GUMPTION ON THE FARM.

Feed the birds. You'll need 'em next bug time.

Don't let the apples or potatoes freeze. Sort out the rotten ones.

Don't speculate. Calculate, regulate, hesitate, migrate if you think you must, but never speculate.

Is the harness tied up with strings anywhere? Take them off and do the best job of repairing you ever did.

Get out some stuff for whiffletrees. Keep a little on hand all the time, for you may need them before you know it.

Have a bottle of rubber cement on hand and some good glue. Fix things, and do it while the other work is not pressing.

Time is saved by doing now much of the work usually done in the busy spring, such as hauling stones, clearing away trees and brush, fixing the grape arbor, etc.

Leave the job of climbing the windmill to some one who is level-headed and strong in limb. Many a serious accident has happened from not living up to this rule.

Be thankful every day; don't pile your gratitude all on to one day. The man who is thankful only when the Governor says he must, never is very thankful any day.

With the present prices of beef, which all authorities agree can not be lowered, the production of fat cattle on farms where the work has long been forgotten will be found profitable.

Are all the tools, from screw-driver to thrashing machine, snugly housed for the winter? They should be, but if not it is not too late to bring them in yet. Better do it now.

One of the best tools a farmer can have is a good riveter for mending leather straps of all kinds. One of these will save a good many trips to town and maybe more than one runaway.

Look after the pits where potatoes and the like are stored, and make sure that there is enough earth or litter on them to protect the contents from the coldest weather. Neglect may cause serious loss.

You've been working around that one solitary rock in a field for years. Now, split it up, blast or get rid of it in some way. A day's work, or perhaps less, makes the field perfectly clean and smooth.

Bringing home unexpected guests right at dinner or supper-time is often very trying to the good wife. Politeness and hospitality are all right in their places, but you owe a duty first to your wife and daughters.

It takes a smart man to wait patiently for dinner when the hour comes. His wife can wait for him a month of Sundays, but if she is not right on the tick when he comes in, there will be trouble right along. Most things have two sides to them. Isn't this one of them?—From November Farm Journal.

"KING OF TRAMPS" ON JOB.

Will Supply Hoboes Unafraid of "Newlywed Biscuits."

Atlantic City, N. J., Nov. 10.—Fear that high school boys might be called on to eat the cooking of girl pupils of the city cooking school was dissipated when an offer was received by the board of education to supply enough hungry tramps to consume the concoctions of the amateur cooks.

The offer came from a man who signed himself "King of the Tramps" and who asked that acceptance of his offer be sent to him at the postoffice in Cambridge, Pa. He announced belief in his ability to get a squad of knights of the road who could "eat anything from New England pies to newlywed biscuits."

BIG TURNOVER IN N. Y. ASSEMBLY

Democratic Majority on Joint Ballot Chosen Tuesday.

DEPEW WILL BE RETIRED.

Alton B. Parker, Edward M. Shepard and John B. Stanchfield Already in Field For Senator—New Jersey Also Will Elect Democratic Senator to Succeed John Kean.

Albany, N. Y., Nov. 10.—When John A. Dix takes control of the state executive departments from Governor Horace White on Jan. 2 he will have behind him a legislature safely Democratic in both senate and assembly. Not since 1893 has the Democratic party had control of either branch of the legislature, and not since January, 1892, when Edward Murphy, Jr., of

© 1910, by American Press Association. JOHN A. DIX.

Troy was chosen, has it had an opportunity to send a representative to the United States senate. One of its first duties after organizing next January will be to elect a Democrat to succeed Chauncey M. Depew in the upper house of the national legislature.

According to the revised returns the next state senate will consist of thirty Democrats and twenty-one Republicans as compared with thirty-five Republicans and sixteen Democrats in the last senate. This means a Democratic gain of fourteen. Latest returns from the assembly districts point to the election of eighty-seven Democrats and sixty-three Republicans to the next house. In the last legislature the Republicans had ninety-four members, the Democrats fifty-four, and there were two Independence leaguers. This means a Democratic gain of thirty-three.

Already there is talk of Depew's successor. The names most frequently discussed are those of Alton B. Parker, ex-chief judge of the court of appeals and former presidential nominee; Edward M. Shepard, Thomas Mott Osborne, D-Cady Herrick and John B. Stanchfield.

Reorganization of the two houses will bring many new men into prominence. Indications point at present to the selection of Thomas F. Grady, senator from the Fourteenth New York district, to the position of temporary president of the senate, the post from which his Republican friend and ally, Allis, was ousted last year. But there are signs even now that the Tammany man may not be able to get the election without serious opposition from members of his party up state.

Analysis of the vote shows that Republican losses were in rural sections as well as towns and cities. Reversals of political complexion were noted in county after county. Old standby Republican counties like Tioga and Otsego, for instance, gave greatly reduced pluralities for the Republican candidates and elected Democratic assemblymen. Monroe county, with its plurality of more than 5,000 for Stimson and its solid Republican assembly delegation, stood the Republican test better than most of them.

John J. Hopper, the Independence league candidate for governor, received approximately 44,000 votes in the whole state.

