

THE WEEK IN WAYNE

WHAT THE FOLKS IN THE SHIRE ARE DOING.

INDIAN ORCHARD.

Special to THE CITIZEN.

Indian Orchard, Pa., January 24.—When in need of a 'phone, use the Bell.

Ice harvesting, drawing lumber, feed, etc., repairing and building keep men and teams busy and the icy conditions of the roads makes a harvest time for blacksmiths.

Everyone seems to be enjoying this beautiful weather; surely this is "paying" for the past stormy weather.

We are glad to report that Mrs. G. S. Meyers' arm is nearly well although very weak.

Howard Bishop and wife, East Honesdale, spent Sunday afternoon at I. K. Bishop's.

Mrs. R. Lettwich recently entertained E. Gathel, wife and son of White Mills, O. E. Lettwich and wife and William Rogers and wife, of Honesdale.

Cora Weeks has returned from visiting her sister in New Bedford, Mass., and friends in New York city and reports a most enjoyable trip.

A number of people in this vicinity have been quite indisposed with the grip; some of the school children are having the chicken pox.

One of Earl Ham's horses was quite badly off by being kicked by its mate.

Laura and Jesse Ham spent Sunday afternoon with friends at Swamp Brook.

Miss Lovell, Swamp Brook, is making her home with her brother, George, for the present at this place.

Mrs. L. Case is spending some time at Hawley.

One of Mr. and Mrs. William Aveny's daughters is quite seriously ill. Pneumonia was feared.

Maude and Horton Smith attended the funeral of their aunt, Mrs. John Wannacott, Honesdale. Mrs. Smith was unable to attend being sick herself.

James Stewart and wife, Englehart, spent a few days with F. Moyer and wife.

Chester Maloney and family, East Honesdale, were recent guests at C. T. Week's.

WHITES VALLEY.

Special to THE CITIZEN.

Whites Valley, Pa., January 25.—Mrs. Simon Pomery has returned home after spending several weeks with her son, Howard, at Lanesboro.

Miss Anna M. Hauser is visiting Mrs. Henry Bartholomew at Maple Grove.

Mrs. S. P. Crossman is very ill with the grip.

Mr. and Mrs. George Sherwood, who have been sick with pneumonia, are recovering.

D. E. Hacker returned Monday after spending a few days with Dr. and Mrs. L. E. Perkins at Scranton.

Mr. and Mrs. Clarence Bryant left Monday for Carbondale where they will visit the latter's sister, Mrs. Nelson Hutchins.

Several men are engaged in storing ice for Smith & Sons new butter factory.

Miss Anna Fitze is spending several days at M. D. Fitze's in Aldenville.

Mrs. Evelyn Bonham is sick with the grip. Her mother, Mrs. Richard Glanville, Pleasant Mount, is caring for her.

LEDGEDALE.

Special to THE CITIZEN.

Ledgedale, Pa., January 25.—Mrs. Friend Simons entertained the L. A. S. of this place Thursday, January 19, and all reported a very pleasant day. Proceeds \$4.30.

Mrs. John Becker and Mrs. William Martin, also Edna Becker and Olive Martin went to Scranton Friday last. They expect to call on their husbands who are employed at their husbands who are employed at Isaac Martin has been employed helping George Roese fill his ice house.

Miss Agnes Beahan spent Saturday and Sunday with her parents at Hawley.

Willie Patterson, Gouldsboro, and Matthew Harloe, Rocky Glen, returned home Saturday evening to attend their aunt's funeral, Mrs. David Patterson.

Miss Henrietta Stermer called on Cora Martin Sunday afternoon.

Bert McKane passed through here on his way home last Sunday.

Thomas Marjorie has been cutting corn stalks for F. B. Simons. He moved his gasoline engine home last Friday.

George Roese made a business trip to Ariel on Tuesday.

The men from this vicinity that were employed at Jones' saw mill, have not worked for the past two weeks on account of the condition of the roads.

BETHANY.

Special to THE CITIZEN.

Bethany, Pa., January 23.—A. O. Blake returned from Honesdale on Tuesday and left during the week for Pleasant Mount.

Miss Marjorie Hauser is being entertained by her cousin, Mrs. Bennett Chappel, of New York.

Mrs. John Ballou and daughter, Ira, attended the funeral of Mrs. Ballou's nephew, aged four years, at Green Ridge, on Friday, returning home Saturday.

