

U. S. TROOPS READY

They'll Keep Down Mexicans In Texas.

MADEIRO ACROSS THE BORDER?

Revolutionary Leader Probably Has Evaded Soldiers and Is With His Own Men—Government Army In Control, but May Need Help.

Washington, Nov. 22.—Instructions were sent to Brigadier General Hoyt, commanding the department of Texas, with headquarters at Fort Sam Houston, near San Antonio, to hold his troops in readiness for service in enforcing the neutrality law. This action was taken by Major General Leonard Wood, chief of staff of the army, upon the recommendation of Secretary of State Knox.

Two regiments of infantry, ten troops of cavalry and three batteries of field artillery are available for service in case of emergency. General Hoyt was directed to keep in touch with Governor Campbell of Texas and to add him in handling the situation.

Eagle Pass, Tex., Nov. 22.—Simultaneous with the arrival in Eagle Pass of Julio Madeiro, said to be a son of Francisco Madeiro, on whom the revolutionists hang their hope of freedom from Diaz rule, came rumors of uprisings in small towns contiguous to Ciudad Porfirio Diaz, and a number of Mexicans as well as a few Americans came to this side to escape trouble.

On the best of authority it is learned that General Francisco Madeiro left Carriso Springs with a guide and several attendants, headed for the nearest crossing of the Rio Grande into Mexico. A small band of Mexicans crossed the Rio Grande at a ford below Eagle Pass at a point near the one it is presumed General Madeiro and his party took. The Southern Pacific Railway company has orders that a special from Fort Sam Houston with two troops of cavalry heavily equipped for scout duty is bound for Eagle Pass.

Ciudad Porfirio Diaz is quiet. All business houses are closed, and persons are not permitted on the streets after dark without a good reason.

The Mexican officials are delighted at the prospect of having the American soldiers on this side so as to head off any armed forces from gathering on this side and crossing to Mexico.

United States secret agents, the customs and immigration officials and the United States marshals' forces are doing everything in their power to prevent the revolution from starting on this side. Madeiro has a wonderful following in Mexico, and it is conceded by both governments that all danger will be passed if he can be prevented from getting into the country with an armed force.

El Paso, Tex., Nov. 22.—Trouble has been reported at Orizaba, in the state of Vera Cruz, Mexico, and Guerrero and Hernandez, state of Coahuila, but no confirmation has come of the reported battle and great slaughter at Zacatecas, although persistent rumors of such a fight continued to be received.

At Guerrero and Hernandez the troops have suppressed the rioting, and at Orizaba the soldiers arrived in time to prevent bloodshed, although dissatisfied workmen in the mills at that place stoned the mills, broke many windows and attempted to set fire to several manufacturing plants.

Mexican officials still seem able to care for any trouble that may develop. The arms so far captured in Mexico total more than 6,000, and the rounds of ammunition total more than 50,000. Arms of all kinds have been prohibited from entering Mexico, and prospectors and miners must leave their arms at the border. Stores throughout Mexico have been forbidden to sell arms or ammunition.

The report is persistent along the border that General Bernardino Reyes, who was made to resign as governor of Nuevo Leon because his friends supported him for vice president, is coming back from Europe, where he was sent on "a military mission" soon after he was forced out of office, and the revolutionists have faith that he will lead them. If he does a large part of the army will follow him.

John Alarcon, an American engineer, and his wife and children have been jailed in Chihuahua, according to reports brought here by trainmen, because a search of their house revealed dynamite which Mrs. Alarcon's brother had there for mining purposes.

Conditions are reported as uncertain in Chihuahua. Practically all the natives employed in the railroad shops are ready to join the revolutionists, and the troops are ready to fall in with them if Reyes appears as leader.

An order has been issued for all American women to keep off the streets until peace is restored lest their presence lead to assaults and race riots.

A Mexican rufale let his better judgment slip yesterday evening near the barracks in Ciudad Porfirio Diaz and yelled "Viva Madeiro!"

An officer ran a sword through him.

CHILDS LOSES MONEY FAST.

In Wall Street He Spent Half a Million In Four Years.

New York, Nov. 22.—That Irving W. Childs, who five years ago inherited \$1,250,000 from the estate of his father, William H. Childs, had lost \$500,000 of his inheritance in Wall Street in the past four years came out in a hearing in the supreme court, Brooklyn.

The fact of the young man's plunging was the basis for application in behalf of his wife, Mrs. Gertrude E. Childs, for a bond to protect the all-money granted her when she obtained a decree of separation.

"Mr. Childs," said the lawyer for Mrs. Childs, "has always paid the alimony of \$700 a month promptly, but the manner in which he has squandered his fortune gives us apprehension for the future. In less than four years he has spent every dollar of the half million he got upon coming of age. We don't want to run the risk of his going through the \$750,000 which is coming to him, leaving his wife and little girl unprovided for."

WOMAN SHOOT ASSAILANT.

Telegraph Operator Is Attacked by Railroad Detective.

