THE CITIZEN, WEDNESDAY, DEC. 28, 1910.

Reach General Navarro. RE-ENFORCEMENTS ON WAY. SHE LEAVES TWO MILLIONS.

With Added Strength and Field Guns Government Men Probably Will Be Able to Drive Insurrectos Back to the Mountains.

El Paso, Tex., Dec. 22.-Calmer survey of the situation following the repulse of the Mexican troops in Mal Mary Elizabeth Caldwell of Louis-Paso, west of Chilmahua, shows that the battle was a greater victory for the insurgents than believed, even after forty-two wounded had been brought into Chihuahua and the federals had admitted the death of twenty-one. It now develops that about thirty wounded were not brought on the train to Chihumbua, but are held in camp at Bustillos, to which point the federals were forced to retreat after the ambuscade.

It also develops that when the federals retreated they left many of their wounded and dead on the battleneid and that it was only after the rebels. had left that the wounded and dead were picked up.

The victory of the rebels has given great impetus to their cause, and Thune, Americans who expressed confidence in the ability of Mexico to end the re- She and her sister when scarcely of beliion in a few days now shake their. heads doubtfully.

The railroad is out of business, and the insurrectos hold the mountain at the Convent of the Sacred Heart passes. General Navarro still is at Pedernales without food and supplies, and his condition appears serious. The bring up from the rear, and by sheer force of numbers after many more reenforcements are moved into the state from the City of Mexico they may be able to beat back the rebels. This will only run them farther into the mountains. The infested country is almost impenetrable.

Pasquale Orozoco, the chief of arms of the insurgents, has issued a proclamation calling on all patriots to rise and join the rebels. He declares that they have not yet lost a battle and that they have demonstrated that It is possible to cope with the Mexican army.

Two train loads of troops carrying field pieces and ample ammunition en route from the City of Mexico to Chihuahua will reach Chibuahua some time today. They will be sent overland to relieve General Navarro. The troops will act as a convoy for supplies for the army now bottled up and surrounded by the rebels.

It is feared that the Americans at Temoscha and Madera, of whom there are many, will soon be suffering for want of provisions, as the trains have been stopped since a week ago.

ARRESTS CAUSE SUICIDE.

this country in the diplomatic service of Germany. He was a talented musician and prominent socially at Washington, as was also Miss Caldwell.

firemen had succeeded in getting under control a fire which gutted the five story brick building occupied by B. Friedlander & Co. as a leather factory one of the towering walls toppled and fell, burying firemen who were working near it beneath a mass of brick and plaster.

11 o'clock. Two of the remaining walls collapsed directly afterward. Sixteen firemen have been taken from are dead. It is estimated that at least twelve or lifteen more were under the 311115.

It is impossible to find James C. Baxier, chief of the fire department, and it was feared that he was one of

Find Him a Wife.

New York. Dec. 22. - "Ladies b scairs" in Oregon, writes one of the latest communicants with the city hall who wants Mayor Gaynor to help him to open up a correspondence with ; those buried beneath the burning mass. prospective wife. The letter reads as

make a grotesque face and set us all into a "iit of giggles." Perhaps this sounds very silly, but in reality it is part of the plan to relax entirely from dignity and restraint.

About a glowing fire the trio, as Dick calls Dorothy, Margaret and me, wore sitting drinking tea the other afternoon and eating the most delicious new tea dainty, a concoction of Margaret's. Before getting down to the gist of the story let me say that this same dainty was nothing more than a small round, rather thick biscuit plentifully sprinkled with cream cheese, in the center of which alluringly reposed a maraschino cherry, but it was fine. Suddenly one of us made a remark about a certain pretty woman being so "fond of dress. "And why shouldn't she be?" spoke up Dorothy. "It surely is one of the special and important duties of a wom an to be fond of dress and to exercise all her faculties to make that fondness obvious." And I, supporting the cause, made my little speech to the effect that a New York clergyman arrived in a talk from the pulpit recently at a sensible conclusion about woman's dress. Ha had the courage of his conviction and denounced the dowd, and he had the temerity to advise men to choose as wives those girls whose gowns are modeled after the latest fashion and hats of the newest shapes. Just think of such indorsement for the freak hats of the season. Now, according to my mind, this i common sense. It helps refute the old theory that if a woman takes an in terest in dress she is a frivolous, brain less idiot. As a matter of fact, a new hat, a gown in which she feels sh looks well, has a perfect tonic effect on a woman and no less on the people with whom she comes in contact. Take what is called a "fashion plate" into an assemblage of badly gowned wom en and watch the effect. They may disapprove, but they will feel their in feriority. They may be younger in years, but they instantly feel older in spirit. They realize that they have missed something that can only be imparted by the knowledge that one is good to look upon, and, though a woman may be plain and past her firs youth, she may feel assured that she is this if her clothes are up to date. The clergyman goes the length of pointing out that the woman who likes to be in the "latest fashion" is not likely to be a dull housewife or a social failure, while her opposite is likely to have a dreary mind and manner and be narrow in her views.