Mrs. Charles Selfarth, Scranton, came Friday to spend a few days with her mother, Mrs. H. N. Miller.

Mr. and Mrs. Maurice Fitze and children, Aldenville, spent Sunday at Mrs. George Hauser's.

Rev. and Mrs. W. B. Signor left on Sunday for Thornhurst. Rev. Signor will preach the funeral sermon of a member of his former charge.

Mr. and Mrs. Leroy Hauser, Honesdale, spent Sunday with Mr. and Mrs. William Hauser.

An oyster supper will be served in the Presbyterian church dining-room Wednesday evening, January 25. Price 25 cents.

Charles W. Sutton is suffering from a bronchial affection.

ARIEL.

Special to THE CITIZEN.

Ariel, Pa., January 25.—Last Wednesday evening the writer had the pleasure of listening to a very interesting sermon delivered by Rev. J. W. Hurlinger, Lancaster, Pa. Mr. Hurlinger is field missionary agent for the Seventh Day Adventist people and he certainly understands his work.

Miss Elsie Smith, New York, is visiting her mother, Mrs. Emma Smith, Ariel.

Mrs. Parmor, East Lake Ariel, is visiting friends in Scranton.

EQUINUNK.

Special to THE CITIZEN.

Equinunk, Pa., January 24.—James Curtis Layton, a former resident of this vicinity, died at his home in Mattawan, N. Y., January 2, of Bright's disease. Deceased was born at Little Equinunk 57 years ago and spent his boyhood days in this part of Wayne county. He is survived by a wife and two married daughters. His funeral was held from his late home Thursday afternoon, January 5, the service being conducted by Rev. Harry Sheldon, pastor of his church. Mr. Layton was employed in the Dutchess Hat Works where he had been for the past thirty years. To show the high esteem in which he was held by his employers, the factory was closed the afternoon of the funeral and a number of the employees were in attendance. A number of floral pieces from family friends and the Dutchess Hat Works were sent. Interment was in the Fishkill Rural cemetery. Mrs. William Kellam, Hancock, Mrs. Riefler and Mrs. Thomas of this place are sisters of the deceased, and Jos. Layton is a brother.

CENTERVILLE.

Special to THE CITIZEN.

Centerville, Pa., January 24.—Mrs. David Patterson, a highly esteemed resident of this place, died at her home with pneumonia on Wednesday evening, January 18. She leaves a husband and a large family to mourn her loss. She was well liked by all who knew her and has a large number of friends in this place. Much sympathy is felt for the bereaved family.

A large number of people in this vicinity are suffering with the grip. Anna Walker is visiting her sister, Mrs. Royal Fowler, Hawley.

Mrs. John Becker and daughter, Edna, are visiting friends in Scranton.

Spraying Outfits.

At this season of the year many letters reach the office of Prof. H. A. Surface, Economic Zoologist of the State Department of Agriculture, Harrisburg, Pa., asking for information on the type of spray pump to purchase for use in their orchards.

The following letter is published in the hope that it will answer many questions in the minds of citizens of this state who are contemplating the purchase of spraying outfits:

"I have your letter of recent date and note that you are about to purchase a spraying outfit, and ask me what kind of a pump to buy. In order to advise you intelligently I should have to know a number of things about your orchard, its extent, and the size of your trees or crops to be treated, and as I am not acquainted with your needs, I shall have to confine my reply to a general discussion of spraying machinery.

As stated the type and size of spray pump should be selected to meet the needs of the work to be done. For spraying shrubbery about the house, or small fruit bushes and garden crops, the small and inexpensive hand sprayers or compressed air or knapsack sprayers can be used with good results, since while it requires more time to cover a given amount of work than with the larger sprayers, where one has plenty of time, the small hand sprayer will do the work with the least outlay for apparatus. Please do not, however, make the mistake of attempting to spray large fruit trees with a small hand sprayer, as no effective work can be done, and all attempts of this kind tend to discourage and disgust the beginner in the important and profitable work of spraying.

For the ordinary farm orchard, containing two or three dozen fruit trees of various classes, such as apple, peach, plum, pear and cherry, I would recommend the use of the ordinary barrel spray pump. These outfits are manufactured by many concerns, and consist of a force pump with air chamber mounted in a barrel to receive the spray fluid. Attached to the pump there should be from 25 to 50 feet of discharge hose, and to this fitted an extension tube or rod of about 8 feet. The extension rod is important, since it is only by this means that the spray can be applied to all parts of the tree effectively. Fine spray can not be blown more than 3 or 4 feet, and any sprayer which is recommended to send the fluid from the ground to the tops of tall trees, you may know does not atomize the application sufficiently to do good work. The nozzles should be connected with the spray rod by means of a one-eighth turn or elbow, which will enable the operator to turn the spray in all directions by a rotary motion of the rod.

