## U. S. DEMANDS MET

### PERPETRATOR OF TERROR IN HONDURAS TO RESIGN—AMERICANS ARE IN DANGER—MARINES READY TO LAND AND TAKE FORCIBLE POSSESSION OF AMAPALA.

Washington, Oct. 13.—General Jose Maria Valladares, commandant at Amapala, on the western coast of Honduras, whose dictatorship over the island of Amapala has stirred up trouble for the government at Tegucigalpa, is going to quit.

After complaints had been made by the foreign consuls against his conduct President Davila of Honduras telegraphed ordering him to resign from office and proceed at once to the capital. General Valladares has replied that he will leave Amapala as soon as he is able to close his accounts.

San Salvador, Oct. 13.—Information has reached here that the United States cruiser Princeton arrived at Amapala and demanded the surrender of Commandant Valladares, who has inaugurated a reign of terror against American and British interests in the western part of Honduras. Valladares is said to have refused to surrender, sending word he is not "subservient to American pigs."

Just prior to the arrival of the American warship President Davila sent word to Valladares to meet any demand made upon him by the American commander. Valladares wired back to the capital, Tegucigalpa, that he is running his port as it suits him. He refused to comply with the president's request for surrender.

The news from Amapala declared that American marines were preparing to land and take forcible possession of the port and that they would probably meet resistance. Valladares has mounted rapid fire guns at the custom house, commanding the wharfs, and he threatens to fight off any attempt on the part of Yankee or English marines to land.

An English cruiser is on the way to Amapala. Whether the American marines will await its arrival for concerted attack on Valladares' stronghold is not known here.

## BURGLAR IN SUMMER HOMES.

### Steals \$150 in Jewelry, a Meal, a Suit of Clothes, a Bath and a Jag.

Middletown, N. Y., Oct. 13.—A burglar visited the country homes of two New York families at Wurtsboro and stole \$150 worth of jewelry, a square meal, a suit of clothes, a bath and a jag.

The houses ransacked were those of George Wilson and John Renton, which were closed up some days ago. At the Wilson house the burglar cooked a meal on a gas stove and wound it up with champagne he found in the house. He was apparently overcome and went to bed for awhile.

When he got up he took a bath and donned a suit of Mr. Wilson's clothes. He then cut up an umbrella and made a mask, after which he went to the Renton home, where he secured \$150 worth of jewelry. No clew of the burglar has been found.

## MAN AND WIFE KILLED.

Mendville, Pa., Oct. 13.—While returning home from Titusville Mr. and Mrs. Samuel B. Winton were killed on the Pennsylvania railroad crossing at Tyroneville. Somebody signaled Winton that he had time to cross ahead of the fast special bearing officials of the road, and he made the attempt.

The wagon was squarely on the track when it was struck.

## FOREST FIRE DANGER PAST.

### Work of Helping Refugees Meets Important Consideration.

Rainy River, Ont., Oct. 13.—After nearly a week of fire and fear people are again beyond danger of being burned to death at any moment.

For the next few days the work of helping the refugees, most of whom have lost all they possessed, will be the most important consideration. From all accounts every part of the country will do its share.

The consecration of St. Patrick's cathedral in New York was one of the greatest events in American Catholic history. ## STRIKERS VIOLENT

### MUCH DESTRUCTION IN FRENCH RAILROAD TROUBLE—MOVE CALLED INSUBRECTION—PREMIER BRIAND DECLARES THAT STRIKE IS BUILT ON CRIMINAL FOUNDATIONS.

Paris, Oct. 13.—The strike of the railroad men, which threatens to spread throughout the length and breadth of France, is denounced by Premier Briand as "an insurrection purely, built upon criminal foundations."

The premier said the strike has been called while negotiations were going on through himself and the minister of public works for an adjustment of grievances, and he promised that the instigators of the strike would be criminally prosecuted.

Much destruction has been wrought on the Western system, where the strikers and their supporters have held up and wrecked trains, blocked tracks, destroyed signals, ripped up rails and cut telephones and telegraph wires.

The government has ordered the arrest of a score of the strike leaders, and instructions have been issued to the troops to use severe measures wherever occasion required.

The losses to commerce already are tremendous. Scores of trains have been stalled along the roads, many of these carrying food supplies, which even now have become unfit for use. The passengers on the steamship Oceanic, who took the train at Cherbourg for Paris, are blocked at Mantes-sur-Seine, about thirty-six miles from Paris.

