ottawa eight oared crew will go to Henley next season in quest of the Grand Challenge cup. The Ottawa council has already voted \$500 toward the project. It was understood that this would be done if the Ottawa eight won in the senior event at Washington. The Canadians were successful, and the trip is to be in the nature of a reward.

Big Sculling Match Planned.

A sculling match for the world's championship is pending between Champion Arnet and Eddie Duran. Arnet will pass through Canada on his way to England, where he has another race scheduled with Barry on the Thames. Negotiations are under way to get Arnet to stop off at Toronto and meet Duran.

Shriners Plan to Use "Devil's Slide" For Initiation

"Devil's Slide" is known to every traveler who has journeyed over the Union Pacific railroad in the state of Utah, and now the Shriners announce that they will initiate a large class of candidates in Weber canyon, using the "slide" as a part of their paraphernalia. The "slide" is about 300 feet long, lying at an angle of about 90 degrees, with a shallow stream of water at the lower end, while near the top of the mountain which hems in Weber canyon will be found the commencement of the freak of nature. The formation of the ledges forming the two sides of the "slide" is most peculiar. While other rocks and boulders in that section of the state lie in a general parallel manner with the surface of the ground, these project directly through the soil to heights varying from one to ten or more feet from the grass tops. Between the two rows of rocks or ledges there is a comparatively smooth bed much lighter in color than the sides, thus giving the impression that the word "slide" is the most appropriate. Just how the Shriners propose to utilize this much advertised canyon for initiation ceremonies is unknown, but it is certain that a more unique place could not be selected.

CRIPPEN FOUND GUILTY.

Coroner's Jury Declares His Wife Was Murdered by Poisoning.

London, Sept. 27.—The coroner's jury has returned a verdict of wilful murder against Dr. Hawley H. Crippen, the American dentist, in connection with the finding in the Crippen Hilldrop Crescent residence last July of the mutilated body supposed to be that of Crippen's wife, who was known on the stage as Belle Elmore. The verdict reached by the coroner's jury was to the effect that the mutilated body found buried in the cellar of the Crippen home was that of Cora Crippen, who had been wilfully murdered by Dr. Crippen. The verdict added that the cause of death was poisoning by hyoscin.

BANKERS OFF IN SPECIALS.

With Families They Are on Way to Los Angeles.

New York, Sept. 27.—Three special trains carrying bankers and their families to the convention of the American Bankers' association in Los Angeles left the Grand Central station. They will run as three sections of one train across the continent, reaching Los Angeles on Oct. 27 and stopping at the Grand canyon on the way. A similar train left on Saturday night. About 500 persons in all were carried on the four trains, known as the "red," "white," "blue" and "green" specials.

VERRIDE MAYOR'S VETO.

Jersey City Board Determines the Tunnel Station Entrance.

Jersey City, N. J., Sept. 27.—The Jersey City street and water board passed over Mayor Otto H. Wittmann's veto an ordinance giving the Hudson and Manhattan Railroad company permission to establish at Grove street an entrance to the Grove-Henderson streets tunnel station. The veto to override was unanimous.

The ordinance must be advertised for five days before it becomes operative, and the tunnel stairway will be opened for public use on Saturday afternoon.

BIG BANK RESERVE.

National Institutions Have \$87,606,802 More Than Required.

Washington, Sept. 27.—According to reports received by Comptroller of the Currency Murray from all the national banks in response to the call of Sept. 1, the total reserve held by them was \$1,347,713,080, an average of 21.57 per cent and \$87,606,802 above the amount required to be held.

Since Sept. 1, 1909, loans and discounts have increased \$338,272,280.80 and individual deposits \$133,705,287.80.

BATTLESHIPS IN NEW YORK.

North Atlantic Fleet, Commanded by Schroeder, Arrives.

New York, Sept. 28.—The entire squadron of the north Atlantic fleet, under the command of Rear Admiral Schroeder, arrived in local waters and will be anchored off Tompkinsville or in the Hudson along Riverside drive. The vanguard included the Dixie, Delaware, Connecticut, South Carolina, Louisiana, New Hampshire and Kansas.