The nozzles are a very important part of the make up of any spray pump, and care should be taken in choosing these. Select the larger types which contain wide channels inside and are provided with removable steel discs of different sized apertures adapted to various kinds of work. These are not only more durable than nozzles, the cap of which is made of brass, but will not clog as will those that have narrow and tortuous channels. Avoid the old-

fashioned Vermorel as these are entirely superseded by the improved kinds.

In the selection of a barrel sprayer, or indeed any sprayer, the most important points to consider are: Simplicity of construction, i.e., spray pumps should be as simple as possible, containing no more parts than are necessary, and there will be then less to get out of order. All parts of the pump should be readily accessible, in order that repairs when needed can be easily made.

The durability of a pump depends upon the quality and kind of the material used in its construction. Valves, plungers and stuffing box should be made of such material as is not corroded by the spray fluid. Brass is the metal used in the best pumps, and is so much better than iron that no difference in price should lead anyone to buy those whose working parts are made of iron. Porcelain and glass would seem to be the ideal material for the construction of some of these parts, but with one or two exceptions they are not now in use. A wrought iron handle on a spray pump would be a great improvement, as the cast-iron handles are soon broken on spray pumps owing to their constant handling.

The packing of the cylinder should be of a material that is both lasting and also easily replaced when worn out. Hemp, candlestick, steam packing and various other packings made of these materials under trade names are the best. Leather hardens too rapidly to be of much use as packing, and is undesirable.

For a large number of small trees and field crops the favorite type to use would seem to be the traction sprayer. This machine generates its own power by having a pump geared to the wheels. Six rows of potatoes or two rows of trees can be treated simultaneously with the best traction sprayers.

For large orchards of bearing trees the proper outfit to use is the power sprayer. These are of two kinds, viz.: Gasoline and Compressed Air. The Gasoline sprayers are fitted with an engine which generates the power as needed, while the Compressed Air sprayers are operated by a tube charged with a stationary engine with a pressure of upwards of 200 pounds to the cubic inch. This charged tube is attached to the spray tank from which it forces the fluid as needed.

I think it wise to get an outfit with a somewhat greater capacity than the orchard now needs, since the work is sure to increase with the growth of the trees."

UNTHRIFTY FRUIT TREES.

The owner of an orchard in the southern part of the state writes to Prof. Surface, Economic Zoologist, of the State Department of Agriculture, stating that his young fruit trees are unthrifty, and not making the amount of growth necessary. Suspecting insect injury, he writes for information. Prof. Surface's letter to him is given herewith, commenting incidentally upon neglected orchards:

"The best treatment of your young orchard is to keep it in absolutely clean cultivation during the first half of the growing season, and cover crop, such as crimson clover during the second half and during the winter. However, if you can not do this the next best is to mulch it well with barn-yard manure, even if you find it best to buy the manure in order to do this. If this is impossible, a third resource is, to use commercial fertilizer. I would recommend the use of a complete fertilizer, or one containing some phosphoric acid, potash and nitrogen. Nitrate of soda alone is good to push the growth, but does not give the strength of wood, nor quantity and color of fruit, which is to be obtained from commercial fertilizer. By this I mean fertilizer about such as is to be called a good potato fertilizer, using from five to ten pounds to the tree, according to the size of each. The nitrate of soda can be used applying from one to three pounds to a tree according to size. It should be applied in the early spring as soon as growth is started, and renew it once in four or six weeks. One or two applications are enough.

"All of your trees should be severely trimmed back this winter. If you wish to push their growth, remember that it will invigorate them to prune them back severely. In addition to the commercial fertilizer, you should by all means, use some kind of mulch, such as straw or leaves around them, if you can not cultivate them; but more earnestly than this, I would advise you not to undertake to grow an orchard if you can not give it cultivation and proper attention. There are thousands of persons in this country who think they can plant trees and continue in some other business, while the trees are growing into profits. This will prove a losing enterprise, as such orchards will not thrive without proper attention, and in fact, considerable expense. These orchards will be for sale in the course of a few years, and some person will probably buy them at a price that will be a sacrifice to the original planter, but with pruning, spraying, and cultivation, as well as proper methods of cover crops with but very little fertilizer, indeed, he will build them up, and make good orchards.

