"GET-RICH-QUICK-WALLING-FORDS!"

The country is filled with "get-rich-quick" schemes. From the good old days when you could secure a "watch for nothing"—by paying \$1 for a year's subscription to the "Podunk Register and Recorder," "What fools these mortals be," exclaims Puck, and we are rather inclined to believe he knew what he was talking about. "Get money, no matter how you get it, just so you get it" is the motto of a large percentage of the men and women in this world to-day.

And there is a reason for this frenzied and frantic rush for wealth. For money to-day, as never before, spells "power." How few rich men after all are in prison, regardless of the means by which they acquired their great fortunes. Look at the unfair sentences so many criminals receive in the large cities. If a poor man steals a loaf of bread, or a pint bottle of milk, he goes to jail for six months; while if a rich man steals a million he sometimes goes to Congress. We are not created "equal." Free we are, but "equal" never!

The best place for a poor man's savings is a Bank, even if he only draws three per cent. interest. It's safe, and he can get at it whenever he wants it. Beware of all schemes that promise to double your money in five years! It can be done—but not with safety! Shun all glittering prospectuses that offer you flattering rates of interest! Shut your eyes to those beautifully printed circular letters offering mining stocks for sale for "next to nothing!" Above all, save all the money you can, while you are able to work, and if a legitimate proposition offering a fair return for your investment comes along, take it, but first consult some business man, of unimpeachable integrity, in whom you have implicit confidence. Even then, it might be just as well to talk the matter over with your wife and perhaps, better still—to pray over it!

KEYSTONE GUARD PROBE.

The Philadelphia papers have been devoting considerable space to accounts of the testimony given at the hearing in the Dauphin County court of the attorney general's proceedings to dissolve the Keystone Guard. One of our prominent citizens figured in the case, and testified freely as to his connection with the company. Pending further developments in the matter, we are willing to accept Prof. H. A. Oday's statement to us as to his connection with the company. He said:

"We were acting under the advice of counsel. We had a right to sell our own positions, providing the money didn't come out of the Keystone Guard, and it didn't. The money was paid before the securities were turned over!"

THE MAN OF THE HOUR.

"We don't have that kind of political bosses up here in this country," remarked a politician commenting upon the performance of "The Man of the Hour," given at the Lyric Theatre, Monday evening. That is undoubtedly true. The play certainly was a startling expose of the political game as played in the great cities, and was very well received by the fair-sized audience who were present to enjoy it.

PEOPLE'S FORUM.

Does Cash Road Tax Benefit The Taxpayer Or Improve The Highways?

The question is being discussed with considerable alacrity by the taxpayers of our township. Our valuation has been increased about one-fourth, the 8 mills road tax having been levied as in previous years, over \$1500 cash tax has been paid into Treasury of supervisors.

Pathmasters were not appointed. Each supervisor with his own teams, driven by his young sons, possibly hiring a relative or friend, and occasionally a strolling hobo, hired for board, was put on road to work. In the East District which has the greater number of taxpayers, roads were in bad shape during spring and summer, no work was done until latter part of June when supervisor's teams, assisted by Treasurer of Board, put on road machine and made a hurried trip up and down our main traveled highway. In September one hill was repaired; again in October the supervisor had his men on road. During those short periods of work, neither supervisor or pathmaster was known to have been with the men.

It is generally conceded that \$300 would have been ample compensation for all actual labor expended on our roads.

Can supervisors monopolize cash road tax? Whom does cash road benefit? TAXPAYER.

JUST A WORD IN PASSING.

There are ways of doing things; and other ways. Over in Honesdale last week, the court was trying the Carl Howe case, which had been transferred to Wayne county with the compliments of the Lackawanna judges. It had been aired three times in the Lackawanna county court, and was full of nastiness, as any one who has followed the reports of any of the four trials can testify. The ladies of Honesdale, who have a commendable interest in the pretty little Maple City, as evidenced by their Village Improvement society, known to the country ever hasted to get into correspondence with the editors of the three Honesdale papers, and urge that the aforesaid editors suppress the unsavory details of the case, so that the youthful mind might not be polluted or lead to dwell on evil things by reading the salacious testimony that was bound to be given. It was a thoughtful action on the part of the prudent parents, even if some satirical persons may suggest that the Scranton papers have a large circulation in Honesdale, and that the adult population was bound to have a chance to get a peep at the details, if they wanted it. And now gentle reader what do you suppose those three Honesdale editors did about it. One of them, the Herald, which by the way, reflects a very sane and conservative mind, under the new regime, told the ladies that they need not fear, the Herald would have nothing to do with the putrid details; nor did it. THE CITIZEN, came out with a hotspur editorial, indignant and very much up on its dignity, about the people attempting to dictate how the editor should run his paper, and incidentally giving a preachment, like Editor Bok, of Philadelphia, is wont to do, on the things to tell children, and the duties of mothers toward the adolescent youth. A fine bit of "get back" and an indication, one would think, that the trial was to be served up piping hot to the readers of THE CITIZEN and no odds asked of anybody. Was it? Hardly. THE CITIZEN had big headlines, that whetted interest, to be sure, but the subject matter was very conservatively constructed, and not calculated to shock anybody. In fact we can imagine some readers, even with prurish proclivities, wishing that THE CITIZEN reporter had not left so much to be read between the lines.—[Forest City News.]

SIMPLE COMMENCEMENT.

Athens Graduates Will Make Trip to Washington—Simple Exercises.

Gradually and surely the high-falutin school commencement exercises where a show of clothes is deemed more important than the mere fact that the high school course has been completed and the examination passed, is passing into the background where it belongs. In many parts of the country radical reforms in the matter of commencement have been inaugurated and the satisfaction following has been general, according to the Wyalusing Rocket.

Over in Renovo the girls will be limited to a dress of white made in sailor style and will not cost over a couple of dollars. Dollar dresses and all made by the girls themselves are in vogue in some places while in other towns the same clothes when they receive their diplomas as they wear during the term. New clothes are tabooed. "Clothes good enough to study and recite lessons in are good enough to graduate in" say some school boards.

The Athens High school of which Prof. Fogers is the principal this year will try something which will be brand new in Bradford county. The commencement exercises will be very informal, the diplomas will be presented without fuss and folly and

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly falling to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & CO. Toledo, Ohio. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

the next day the members of the graduating class leave for Washington, D. C., where they will spend a few days visiting the nation's capitol and taking in the many sights in and around Washington. To pay the expenses of the trip the Board of Education will appropriate the same amount of money as would be used in an elaborate commencement, and the graduates each give a moderate sum which will cover the cost of the trip.

A word regarding quality. In quoting prices herein we have put them as low as possible considering quality.

Each and every fish we quote is positively fresh and we guarantee them to be the best obtainable.

We do not handle small size packages of any kind of salt fish for the simple reason that the smaller the package the more the fish cost per pound, owing to the extra cost of small kegs or tubs.

In quoting Fresh Fish it would be impossible to name prices owing to market fluctuations.

We dress and deliver all fish promptly.