The Dixie, auxiliary cruiser, was the first to steam into the harbor, and in her wake came the flagship Connecticut, with Rear Admiral Schroeder on board, bound for the Brooklyn navy yard.

PATERSON WANTS T. R.

Determined to Have Him Speak at Industrial Exposition.

Paterson, N. J., Sept. 28.—The committee in charge of the Paterson industrial exposition, which opens Nov. 9, is determined to have Roosevelt present one day, and to make sure that he will be on hand Judge Joseph Congdon and Edward T. Bell have been appointed to wait upon Mrs. Garret A. Hobart, widow of the late vice president, and get her to use her influence with the colonel to come to Paterson.

It is known that Colonel Roosevelt will be at Oyster Bay on the opening day of the exposition.

MONEY FOR VETERANS OF '98.

New York Regiments to Get \$40,000 in Extra Allowances.

Washington, Sept. 28.—New York state volunteers in the Spanish-American war will get about \$40,000 additional pay which they have contended the government owed them. The claims of the Spanish war veterans have been pushed by Attorney General O'Malley of New York state, acting on behalf of the state.

The additional allowance of \$40,000 covers balances due to members of twenty or more organizations who failed to get their full allowance in prior settlements.

RUN OVER BY OWN AUTO.

Brooklyn Woman Seriously Hurt, Several Ribs Being Broken.

Babylon, N. Y., Sept. 28.—Mrs. C. L. Green, a well known Brooklyn woman, is in a serious condition at her home in Wyandach as a result of being run over by her large touring car.

Not knowing the car was set to go, she started to crank the machine, when it suddenly bolted ahead, knocking her down and passing over her prostrate form. Her right hip and several of her ribs were fractured.

FERTILIZERS FOR THE GARDEN.

Some of the Various Kinds Which Can Be Used with Success.

Stable manure is relied on by many gardeners, but it is very liable to introduce the seeds of weeds. Nevertheless excellent crops can be and are grown with stable manure alone.

At any seed store you can buy a complete fertilizer—i. e., one containing nitrogen, phosphoric acid and potash. For ordinary garden crops from three to twelve pounds to a square rod is about the proper amount. A good fertilizer for corn contains three per cent of nitrogen, six of phosphoric acid and eight of potash.

Turnips, cabbages, cauliflower and lettuce require a large amount of acid phosphate (superphosphate); commercial fertilizers used for these crops should contain nearly twelve per cent of available phosphate acid. These crops also require a large amount of nitrogen, which can be added to advantage after the plants are partly grown, in the form of nitrate of soda scattered light on the ground near the plants and raked in. Tomatoes and other crops may also be stimulated by the use of nitrate of soda used in the same way. It should not be allowed to touch the plants, and if used just before a rain, so much the better.

Ground bone and wood ashes make an excellent fertilizer for fruit trees, shrubs, and small fruits of all kinds. Bone and wood ashes should be used in the spring and thoroughly dug into the soil. When wood ashes are not obtainable use bone meal and muriate of potash.

Asparagus should have a dressing of salt in the spring, and after the crop has been secured should be given a liberal amount of ground bone, muriate of potash, and nitrate of soda.

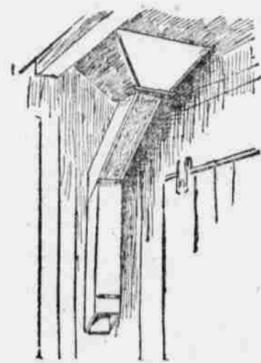

Potash or wood ashes should never be mixed with ground bone or with poultry droppings, or there will be loss of valuable ammonia.—Suburban Life.

Making a Barn Grain Chute.

In barns where the grain is kept on the upper floor and fed out below it is very convenient to have grain chutes leading from each bin so that the grain may be drawn near where fed out. In our barn we have one bin in the basement, but I find it is very handy to have chutes leading to each bin to draw out grain when not convenient to fill the large hopper.