"I note that your trees were fifteen feet tall when taken up and transplanted. I doubt if it is possible to transplant any such trees and make good trees of them afterward. I can assure you that I would rather have a one-year-old tree transplanted and cut back to a whip, than a fifteen-foot tree transplanted and cut back to six feet.

"If the trees have started now, it is not necessary to feel so discouraged as to think they should be taken out, but I am satisfied that you should have something more than a mere scattering of nitrate of soda or other commercial fertilizer around

them. Also, you should watch carefully and see if they are infested with San Jose scale or other pests, and if so, they should be sprayed with the right material at the right time and in the right manner. I trust you will not think that I am criticizing you too severely, as I write this communication in a spirit of helpfulness, rather than of criticism. If I can extend to you any further service, I shall be glad to do so."

Ants and Roaches.

For the destruction of Ants and Roaches, which often become annoying in the household, the following letter by Prof. Surface, Harrisburg, to a Chambersburg lady will be found interesting:

"You can kill the water bugs or roaches, of which you write, by putting where they can get it, a preparation known as 'Roach Food,' which is for sale by many of the drug stores or department stores. Also, I understand that a preparation of two parts flour, one part powdered sugar, and one part plaster of paris, mixed well together, and left where they can eat it, will kill them, and will be perfectly harmless. Powdered borax blown into the cracks they inhabit will drive them away.

"For the ants it is best to trace them to their nests, by following the path which they make, and when this is located, which may be down the side of the wall, or in a stump of a tree, pour into it a quantity of benzine, gasoline, or even common kerosene oil. If you can thus kill the queen, you may be sure that the entire trouble will be entirely and permanently ended.

"You can catch many of them by dipping a large porous sponge into dilute syrup or sugar solution, and placing it where they can get into it, and then occasionally dropping it into boiling water, and afterward baiting it, and placing it again for them."

OLD FASHIONED WINTER.

Same old snowstorm
Full of wrath.
Same old snowdrifts
In the path.
Same old shovel
For the work.
Same old loafer
Wants to shirk.

Same old pavement
Smooth as ice.
Same old sup-up
In a trice.
Same old tumble
Fit to kill.
Same old surgeon,
Same old bill.

Same old zero
Skulking round,
Same old hoarfrost
On the ground.
Same old blizzard
Fierce and bold,
Same old winter,
Mighty cold.
—Unidentified.

THE LADIES' AID.

We've put a fine addition on the good old church at home, It's just the latest kilter, with a gallery and dome. It seats a thousand people—finest church in all the town; And when 'kias dedicated, why, we planked ten thousand down; That is, we paid five thousand—every deacon did his best— And the ladies' aid society, promised all the rest.

We've got an organ in the church—very finest in the land; It's got a thousand pipes or more, its melody is grand. And when we sit in cushioned pews and hear the master play, it carries us to realms of bliss, unnumbered miles away. It cost a cool three thousand, and it's stood the hardest test; We'll pay a thousand on it, the ladies' aid the rest.

They'll give a hundred sociables, cantatas, too and teas; They'll bake a thousand angel cakes, and tons of cream they'll freeze. They'll beg and scrape and toil and sweat for seven years or more, And then they'll start all o'er again, for a carpet on the floor. No, it isn't just like getting out the money from your vest. When the ladies' aid gets busy and says, "We'll pay the rest."

Of course, we're proud of our big church, from pulpit up to spire; It is the darling of our eyes, the crown of our desire. But when I see the sisters work to raise the cash that lacks, I somehow feel the church is built on women's tired backs. And sometimes I can't help thinking, when we reach the regions blest, That men will get the toil and sweat, and the ladies' aid—the rest.

Old Coins in a Secret Drawer.

From the village of Breamore, Hampshire, is reported a discovery of old coins under singular circumstances. At a rummage sale at the rectory remains were disposed of by Dutch auction, and this lot included an old writing desk, which was secured for 1s. 6d. A secret drawer contained thirty gold coins, guineas of George III's reign. The box and its contents have since been returned to the original owner.—London Standard

Thrifty Woman Golfers.

Those who grumble at golf as expensive do not take into consideration how much its pursuit may save in clothes. Women who are devoted to it spend most of their time on the links and thereby avoid much necessity for elaborate frocks, and you can have many 'weeks' golf for the price of one smart dress.—Madame.

