That Simpson did on the night of September 3, 1910, at Clinton township, steal, take and lead away one horse of the value of \$150, the property of Charles Spevak.

In the case of Cortright &amp; Son versus Erie Railroad Co., Judge Ralph B. Little, Montrose, Wednesday afternoon, after hearing the evidence instructed the jury to find a verdict for the defendant.

The third case on the calendar was that of Albert A. Fitz vs. John T. **THE WORLD AT LARGE**  
**Summary of Important Events All Over The Country Told In Paragraphs.****AMERICANS DETAINED**

A dispute has arisen between Mexico and the United States over the detention in the Mexican jail at Juarez of two American sympathizers of the revolutionists named Edwin M. Blatt and C. H. Converse. The State Department has positively stated that the two men were captured on American soil. The Mexican Embassy denies that the capture was made on American territory.

Blatt is the son of one of the constituents of Stephen C. Porter, Representative-elect from Pittsburg. Mr. Porter asserts that Blatt and his companion, Converse of Glendale, near Los Angeles, were kidnapped by three Mexicans within American territory.

An official statement issued at Juarez gives the assurances that all Americans now confined in Mexican jails will be given trials in civil courts on the charge of sedition against the Mexican Government but that in the future all insurrectionists no matter what their nationality may be subject to the death penalty under military law.

Senor Limantour, the Mexican Minister of Finance, has left New York suddenly in response to a secret message from President Diaz. The Mexican Minister has issued a statement in which he affirms that the revolt in his country may be laid directly at the doors of magnate muckrakers.

Public opinion in America is pro-revolutionary and is becoming more so every day. Diplomats are of the opinion that the situation should be given more publicity in order that the people may be fully informed.

An attempt was made to blow up the barracks at Juarez with two charges of nitro-glycerine. Parts of the buildings occupied by Mexican troops were destroyed.

Speaking for the President, Secretary of the Treasury MacVeagh said that the troops will not cross the border and that there will be no interference with the Mexican Government on the part of the United States.

**GOVERNOR SIGNS BILLS**

Governor Tener signed the following bills yesterday:

Regulating extent to which a defendant may be cross-examined when testifying in his own behalf.

Permitting County Commissioners to issue bonds for erection and repair of buildings for the care of children under jurisdiction of courts.

Refunding to A. Sidney Reynolds, of Philadelphia, \$470 erroneously paid as a State license.

Authorizing county commissioners to erect and maintain dykes along non-navigable streams affected by the tide or floods.

Appropriating \$25,000 for State Hospital near Shamokin, to complete buildings.

Validating acts done and conveyances made by or to corporations after letters patent are issued and before the recording of their charters.

**WOMAN'S VOTE COMING**

It is not probable that the bills for woman's suffrage now before the State Legislature will be given a favorable recommendation. Nevertheless the suffragists have stirred the State Capitol as never before and it is considered only a matter of time before they get their demands.

It is common opinion that the cause of woman's suffrage has been greatly advanced in Pennsylvania. Of course among the various Senators and Legislators you can get as many shades of opinion on the subject as the number of people to whom you talk.

However in spite of the fun poked at the affair, underneath there runs a vein of serious consideration which points to a probable successful outcome in future years.

be bonded in the sum of \$50,000,000 for good roads purposes. It is proposed to saddle a portion of this burden upon posterity as they will be largely the beneficiaries. So far no organized opposition to the plan has appeared, the only objection to be made, if any, being as to the plan, and not to the purpose, for everybody favors good roads. Governor Tener is reported as being in favor of the bill, as well as Senator Penrose, and their support will undoubtedly result in the passage of the act. Nothing much can be done however, until the bonds are authorized and sold, and that means several years from now.

**DEAD IN BED.**

Hiram Comfort, a married man who lived with his wife and daughter, at Galilee, was found dead in bed Tuesday morning at the home of Osborne W. Baker, a prominent Sisko farmer, where he had gone to work a short time ago. He went to bed complaining of pains at his heart Monday evening, and expired during the night. Coroner P. B. Peterson, Honesdale, was summoned and decided that as he died from natural causes, neuralgia of the heart, no inquest need be held.

**Sprout Good Roads.**

From present appearances the Sprout Good Roads bill is to be put through and the people will be asked to allow the Constitution to be amended so as to allow the state to

**Citizen.****MUNICIPAL PRIMARIES IN OCTOBER.****Bill Approved By Rep. State Leaders--Applies To Odd Years and Party Officers.**

A bill fixing the first Saturday in October as the date of the primary elections for the nomination of candidates to be voted for at municipal elections, was introduced in the Senate by Senator Tustin yesterday. It was the result of the conference held in Senator Penrose's office last Monday. It applies to the municipal elections in the odd numbered years and for the election of party officers.

There is reason to believe that this bill will pass the Legislature and be approved by the governor. It has already been reported out for printing. If it passes, the nomination of a candidate for Mayor of Philadelphia will take place in October unless the term of the present Mayor is lengthened by Legislative enactment, together with other municipal officers whose successors are to be elected next fall.

A large majority of the representatives of the interior counties are in favor of postponing the primaries from June until September or October.

One of the arguments in favor of a late primary from a party organization point of view is that the independents would have but a short time to elect an organization to support an opposition ticket. Senator McNichols wanted to hold the primaries on June 3rd while David H. Lane, a member of the Commission on Elections was very much in favor of September or October.

It is thought that no other bill to revise the election laws will be passed at this session of the Legislature. One of the provisions of the bill is:

"That in years in which municipal elections occur (being the odd numbered years) the uniform primary elections for the nomination of all candidates to be voted for at the municipal elections in such years and for electing certain party officers shall be held on the first Saturday of October, and that the said primaries shall be conducted in accordance with and subject to all the requirements and provisions of the laws."