Monongahela, Pa., Nov. 22.—Shortly after midnight while on her way home Miss Iva Bush, a telegraph operator, was attacked by a man she says she did not recognize. Pulling a revolver from her muff, Miss Bush shot him. When he fell the man was recognized by Miss Bush as Harry A. Smith, a railroad detective, whom, she says, for weeks has been molesting her on her way home from work. It was for Smith, the young woman admits, she was carrying the revolver.

Miss Bush says Smith, who now is in a hospital in a dangerous condition, recently tried to break into the tower where she works at night. Miss Bush has been placed under \$2,000 bail. Friends of Smith say the Bush woman recently quarreled with Smith.

A policeman found Mrs. Russo, her face and nightclothes bathed in blood, bending over the unconscious husband. The doctors said there wasn't a chance for Russo. The young wife, however, will get well.

"My husband has been driven crazy by being out of work," Mrs. Russo told the police.

STOLE MILLIONS?

Burr Bros. Charged With Selling Worthless Stock.

ORGANIZED THIRTY COMPANIES

With Oil and Mining Corporations, It Is Alleged, They Perpetrated Frauds Aggregating Nearly \$50,000,000. Hitchcock Here In Charge.

New York, Nov. 22.—Charged with perpetrating frauds aggregating between \$40,000,000 and \$50,000,000, three young men who have been doing business under the corporate name of Burr Bros., Inc., were arrested by the postal authorities. The men under arrest are Sheldon C. Burr, Eugene H. Burr and Frank C. Tobey. They were arraigned before United States Commissioner Alexander, and the United States district attorney asked that bail be fixed at \$20,000 each.

So tremendous are the frauds alleged to have been perpetrated by this group of young financiers that Postmaster General Frank H. Hitchcock came to New York to personally take charge of the case.

The postmaster general declares that within the past three years Burr Bros. have organized over thirty oil and mining corporations and have flooded the market with more than \$40,000,000 of worthless stock.

From now on there will be no more issuing of fraud orders against companies that offer nothing for something and promise to pay a high rate of interest on it. Under the old custom, which the government followed for years, the offending concern merely was forbidden the use of the mails. The only hardship this worked was the necessity of changing the name of the company. Under the present plan, which has the approval of President Taft, the offenders possibly will be indicted for using the mails to defraud and, Mr. Hitchcock says, will be put behind the bars just as fast as the courts can send them there.

CZAR REGRETS THE DEATH.

Tolstoi's Body Will Be Buried Today Without Ceremony.

St. Petersburg, Nov. 22.—When the czar received from Premier Stolypin a report of the death of Count Tolstoi he wrote on the margin of the paper: "I heartily regret the death of this great writer, who embraced in the golden age of his talent the creation of types of his fatherland, thus constituting one of the most glorious years in the life of Russia. May he find in God a merciful judge!"

The body of the dead novelist was borne to a train by the citizens. A crowd has assembled, and as the coffin was carried along the onlookers joined in a solemn chant. The countess, bowed with grief and supported by friends, walked ahead of the coffin.

The funeral train is due at Haseka, three miles from the Tolstoi home, at 9 o'clock this morning. Burial on the family estate will follow soon after. There will be no ceremony.

CANADA IS FRIENDLY.

Willing For Reciprocity, a Speaker Says In Parliament.

Ottawa, Ont., Nov. 22.—When the first business session of the eleventh parliament opened the reciprocity question immediately came to the front. Mr. McEwen, in moving the speech from the throne, alluded to the readiness of Canada for thirty years to enter into a reciprocity agreement with the United States.

Mr. McEwen said that both countries had come to know one another better and to realize that they were the two great nations of the North American continent. Peace between them had existed for over a hundred years, and this was a notable demonstration to the rest of the world. What Canada said to the United States was: "We are pleased to discuss trade relations with you. If we can come to an agreement satisfactory to both countries so much the better; if not, no harm is done."

Progress.

The head of a New York firm having important interests in Italy decided some time ago, in view of the death of an old and reliable clerk, who, of all in the establishment, was the only one to have a good knowledge of the Italian tongue, that his own son, also a member of the concern, ought to take up the study of that language. Recently a friend met the young man. "I understand," said he, "that you're actually studying Italian." "Why, yes," said the other. "I've been at it for several months under a teacher just from the other side." "What progress?" "Good," was the answer. "He's beginning to speak English remarkably well."—The Argonaut.

A BAD LIVER.

A celebrated English authority once said, "The liver is the direct cause of ninety-tenths of the ills that flesh is heir to." It is the largest gland in the body. The blood must pass through the liver many times in an hour. When your liver is out of order you will have pains or uneasiness in the right side, or a dull aching under the shoulder blade. The complexion becomes sallow, your appetite is impaired, your bowels inactive; while headaches, dizziness and bad feelings are your daily experience.

In all such cases almost instant relief is afforded by the use of Smith's Pineapple and Butternut Pills, which are a marvelous success in curing all forms of liver complaint, including biliousness and jaundice. They restore an inactive and torpid liver to healthy action, regulate the bowels and cleanse the blood. A week's use of Smith's Pineapple and Butternut Pills by a bilious or constipated person will make life really worth living. They are invaluable for all stomach, liver and bowel troubles. Physicians use and recommend. They form no habit. You should always keep them on hand. These little Vegetable Pills will ward off many ills.