Dix's great plurality in the greater city was the most marked tribute of the five boroughs since 1902. The following records of previous years are pertinent: Chanler led Hughes by 59,904 in 1908; Hearst was 77,097 ahead of Hughes in 1906; Herrick's lead over Higgins was 80,131 in 1904; Coler led Odell by 122,033 in 1902; Stanchfield's city plurality over Odell was 44,283 in 1900; Van Wyck led Roosevelt by 84,906 in 1898.

STRIKERS USE FIRE

Set Furniture Van Aflame. Guards Escape.

PRIEST JOINS IN THE FIGHT.

Father Guinan of Holy Rosary Church Goes to Rescue of Injured Man in Strike Riot in New York City and Knocks Down Several.

New York, Nov. 10.—Police reserves were called out to quell riots in different parts of the city, following the announcement that the union labor leaders and the representatives of the Motor Car Owners' association had failed to reach an agreement with reference to settling the strike of the taxicab chauffeurs, who are out in sympathy with the express wagon drivers and helpers.

The most serious trouble was at First avenue and One Hundred and Twenty-second street when strike sympathizers set fire to a large furniture van loaded with bedding and other inflammable material. The wagon was wrecked and the strike breaking driver and three guards had narrow escapes.

Charles Fredericks of 254 Geene avenue, Brooklyn, was so badly injured that he was sent to Harlem hospital. While the fighting was at its height Father Guinan of the Holy Rosary church went to the rescue of the injured man, and in the mixup that followed knocked down several of those who had taken part in the attack.

When the van was discovered to be afire the driver had difficulty in saving the horses. A call for the police brought Captain Walsh and a squad. The crowd disappeared when they arrived. Fredericks is believed to have a fractured skull. He says he is a meat inspector and was taking no hand in the affair.

The New York Taxicab company started out four cars and as many riots followed. In Eighth avenue, near Forty-seventh street, a driver was attacked, dragged from his seat, his uniform ruined and the taxicab damaged. The driver announced he would quit. He deserted the car, and this so pleased the crowd that a second afterward the driver was being carried about the street on the shoulders of the men who had been attacking him.

The sympathizers overtook the drivers of the three other cars and they were beaten until the police took a hand in the affair.

Reserves from the West Forty-seventh street station were called and several arrests were made. One sympathizer was cut about the head and two of the strike breaking chauffeurs were severely bruised about the body.

The latest branch of vehicular traffic involved was that made up by the automobiles operated in Fifth avenue and Riverside drive. Riots and attacks had been reported in Eighth avenue between Forty-second and Fifty-ninth streets.

Chauffeurs were dragged off taxicabs and ordered to join the strikers. Taxicabs were taken back to the garages with their tires slashed and windows broken.

POLICE SAVE MANY LIVES.

Forty Families Endangered in New York Tenement Fire.

New York, Nov. 10.—Forty families, comprising more than 200 men, women and children, fled panic stricken through smoke and blaze filled halls when fire starting in the kitchen on the third floor of 123 and 125 East One Hundred and Second street, a five story double tenement, spread to the halls and air shaft.

Only the gallant work of the police prevented the loss of twenty or thirty lives, mostly women and children.

The fire was discovered by Katherine, the seven-year-old daughter of Charles Weiss, who, with his wife and four children, occupied the third floor front. The girl, entering the kitchen to get a drink of water, saw the flames curling about the cupboard and quickly communicated with her father asleep in an adjoining room.

Weiss roused his wife and children and got them down the stairs to the street and then turned in an alarm.

ALMOST DROWNED BY MILK.

Man Fell, and Cans Go After Him, Emptying Their Contents.

Middlebury, Vt., Nov. 10.—Marcus Carr, employed as manager of a local milk station, had a narrow escape from being drowned in milk when a truck load of filled cans fell on him.

He had loaded the truck with cans containing 450 gallons of milk preparatory to loading them into the car. The truck broke down, throwing Carr to the ground. The cans fell on top of him, and the covers of every one of them came off, deluging him.

Mr. Carr was rescued by bystanders. His chest and legs were bruised by the heavy cans.

Big Cotton Crop.

Washington, Nov. 10.—The census bureau report shows 7,339,983 bales of cotton, counting round bales as half bales, gleaned from the growth of 1910 to Nov. 1 compared with 7,017,849 for 1909, 8,191,557 for 1908 and 6,128,502 for 1907. Round bales included this year are 81,187 compared with 109,621 for 1909, 149,869 for 1908 and 125,785 for 1907. Sea Island this year is 40,516 bales compared with 55,237 for 1909, 45,479 for 1908 and 33,331 for 1907.

Sanitary Conditions of Paris. Not for many years have the health returns in Paris shown such a low percentage of deaths as has been the case since the recent floods. This is attributed to the thorough cleaning process which took place after the subsidence of the waters when the accumulated rubbish of years in cellars and other obscure places was either washed out or has since been removed by the health authorities, who now practice a rigid inspection resulting in the greatest cleanliness and have instituted fresh methods of insuring the purest possible supply of water. Thus the floods may be considered as a blessing in disguise.—New York Tribune.