Buffalo, Dec. 22 I am committing suicide because I am tired of life and of trying to avoid arrest by the police. I am disheartened. I have never harmed any person except myself, but the police would not let me alone."

So wrote Horace Reed, thirty years old, to County Probation Officer Colley just before taking cyanide of potasslum in a police station cell. The man was well known among the druggists of a certain section of the city because ted. of his foudness for cocaine. He had been on probation for about a year and had cured himself of the cocaine habit. Two detectives had repeatedly ar-

rested him for vagrancy, although he was working and supporting himself.

BIG FIRE IN CINCINNATI.

Three Killed: Property Loss Will Reach \$2,000,000.

Cincinnati, Dec. 22.- A most destruc tive fire swept through the manufacturing section of the city, costing three lives and damage estimated at \$2,500,-000. Seventeen persons were injured.

The blaze, which originated in the building at the corner of Ninth and Sycamore streets, housing the Krippendorf-O'Neill company, shoe manu facturers, and other concerns, raged for more than seven hours, and it required the complete fire fighting force of the city to subdue it.

Two of those killed were firemen, who herolcally risked their lives in fighting the flames. Nine large buildings were destroyed or partly wrecked.

KID M'COY IN DIVORCE SUIT.

Pugilist Doesn't Appear When Case Brought by Wife Is Tried.

New York, Dec. 22-An undefended suit for divorce brought by Mrs. Lillian Estelle Selly against Norman L. Selby, better known as Kid McCoy, is being tried in the supreme court here. ing. Mrs. Selby was the widow of Bud Ellls when she married Selby on Oct. 19. 1905.

She had inherited a small fortune from her first husband, whose father was one of the founders of the loco motive works at Schenectady. Selby had been married twice before.

Weather Probabilities. Fair weather and slowly rising temperature; tomorrow snow and warmer; moderate variable winds, becoming south and southeast

The first of the victims hauled from the ruins was Charles McConnell. His rescuers declared that he was dead when they got to him. The other

eleven men were all hadly injured. The fire was discovered shortly after 9 o'clock. With few exceptions every fire plug in the vicinity was frozen up and out of commission. Without sufficlent water the firemen were powerless, and the factory was rapidly gut-

When the flames had begun to die down of their own accord ladders were placed against the walls of the building, and a score or more of firemen entered the burning ruins. Without warning the walls toppled over with a rash, carrying with it the ladders and the firemen on it. Rescuers began work at once.

MAGNATE TO RAISE CHICKENS.

George B. Markle, Mining Man. Will Always Have Fresh Eggs.

Wilkesbarre, Pa., Dec. 22.-Deter mined that in the future he will run no risk of not being able to have as many strictly fresh eggs and chickens as he desires, George B. Markle, a mining and railroad magnate of Luzerne county, is having installed at his farm at Espy, near here, incubators with a capacity of 6,000 eggs, and he intends to raise chickens by the thousands.

The farm is to be one of his pet rec reations, and he has already put a large amount of money into it.

MORTGAGED FOR \$16,500,000.

On the Gimbel Building In New York a New Bond Issue Is Made.

New York, Dec. 22 .- A mortgage for \$10,000,000 has been recorded by the Greeley Square Realty company, the holding company for the Gimbel build-

The mortgage secures an issue of twenty-year-old gold bonds. The property already was mortgaged for \$6. 500,000.

Explusion Kills One. Newburg, N. Y., Dec. 22-The powder house of the Pittsburg Contracting company, several miles from this city, blew up, killing an Italian workman who was in the building. The concussion was so great that it shook buildings and broke windows for miles around.
