MONEY ENDS M'ALA-VANDERBILT D.SPUTE

Divorced Husbano, For a "Lump Sum," Agrees Not to Sue.

It has just been learned that a compromise agreement has been signed in New York by which Dr. Smith Hofins McKim for a valuable consideration agrees not to institute proceedings for the alienation of the affections of his wife.

Those who were to have been defendants are Dr. McKim's father-inlaw, Captain Isaac E. Emerson; his former wife, Captain Emerson's daughter, and Alfred G. Vanderbilt. The agreement was the result of a conference in New York.

Papers were signed at this conference which release Mr. Vanderbilt, Captain Emerson, his daughter and Mrs. Frederick McCormick from any legal action resulting from Mrs. Mc-Kim divorcing her husband. Dr. Me-Kim was awarded a sum of money, which will be paid in semiannual installments, as well as a lump sum, which was awarded chiefly for coun-

The agreement was the result of a series of conferences. Reports have been made from time to time that Dr. McKim intended to bring suit against Mr. Vanderbilt for alleged alienation of his wife's affections, and there have also appeared reports that an engagement existed between Mrs. McKim and young Vanderbilt.

LANGFORD WHIPS LANG.

Australian Fouls In Sixth Round on Seeing the Negro Winning.

The greatest interest was manifested in the fight which took place in London between Bill Lang, heavyweight champion of Australia, and Sam Langford, the negro pugilist of Boston, for a purse of \$17,500 because of the fact that McIntosh, the organmer of the match, promised the winner match for \$45,000 with Jack Johnson. Nearly 8,000 people watched the aght. The gate receipts amounted to \$45,000, which is a record for a fight in London.

Langford had the fight all his own In the sixth round the negro got Lang in a corner and suddenly shot out his right for his opponent's jaw. Lang ducked, and the negro missed and slipped to his knees. Before he could rise Lang gave him an appercut with his right. Referee Cori instantly disqualified Lang for fouling and gave the verdict to Langford.

DIES IN TWO FEET OF WATER

Girl Breaks Through Ice and Freezes After Long Struggle.

Her frozen hands still clinging to the ice and the balance of her body still submerged, the body of Miss Bessie Margaret Pierce, nineteen years old, of Cochranton, Pa., was found in a swall near her home, where she had perished. Miss Pierce had started out for a walk, and, failing to return, a search was made.

The girl had started to return home across fields that had recently been everflowed with water to a depth of from one to four feet, the water being left in pools which had frozen over. The trail showed that she had broken through the ice several times. There were signs of a struggle until at last, exhausted, she broke through where the water was about two feet deep and there perished.

SPENT \$6,000,000 FOR TOYS.

Nuremberg Profited by Demand From American Children.

The bulk of the American toy purchase at Nuremberg for 1910 has been figured, and it is notable that it is considerably larger than in 1909.

For the first nine months of last year the declared value of the toys shipped from that district to the United States was \$1,854,319. This is \$246,186 greater than the shipments for the same period of 1909 and only \$50,058 less than the shipments for the entire year. Toy exports to America for the last quarter will probably reach \$350,000, making the total for the year something over \$2,200,000, an increase of more than 15 per cent over

These toys pay an average of 35 per cent duty, or a total of about \$770,000, and thus without taking account of freight they cost the American importers in round figures about \$3,000,000. From the best information obtainable 100 per cent is a small figure to add for freight charges, profits of wholesalers and profits of retailers. Thus the toys bought in the single city of Nuremberg last year for the amuse ment of the boys and girls of the nUited States cost the American donors the round sum of \$6,000,000.

NO LIMIT TO ANNEXATION.

President Taft After the Aurora Borealis Next.

President Taft talked territorial expansion recently at the dinner given in honor of Secretary Knox by Representative David J. Foster of Vermont, chairman of the house committee on foreign affairs. He said, when asked to speak, that he wished to emphasize the importance of the state department and hoped the subject would not cause surprise.

"Our attention has recently been called to the subject of annexation," said the president, turning laughingly to the British ambassador, who was a guest, "and that's something Mr. Bryce and I ought to have a little confidential chat about"-

"Look out." broke in Secretary Knox: "they'll think next we're after Australia," and his caution aroused laughter, in which the president and ambassador Bryce Joined heartlly.

"But I want it distinctly under stood," continued the president, "that if we are going to embark in the an nexation business we must at the ear liest opportunity annex the aurora borealis."

Drop Opium For Cigarettes. While the native Chinese is being gradually driven from the use of opium, he is being educated in the consumption of cigarettes, the imports of which amounted to \$3,466,100 in 1909, an increase of 14.75 per cent over 1908. In addition to the number lost almost a week before they reached of cigarettes imported millions are made each year in the empire.

HOBSON PREDICTS A WAR WITH JAPAN

U. S. Will Conquer Kingdom.

Japan and the United States will go to war in the near future. The confilet will begin in less than ten months. The war will last five years, perhaps ten. The Panama canal will be destroyed, and in the end this nation will carry the war to Japan and conquer that kingdom.