The cut shows a chute we have in use in one of my barns. We constructed it some ten or twelve years ago and have used it more or less ever since.

The interior of the chute should not be less than six inches square and for oats I prefer 8. The inter-

A BARN GRAIN CHUTE.

It should be free from all obstruction so that the grain will pass down by its own weight.

The hopper shape device just under the bin is quite necessary with oats and especially ground feed. The cut off at the bottom is a drawer supported by two cleats on either side. A small projection is allowed in front for holding a bag.

Grain chutes of this nature are cheap and save a large amount of labor and travel in feeding stock. Every farmer should endeavor to economize both time and labor as much as possible by introducing handy devices.—L. C. R. in Prairie Farmer

Flax Pays.

We read of a farmer up in our Northwest country who bought 150 acres in the heart of the great flax belt for \$10 an acre on the crop payment plan. He broke up 135 acres and planted it in flax. In round numbers he thrashed in the fall eighteen and one-half bushels to the acre; sold it for \$1.39 1/2 a bushel; total \$3,500; a little more than twice enough to pay for his land out of his first crop. Not only was the flax immensely profitable itself, but it removed from the country the stigma, "one crop country."

Canadian field peas make a good crop for a dry farmer to use to put land in the best of condition, but it is necessary to get the seed in before a moist spell. This crop is good for any land but it will sometimes grow on dry land when alfalfa fails. It is not equal to alfalfa as a fertilizing agent, but it is all right as an annual and the peas can be put to good use in feeding stock.—Field and Farm.

IN THE DISTRICT COURT OF THE UNITED STATES FOR THE MIDDLE DISTRICT OF PENNSYLVANIA.

BENJAMIN SKIER of Hawley, Wayne county, Pennsylvania, a bankrupt under the Act of Congress of July 1, 1898, having applied for a full discharge from all debts provable against his estate under said Act, notice is hereby given to all known creditors and other persons in interest, to appear before the said court at Scranton, in said district, on the 30th day of September, 1910, at 10 o'clock in the forenoon, to show cause, if any they have, why the prayer of the said petitioner should not be granted.

EDWARD R. W. SEARLE, Clerk.

NOTICE is hereby given that an application will be made to the Governor of Pennsylvania on Tuesday, November 15, A. D. 1910, by Lorenzo R. Foster, John R. Jones, Thomas J. Burke and others, under the Act of Assembly of the Commonwealth of Pennsylvania, entitled, "An Act for the incorporation and regulation of banks of discount and deposit," approved May 13, A. D. 1876, and the supplements thereto, for the charter of an intended corporation to be called "The Hawley Bank," to be located in Hawley, county of Wayne, and Commonwealth of Pennsylvania, which said proposed corporation is organized for the specific purpose of receiving deposits, making loans and discounts, and doing a general banking business, under the laws of the Commonwealth of Pennsylvania. Capital stock is fixed at fifty thousand dollars (\$50,000), divided into one thousand (1,000) shares of the par value of fifty dollars (\$50.00) each, with ten dollars (\$10.00) on each share for surplus, the total capital and surplus being sixty thousand dollars (\$60,000). Said proposed corporation, for the purposes above stated, shall have, possess and enjoy all the rights, benefits and privileges of the said act of assembly and its supplements.

JOHN R. JONES, Attorney for Incorporators. 63eol 13.

NOTICE OF ADMINISTRATION.

C. T. A. D. B. N.—ESTATE OF LEONARD G. CLEARWATER, late of Salem Township. All persons indebted to said estate are notified to make immediate payment to the undersigned, and those having claims against the said estate are notified to present them duly attested, for settlement.

GEORGE A. CLEARWATER, Hamilton, Pa. Aug. 10, '10, Administrator.

REPORT OF THE CONDITION OF THE HONESDALE NATIONAL BANK AT HONESDALE, WAYNE COUNTY, PA.

At the close of business, Sept. 1, 1910.