Rabbits Plentiful.

In Cornwall, England, 500 rabbits are often trapped in a week out of the deep hedges surrounding the fields. Trappers will sometimes pay \$150 or more for permission to kill rabbits over a moderate sized farm during a single week.

HAWLEY

Special to THE CITIZEN.

Hawley, Pa., January 24.—Many are still in the toils of King Grip. Since our last writing two more homes in our town have been made desolate by the entrance of death. On Friday, January 13, Frank J. Thornton died at his home at the Eddy of consumption of the lungs after an illness of about two years. He was a glass cutter of much ability and had been employed by the Maple City Glass Company. He was highly esteemed by a wide circle of friends who, together with a body of Hawley Odd Fellows, which lodge he was a member, gathered at his late home Monday afternoon where the funeral services were conducted by his pastor, Rev. B. P. Ripley. The deceased was born in Detroit, Mich., September 20, 1861. His immediate survivors are his widow and four children—Charles, Edith, Edna and Earl. He was laid to rest in the Walnut Grove cemetery, the Odd Fellows having charge of the burial service.

Mrs. Jennie Tuthill, wife of F. R. Stevenson, passed away at her home at the Eddy Sunday evening, Jan. 15. She had been ailing for a long time with stomach trouble and it was decided by her physicians that an operation was necessary and on Wednesday, January 11, the operation was performed by Dr. Lambert, Port Jervis, assisted by Drs. Skinner and Gesser of same city, and Dr. G. T. Rodman of this place. They found an adhesion of the stomach to the outer abdominal wall to be the trouble. She rallied from this and it was at first thought she would recover, but peritonitis set in and all hopes were abandoned. Deceased was born in Hawley in the year of 1863. She was a loyal and true friend, a loving and devoted wife and mother whose departure from the home leaves the sorrowing husband and two sons, Harry and Robert, almost inconsolable. The funeral services were held from her late home Wednesday afternoon at 2 o'clock. Hope Chapter, No. 9, Order of the Eastern Star, of which she was a member, had charge. Rev. E. D. Minch, Damascus, a former pastor of the Baptist church of this place, was the officiating clergyman. Burial in the Eddy cemetery. The sympathy of the community goes out to these bereaved ones.

Friends of our genial postmaster, D. J. Colgate, are gratified to know

that he has been reappointed as Hawley's postmaster for the ensuing four years.

Miss Jennie Sheridan has gone to Middletown to fill the position of fore lady in a silkmill operated by Harry Kimble of this place, who also conducts a business of the same kind at East Hawley.

George W. Lobb has purchased of Mrs. Bridget Howley, Port Jervis, her property on Maple Avenue; consideration \$1,100. Mr. Lobb has had the old building taken down and will erect a new house with modern equipments.

The Hippodrome presented "Uncle Tom's Cabin" to a full house last Thursday and Friday nights. The pictures were clear and very real-looking.

Mrs. R. H. Ely has been confined to her room with illness several weeks.

The wedding ceremony of Bessie Butler and James Dougherty, both of Marble Hill, was solemnized in St. Philomena's Roman Catholic church Wednesday morning, January 10.

Mrs. Albert Oeschman and little son, Edward, who have been making an extended visit in New York city, returned home Thursday evening accompanied by her sister and little son who will spend some time here.

The I. O. O. F. lodge will hold a dance and serve an oyster supper in their hall on Washington's Birthday night. Price of supper 25 cents. Cordial invitation extended to the public.

Ida Spangenberg, Honesdale, visited friends here Sunday.

Mrs. William Sheely and daughter, Lucy, are recovering from a severe attack of the grip.

The gymnasium exhibition at the High school auditorium on Friday night was well attended and quite a sum realized.

George A. Smith, whose home is now at Dallas, Texas, has been visiting in town.

R. W. Murphy and D. J. Branning were at Honesdale on business last Saturday.

The Hawley Bank opened its doors for business on Thursday. Thomas Minch, Damascus, was on hand, also Jos. A. Fisch, Honesdale, assisted Cashier Houck in handling the specie.

Mrs. Ruth Ekbeck, young wife of Horace Baxter, died at home of her mother, Mrs. Ekbeck, of Winding Hill. Deceased was 23 years of age.

+ List of candidates with votes counted up to 6 p. m. Wednesday.
+ *****

DISTRICT NO. 1.

