THE REAL FOUNDER OF THE HOUSE OF GOVERNORS.

Proctor W. Hans writes in Human Life for October: "When the governors of thirty-one states, assembled in the second of those remarkable conferences at Washington, were about to bring their proceedings to a close, one of their number arose and addressed the body in these words:

"Mr. Chairman, just one other matter. I do not wish to intrude upon the patience of this conference, but there is one gentleman who has given much thought, in a very modest way, to the Governors' meetings, who has tried to lend an element of useful influence to the affairs of the country. I refer to Mr. Jordan, who is present.

"As we do not pass resolutions about any one, I will simply say a few words in regard to him. Mr. Jordan is the first man who brought out the idea of a meeting of the Governors. He wrote to the President before Mr. Roosevelt invited the Governors to come to Washington for their first conference. I desire to express in this way appreciation of a great deal of patriotic and useful thought on the part of this gentleman who is not a governor. He is a very modest man, but I really think that every one of us is considerably indebted to him for what he has done. He had a useful idea, and ideas run the world, and that idea has brought us together. Therefore, I am glad to make this little tribute to his work."

"So spoke Governor of Kentucky, and in so saying he created a situation that was unique in more ways than one."

BE CAREFUL WHAT YOU SAY.

"In speaking of a person's faults Pray don't forget your own; Remember those with homes of glass Should seldom throw a stone; If we have nothing else to do Than talk of those who sin, 'Tis better to commence at home, And from that point begin."

"We have no right to judge a man Until he's fairly tried; Should we not like his company, We know the world is wide. Some may have faults—and who has not? The old as well as young; Perhaps we may for ought we know, Have fifty to their one."

"I'll tell you of a better plan, And find it works full well, To try my own defects to cure Ere others' faults I tell; And though I sometimes hope to be No worse than some I know, My own shortcomings bid me let The faults of others go."

LAKE IS BEING DRAINED.

Large Amount of Epsom Salts in Washington.

Spokane, Wash., Oct. 14.—Workmen are draining a small lake near Oroville in Okanogan county, Wash., to save an immense deposit of Epsom salts, owned by M. McCammon of Oroville and his associates, who took up the land under a mineral right. A. W. Doland, president of the Spokane Drug company, has made numerous laboratory tests and pronounces the salts equal to the German product, the wholesale price of which is 25 cents a pound. The lake, in which the deposit was found some time ago, is 1,000 feet in length and about 100 feet in

width and of unmeasured depth. The bed and banks are covered with a thick deposit and it is believed there are thousands of tons of salt available for commercial purposes.

HOT STUFF FROM SHERMAN.

We Wonder Who That Gentleman Means?

Chicago, Oct. 13.—In the gold room of the Congress Hotel early this morning, in the presence of a distinguished dinner assembly celebrating Columbus Day, Vice-President James S. Sherman uncorked his wrath against the leader of "New Nationalism." He mentioned no names, but what he said was blistering.

"The Vice-President was the guest of honor at the dinner. Among those at his table was Senator Lorimer. For an hour or more Columbus was his topic. Nobody was expecting the wallops that were coming. Electrically then he put life into the throng.

Extracts from his speech are: "We shall progress regardless of the harangues of demagogues drunk with their own conceit."

"True virtue does not bluster."

"It is the man behind the gun, certainly not the explosion, that determines the effectiveness of the shot."

"The honest American citizen does not stand alone. There are nearly a hundred million of him."

"The future depends not upon arrogant dictators. They may bluster, but they merely bark at the heels of progress."

"The spirit of unrest and developments toward anarchy are largely due to the 'crazy conceit and the dictation of demagogues.'"

"The future depends not on orators nor on arrogant dictators."

"The citizen must wear honesty as his closest garment, and be ashamed to make it a boast or to flaunt it as a banner."

"True virtue is not a matter of money or social rank, certainly not of noisy pretense or harangues on the hustings. It has its home in cabin and cottage as well as in villa and mansion. It does not bluster. It is taught at the mother's knee better than in excited crowds."

"Thus the reliance of free institutions is on the common people. Their thought, their sense, their convictions, must control society and government. They will heed advice, warning, rebuke, appeal, but they spurn command, compulsion, the insolence of dictation."

"Doubtless snarling cynics and critics have their use in the benevolent scheme. They may bluster and bark, but they are but episodes."

At the utterance of each of these sentences the Vice-President was applauded.

—The Citizen is the paper—the best paper in the county. A good many people have that opinion.