These are a few of the predictions made by Representative Richmond

REPRESENTATIVE HOBSON. Pearson Hobson of Alabama, former-

ly an officer in the navy, on the floor

"We will be struck," he cried, "and when we are-gentlemen may differ with me as to the time, but I firmly believe it can be counted in months on the fingers of my two hands-we will find ourselves practically powerless. The nations of the world will call on us to give up the war and not continue to disturb the peace of the world, just is we did with Russia in her war with Japan."

Representative Gaines of West Virginla asked Mr. Hobson if Japan would find it possible to finance a war with the United States."

"Japan," Mr. Hobson replied, "is the only nation today that is clever enough to finance a war."

SEVEN PERISH IN A BLAZE.

Six Children and Mother Lose Lives When Their Home at Sutton, W. Va., Is Destroyed.

Seven persons lost their lives in a fire which destroyed the home of J. D. Hardin in Sutton, W. Va. Only Mr Hardin escaped, the six remaining members of his family and a little girl who made her home with the Hardins perishing in the flames.

The fire was caused by a natural gas grate. When Mrs. Hardin awoke the entire first floor was ablaze. She called her husband, who seized two of the children and ran for a stairway, which immediately collapsed. The two children were lost, while the father was precipitated to a point of safety and made his escape. Mrs. Hardin, seeing the stairway fall, jumped from a second story window, receiving injuries from which she died later.

The bodies of the five Hardin children and that of Ada Green were cremated in the flames,

MANY SEE MAN KILL WIFE AND HIMSELF

Alabama Representative Declares Woman Fled From Jersey to New York and He Followed.

William Birdsail and his wife were observed in animated discussion on the stoop of 406 West Fifty-seventh street, New York, where she had lived since her separation from him about three months ago.

Birdsall's cruelty, it is said, had driven his wife from their home in Pompton, N. J., last November. With her three children she came to New York. where she got work in a silk factory. Some time ago her husband found her there and besought her to return to him. Not discouraged by her refusal, he met her frequently at the mill and walked home with her.

Birdsall met the woman at the mill as usual. When they got to the stoop of the woman's home they stopped as on the other occasions.

The man appealed time and again to the woman to return to him, promising to start all over and give her a happy home. All the time the woman shook her head.

This infuriated the man and he became highly excited. Men and women standing on the steps nearby heard and took notice.

As the woman turned and started up the steps Birdsall seized ber arm and swung her about till she faced him. Then swiftly he drew a revolver. As Mrs. Birdsall raised her arm with a scream, Birdsall fired a shot into her brain. This was followed instantly by four more shots and she fell to the pavement dead. The tragedy had been an uproar.

With the last shot Birdsall placed a He fell into a pile of snow. Fifty persons saw him take the poison and watched him writhing on the sidewaik, where he later died.

TAFT WASN'T BLUFFING.

President Through Representative Mo-Call Ahnounces an Extra Session if Vote on Reciprocity Fails.

Through Representative Samuel W. McCall of Massachusetts President Taft notifies congress and the country of his intention to call a special ses sion in the event of the failure of the senate to vote on the Canadian reciprocity agreement. The president's determination in this matter is disclosed in a formal statement given out the Massachusetts representative as he was leaving the White House after a conference with Mr. Taft. Opponents of the reciprocity plan in the senate had been hoping that the special session talk would prove groundless, but this statement shows that Mr. Taft is determined to force action on the treaty.

Representative McCall, obviously speaking by authority of the president. makes it clear that congress will be called back if the senate falls to vote on the agreement.

The McCall statement plain | | Imation to the Democrats that President Taft will veto any tariff revision that is not in keeping with his own theory of protective principles. This obviously is intended as a warning that any attempt by them to tack the reciprocity treaty to a radical tariff revision measure in a special session would be blocked by executive action when the measure reaches the White House.

GATES ENDS RECORD TRIP.

Covers 3,000 Miles at Mile a Minute Rate to Have Wound Treated.

The special train bringing Charles G. Gates, son of John W. Gates, from Arizona to New York arrived after a record run. The start was made from Yuma, Ariz., Thursday afternoon, and the distance of exactly 3,000 miles was covered in 74 hours 19 minutes. The final lap of 143 miles from Albany to New York was made in 143 minutes, which is a record for this trip. The 974 miles from Chicago was covered in 987 minutes. This is the record for the distance in this direction, but is twenty minutes slower than the time made by Frank A. Vanderlip's train running from New York to Chicago in 1909.

Dr. Davis met the train at the station and at once climbed aboard the Ranger. He remained with Mr. Gates for an hour and then announced that the wound, the result of an injury re ceived while cranking his automobile, had become infected, but that Mr. Gates would not lose his leg and that he had found the trouble less serious than he had expected to find it.

A Kitchen Motto.

A thoughtful housekeeper, says the Boston Cooking School Magazine, has hung over her kitchen sink a framed copy of one of Robert Louis Stevenson's prayers. "The petty round of ir ritating concerns and duties" to which he referred seemed to her a particularly appropriate phrase for the domestic routine. His petition for help to perform them "with laughter and kind faces" is a good tonic with which te roll up one's sleeves and plunge in. "Give us to go blithely on our business," prayed the brave poet stricken as he was with mortal disease, and the housekeeper echoes the prayer, however weary she may be The idea is worth imitating. vogue of the motto is widespread.