This includes all the Borough of Honesdale and all of Texas except Texas No. 3. A tour of Bermuda, a diamond ring and a gold watch are sure to go to this district.

CANDIDATES.	COMPANION.	VOTES.
Miss Helene Purdy	Miss Frances Purdy	1,043.80
Miss Edna Hawker	Miss Ethel Hawker	748.312
Miss Margaret O'Brien	Miss Margaret O'Brien	606.96
Miss Clara Saunders	Mrs. R. B. Brennerman	464.94
Miss Blanche Secor	Miss Blanche Secor	348.48
Miss Annie Ripple	Miss Annie Ripple	260.58
Miss Alma Campfield	Miss Alma Campfield	247.68
Miss Vera Rickard	Miss Vera Rickard	251.15
Miss Lucy Murtha	Miss Lucy Murtha	291.66
Miss Gertrude Krantz	Miss Gertrude Krantz	408.30

DISTRICT NO. 2.

This includes Hawley Borough, Texas No. 3, and all of Palmyra, Berlin, Oregon, Damascus and Paupack townships. A tour to Bermuda, a diamond ring and a gold watch are sure to go to this district.

CANDIDATES.	COMPANION.	VOTES.
Miss Helen Lehman	Miss Lena Lehman	1,029.21
Miss Elizabeth Tuman	Miss Elizabeth Tuman	822.14
Miss Josephine Spinner	Miss Josephine Spinner	665.97
Miss Alma Noble	Mrs. H. C. Noble	517.08
Miss Hattie Seipp	Miss Sadie Walsh	350.76
Miss Clara Gaston	Miss Catherine White	318.72
Miss Fannie Fromer	Miss Musette Appley	314.94
Miss Frances Robinson	Miss Wilma Knapp	288.12
Miss Nellie Langan	Miss Susie Banks	668.99
Miss Hazel D. James	Miss Lena F. Osborne	449.4

DISTRICT NO. 3.

This includes Bethany Borough, Starrucca Borough and Clinton, Lebanon, Mount Pleasant, Manchester, Buckingham, Preston and Scott townships. A tour of Bermuda, a diamond ring and a gold watch are sure to go to this district.

CANDIDATE.	COMPANION.	VOTES.
Miss Alice Ward	Miss Alice Ward	1,027.16
Miss Mary Gilchrist	Miss Myrtle C. Heywood	608.02
Miss Estella McAvoy	Miss Estella McAvoy	511.27
Miss Blanche Blake	Miss Lena Coffrey	464.40
Miss Adelaide Watson	Miss Adelaide Watson	422.32
Miss Susie McGraw	Miss Susie McGraw	284.71
Miss Viola Allen	Miss Mary Allen	283.75
Miss Grace Monaghan	Miss Grace Monaghan	675.11
Miss Mae Flynn	Miss Mae Flynn	518.5
Miss Mabel E. Waidler	Mrs. A. Waidler	501.45
Miss Alma Guitoff	Miss Alma Guitoff	444.85

DISTRICT NO. 4.

This includes Prompton and Waymart Boroughs, Cherry Ridge Canaan, South Canaan, Lake, Salem, Sterling, Dreher and Lehigh townships. A tour of Bermuda, a diamond ring and a gold watch are sure to go to this district.

CANDIDATE.	COMPANION.	VOTES.
Mrs. Frank Walts	Mrs. Frank Walts	519.27
Miss Olive Lockwood	Miss Ruth Inch	513.181
Miss Ella Ehrhardt	Miss Ella Ehrhardt	508.48
Miss Cora Alt	Miss Alma C. Peet	390.87
Miss Margaret Spry	Miss Genevieve Lord	389.45
Miss Cora Miller, R D 2	Miss Vera Murray	382.77
Mrs. Orpha Swingle	Miss Dennie Swingle	376.67
Miss Lullela Cross	Miss Rose Angels	298.48
Miss Elsie M. Howe	Miss Elsie M. Howe	785.8
Miss Emma Bates	Miss Emma Bates	492.0
Miss Agnes E. Beahan	Miss Agnes E. Beahan	492.0
Miss Frances Richardson	Miss Frances Richardson	457.6

THE TALLY.

It isn't the job we intend to do
Or the labor we've just begun
That puts us right on the ledge
sheet.
It's the work we have really done.
Our credit is built up on things we
do.
Our debit on things we shirk.
The man who totals the biggest plus
Is the man who completes his
work.

Good intentions do not pay bills;
It