Many Americans have been compelled to remain in this city or to pay fabulous sums to reach the coast, so that they might embark for England. Seven hundred sacks of American mail are now being transported from Havre to Paris up the Seine, and the French steamship line will employ a tug to convey the passengers for the steamer La Touraine, sailing on Saturday.

M. Jaures, leader of the Socialists in the chamber of deputies, answered Premier Briand, charging that the railroads of the government were responsible for the present crisis.

He said that the scheme of militarization was dangerous, as it was certain to weaken military discipline and increase antimilitarism.

Cologne, Germany, Oct. 13.—Railway traffic between this city and France is at a standstill. Hundreds of travelers at frontier points are unable to proceed.

Arrangements have been made to send the French mails into France by way of Jeumont, on the frontier of France. Travelers in automobiles arriving here from France by way of Jeumont say that many caravans of motorcars have reached the Belgian frontier from French points.

Observers of the situation express the fear that the strike movement will assume a revolutionary character.

## DIES AT FRIEND'S BODY.

### Aged Watcher Succumbs After Climb Upstairs.

New York, Oct. 13.—Stricken as he watched beside the body of a friend, Samuel Roder, seventy-five years old, of 152 Lenox avenue, died before a physician could reach him.

The aged man had gone to the third floor of 20 West One Hundred and Nineteenth street, where Jacob Levy died. He reached there at 1 o'clock in the morning and was out of breath after climbing the stairs.

His condition became so serious that Herman Locke of 77 East One Hundred and Nineteenth street hurried to summon Dr. Friedlander of 28 West One Hundred and Nineteenth street.

When Locke returned with the doctor the aged watcher was found dead beside the coffin of his friend.

Washington, Oct. 13.—An attractive young German woman walked into a local newspaper office and submitted for publication the following advertisement:

"Young woman, fairly wealthy, from foreign country, desires to meet at once some poor young man. Object, matrimony."

She gave her name as Eugenie Adams, but admitted that this was an assumed name. She said she was willing to give her prospective husband a bonus of \$200. She explained that her uncle, who lives in Germany, has named her as the beneficiary in his will provided she marries in a week.

# FAKE ATTEMPT TO FORCE TENER OFF THE TICKET

JOHN K. TENER, Republican Candidate for Governor of Pennsylvania.

The threatened and badly exploited attempt of the "North American" to make an "expose" relating to John K. Tener, turns out to be nothing more or less than a contemptible scheme to boom the circulation of the North American. If they had any proof why did they not publish it at once? Why hold it back for 48 hours? Answer: In order to give their circulation manager a chance to send out the following letter:

The circulation manager knew that there would be a demand for the paper and had 48 hours to get in his work and secure orders.

DEAR SIR: No doubt you noticed in this morning's issue of the "North American" a communication addressed to Hon. Boies Penrose. The communication is timed 10 p. m., October 10th, and requests an answer within 48 hours. The time will expire at 10 p. m. October 12th.

It has occurred to me, in view of the tone of the communication which appeared this morning, that you might desire copies of the issue of October 13th for use throughout your county.

We do not print extra papers except on orders, hence if you desire additional papers for use it will be necessary for you to write or telegraph so that it will reach me not later than 7.00 p. m. Wednesday night, October 12th, stating the number you want and where you wish them sent. These will be billed to you at the regular rate of one cent per copy.

Yours truly,  
J. D. LAMBERTSON,  
Mgr. Cir. Dept. "The North American"

"The steel business is very dull. Conditions are worse than at any time since I took hold of the Bethlehem Steel company. While we are running our plant with over 90 per cent of the regular force still we are getting no new business."

Mr. Schwab said the slump was due to "the political agitation throughout the country."

Tarrytown, N. Y., Oct. 13.—Clinton O. Hadley of Tarrytown made a successful flight with his new biplane at the Empire City track. The machine carried four people and left the ground when going at a speed of fifteen miles an hour.

Hadley has probably the largest biplane in use. Its planes are forty feet long and seven feet wide. They are curved and they differ in shape from those of any machine yet built. The machine has been at the track for two weeks.

## BRITISH YACHT AFTER KING.

### Close Watch Will Be Kept on Manuel During Trip to England.
